

MADERO'S VISIT TO MEXICO CITY

Grand Reception is Planned for
Revolutionary Leader on his
Arrival at the Capital To-
morrow.

MEXICO CITY, June 5.—No citizen of Mexico was ever given a more enthusiastic reception than that which is planned for Francisco I. Madero, ex-president, when he enters the capital on Wednesday. Soldiers of the army which he has been fighting since November 20, 1910, will line the streets. In his honor military bands will play and the police, whose duty it once was to arrest those who cried "Viva Madero," will join in the ovation.

The revolutionists in Cuernavaca are to have no part in the celebration. This was decided today, for, fearing that the presence of so many armed men not accustomed to the discipline of the regular army might result in trouble, the government officials have deemed it wise to refuse their plea for participation. Throughout the city troops will be placed, but in this disposition of armed men there is a double significance. It is not altogether certain that the throng which will welcome the people's president will preserve complete order throughout the day, and the authorities are determined that the celebration shall not be marred by any over indulgence in enthusiasm.

De Villiers Out on Bail

EL PASO, June 5.—Daniel De Villiers, charged with complicity in a plot against Francisco I. Madero, Jr., today was released from custody upon furnishing bonds in the sum of \$2000. General J. B. Viljoen, who is pushing the case against De Villiers said today that letters from Monterey in his possession indicated some former high Mexican officials were implicated in the alleged plot.

Train Service Resumed

JUAREZ, Mex., June 5.—For the first time in three months train service throughout northern Mexico was resumed today. A train arrived in Juarez direct from Mexico City by way of Chihuahua. The last previous train that came through was in February. The reopening of the road will enable federal troops to evacuate Chihuahua and the insurgents to take possession.

To Set Up Republic

LOS ANGELES, June 5.—"General" C. A. Price, commander of the Mexican Liberals in Lower California, who has been in Los Angeles for several days, today reached New York for the Mexican Liberal junta and announced the despatch of supplies to his forces at Tijuana, departed today. He announced that he was returning to assume command of the Tijuana forces. Price repeated his intention to set up a republic in the Lower California peninsula.

Cientifico Leader

NEW YORK, June 5.—It was learned here tonight that Rosendo Pineda, the leader of the Mexican Cientifico party, who was reported on his way east with a group of leaders for a conference here, has already reached New York. He arrived on the Ward line steamer Esplanade last Saturday according to the passenger list of that steamer, but he could not be located at any of the hotels tonight. As Pineda is a close friend and adviser of former president Diaz, his arrival adds substance to the report of a meeting of the leaders here, but it could not be learned that others had yet arrived.

WORK ON MAINE

Examination of Battleship Wreck Likely to Be Delayed for Weeks—
Cofferdam is Strong

HAVANA, June 5.—The preliminary stage in the work of exposing the wreck of the old battleship Maine was completed this afternoon, when repairs to the caisson ruptured three days ago were finished by the driving of the last interlocking piles.

Present indications are that some weeks must elapse before a complete examination is possible. The lowering of the water level this afternoon merely gives a clearer view of the after deck than has been possible heretofore, showing it to be encumbered with harnesses and other marine growth.

The most important feature of the removal of the water so far is the strong indication that the main cofferdam will fulfill all expectations of the army engineers by resisting the maximum water pressure from the outside.

West-French Also

MONTREAL, June 5.—The city council today passed a vote of censure on the Grand Trunk railway for placing a slight on a proportion of the population of the city by not posting information in French at the Bonaventure station, where there were notices in Italian, German, English, Hebrew and Chinese on the walls.

Baby's Narrow Escape

NELSON, B. C., June 5.—To see a lot of two and a half years of age knocked backwards by the pilot of the heavy freight engine attached to the Great Northern freight train, and in that manner saved from death beneath the wheels of the train, was the nerve-racking experience of Engineer Smith, in charge of the Spokane freight, at a point near the eastern boundary of the city limits. The pilot struck the child on the right shoulder, and he rolled over on the right track beside the rails and got up and walked away apparently unhurt.

The Cranbrook Entertainer has just celebrated its first anniversary.

IRON PRODUCTION

Statistics of United States Plants Show
Heavy Curtailment for Month
of May

CLEVELAND, O., June 5.—The curtailment in the production of coke and anthracite pig iron throughout the country was very noticeable in May, says the Iron Trade Review. "Statistics collected from the various blast furnaces show a total output in May of 1,858,915 tons, compared with 2,044,904 tons in April, a loss of 187,988 tons in May, although it had one more working day than April. The daily average output in May was 58,300 tons, compared with 68,163 tons in April. "Further confirmation of the curtailment figures is found in the reduction of the number of active blast furnaces, there being 220 stacks active on the last day of April and 207 on the last day of May, a loss of 13 stacks from the active list.

CORWIN IN ICE

First Steamer of Season Finding Diff-
culty in Reaching Shore at Nome
—Seven Miles Out

NOME, Alaska, June 5.—The steamer Corwin, which left Seattle for Nome with 104 passengers on May 10, arrived off the roadstead at 3 o'clock this afternoon, and is bucking the ice floes in an effort to reach the solid shore ice and make a landing. The revenue cutter Bear is standing by the Corwin and is aiding her in fighting the ice.

The shore line is solid seven to ten miles out. It is feared that even should the Corwin succeed in reaching the shore ice today, the crust will be found too unstable to support a landing party, and the unloading of the steamer may be delayed several days.

The Corwin, for years the first boat to reach Nome after the opening of navigation in Bering Sea, is loaded with green stuff. The news that the steamer was approaching spread rapidly and brought the whole town down to the waterfront to welcome her when she makes a landing.

French Warship Hits Rocks

HALIFAX, June 5.—In the thick weather this morning the French warship D'Estrees, commanded by Captain Prohet, struck on George's Island, one of the forts in Halifax harbor. Six hours later she floated off without assistance and having sustained no damage whatever. The accident was due to the pilot mistaking his position in the fog.

LUMBER TRUST IS INVESTIGATED

Witnesses Examined Before
Grand Jury at Chicago in
Regard to Trade Conditions
and Organizations.

CHICAGO, June 5.—A United States investigation of conditions in the lumber industry looking toward the prosecution of the so-called "lumber trust," began today before a special grand jury in the United States district court. Three Chicagoans, Henry A. Sellen, vice-president of a saw and door company; Harry B. Munger, president of a door company; and George J. Pope, vice-president of a lumber concern, were the first to testify.

Coincident with the opening of the inquiry, Oliver E. Hagas, government indictment expert, reached here and began a study of the evidence said to have been introduced on the theory that the case is based on the theory that the lumber dealers' associations and companies form a conspiracy in restraint of trade. The inquiry will affect only organizations of the middle west, south and west.

Among the points alleged by government representatives into which the grand jury will search are: That the associations have forced consumers to buy lumber products from "recognized" retail merchants; that wholesalers and manufacturers, who have sold to consumers, have been blacklisted and that consumers buying from manufacturers have met the same fate; that the purpose of the lumber organizations has been to create lists of persons violating the rules of the trade and to maintain restrictive rules governing the conduct of business.

The effect of the rules, the government says, has been to close the door of the wholesale dealer and manufacturer to the consumer in all parts of the country.

More than sixty witnesses have been subpoenaed. It is said, among them being Cornelius Crowley, Minneapolis agent of the Weyerhaeuser mills at Cloquet, Minn.; Miss Martha Thompson, stenographer of the Northwestern Lumbermen's association; H. E. White, vice-president of the Minneapolis and Platt B. Wilber, editor and manager of the Mississippi Valley Lumberman. It is expected that the grand jury will be in session at least three weeks.

St. Thomas Lawyer Dead

ST. THOMAS, Ont., June 5.—Daniel Coughlin, a leading lawyer, died suddenly today from apoplexy, aged 52.

Mangled by Train

PENDLETON, Ore., June 5.—The body of a man severed in two places was found today on the tracks of the Oregon-Washington Railroad and Navigation company, eleven miles east of Pendleton. Letters on the body lead to the belief that Victor Fohl, at one time of the U.S. Army, is the name of the dead man. Baggage checks and money order receipts from Eugene and Springfield, Ore., were found on the body.

PROCEEDINGS OF CONFERENCE

Proposition of President of the
Board of Trade in Regard to
Employment is Opposed by
Sir Wilfrid Laurier.

LONDON, June 5.—A report issued this evening concerning the proceedings of the imperial conference shows that Rt. Hon. Sydney Buxton, the board of trade president, moved that the overseas dominions consider in conjunction with the Government some means for the utilization of the national labor exchanges for the purpose of securing employment for those desiring to go to the colonies.

Premier Laurier opposed the suggestion, declaring that Canada did not favor direct promotion of emigration from Great Britain or elsewhere. Friction would result between the employer and employee in the Dominion if this course was adopted.

The motion was withdrawn. At the imperial conference today Sir Wilfrid Laurier gave notification of his intention to introduce a resolution with the view to securing liberty for any Dominion of the empire to withdraw from the operation of any treaty made by the government without impairing the treaty in respect to the rest of the empire.

A resolution for uniform navigation laws throughout the empire and the employment of British seamen in British ships was adopted.

Winnipeg Bricklayers Strike

WINNIPEG, June 5.—At a mass meeting tonight seven hundred union bricklayers decided to strike, as the report of the arbitration board was unfavorable.

Americans Still in Prison

EL PASO, June 5.—Governor Gonzales, who is now in Juarez, received information today that the 17 American prisoners captured at the battle of Canas Grandes on March 4 have not yet been released from prison in Chihuahua. He says they will be released upon his arrival in that city, within the next few days, paid off and sent back to the United States.

On Behalf of Prisoners

MONTREAL, June 5.—That a big load of prisoners who were on their way to the courthouse from the penitentiary were jostled and bumped by a car striking the "Black Maria," is the claim made by the attorney general of the province in an action against the Montreal street railway. The amount of damages sought is \$2077.45, for inconvenience to the prisoners. Mr. Justice Lafontaine took the case on delivery.

GIFTS TO MCGILL

Lord Strathcona Donates Another \$100,000 for Medical Building—
Doctor Gives \$25,000

MONTREAL, June 5.—At the annual convocation of McGill today announcement was made that Lord Strathcona had donated another \$100,000 for the completion of the equipment in the new million dollar medical building. Doctor James Douglas has also donated \$25,000 for research work.

CONTROLLERSHIP IS TRANSFERRED

Superintendent Scott is Given
Supervision Over Chinese
Immigration, in Place of Mr.
O'Hara.

OTTAWA, June 5.—As one of the results of the recommendations of Judge Murphy, who investigated the frauds in Vancouver, an order-in-council has been passed transferring to Superintendent of Immigration Scott, the duties of controller of Chinese immigration, heretofore exercised by Deputy Minister of Trade and Commerce F. C. O'Hara.

This will be effective October 1. It is considered that control should be centralized under one department. Canadian trade with New Zealand totalled \$1,404,533 in the fiscal year, an increase of \$404,625. The trade in automobiles has developed largely, one firm selling 320 cars.

May Be Cholera.

BERLIN, June 5.—A woman was taken to a hospital today suffering from suspected cholera. An examination by bacteriologists is being made.

Polo Game Postponed.

NEW YORK, June 5.—Interest in the international polo cup series with the American defenders in possession of the first game by a close score, is stretched over at least another 24 hours because of rain. The teams hope to play tomorrow afternoon provided the weather does not again disappoint them. As the coronation of King George V. draws closer, and all the English officers have assignments at that event, every day's delay means fewer hours between the two remaining matches. The third match probably will be played either on Thursday or Friday.

STRIKERS DEMONSTRATE

Vancouver Crowd Endeavors to For-
made Men to Leave Work—Order
Kept by Mounted Policemen

VANCOUVER, June 5.—Several demonstrations of a more or less peaceful character marked the progress of the strike in the city this evening. A crowd of four or five hundred men gathered in Cordova street near the waterfront, and endeavored to induce a number of workmen engaged on a building to leave their occupation.

A force of mounted police kept the strikers on the move, however, and beyond a few scuffles and the making of several arrests no disturbance took place. The mounted police are patrolling the streets tonight with a view of dealing with any possible outbreak. At present all is quiet.

Intimation has been received from the International Typographical Union refusing the members of the local union permission to take part in the strike, as they had requested.

No disturbances were reported to the police tonight. Special precautions were taken to prevent crowds gathering at street corners. In all seven, arrests have been effected. The men will be brought up in the police court in the morning. At midnight the city was quiet.

SAN FRANCISCO DISPUTE

Contention Over Position of Chief of
Police to Be Subject of Further
Argument in Court

SAN FRANCISCO, June 5.—The war in San Francisco's police department, in which D. A. White and John F. Seymour are contenders for the office of chief of police, was re-opened late today. Chief Seymour was served with an order, issued by Superior Court Judge J. M. Seawell, summoning him to court at 10 o'clock tomorrow, to show cause why the writ of habeas corpus should not be granted, preventing White from taking office, should not be dissolved and set aside.

The court order was made on two motions by the attorneys for the police commission, who are seeking to seat White, should the motion be allowed, the writs and orders will be dissolved and White will take office, pending Seymour's trial. If not allowed, they will be argued on Friday, the date previously set.

The effect of the order is to give the police commissioners an additional hearing of their side of the case. The hearing will be held at 10 o'clock tomorrow.

TOFUA GROUNDS NEAR SUVA PORT

Union Company Has Trouble
With Another Steamer—Di-
vorce and Wife Desertion
Increase in Australia.

MELBOURNE, June 5.—News has been received from Suva of the grounding near that port of the steel twin-propellered tugboat, the Union Steamship Company of New Zealand. The vessel, which carried a large number of passengers, remained fast, and an attempt by tugs to tow it off caused a remarkable accident, the victim being the third officer. As a tug was straining at its hawser the tug parted and the recoil catching the third officer round his ankles, cut off both his feet. The steamer finally was refloated.

A naval skiff capsized in the harbor at Sydney. Seven of the bluejackets who were aboard, and the craft which was the squal which upset it, landed and they were rescued by boats. Two of the men, however, attempted to swim ashore. One reached land safely but nothing has been seen of the other.

The Australian officers on the steamer Levuka assert that they have discovered a sure method of banishing cockroaches from the cabins of vessels. They assert that they place a young turtle in the staterooms in the darkness and the cockroaches disappear as if by magic.

Divorce and wife desertion is on the increase in Australia, according to the opinion of those in a position to know. A member of the high court of the Commonwealth asserts that the moral character of the young is not as robust as formerly, and suggests that even much freedom is allowed both boys and girls nowadays. He advocates as a remedy a revival of the old system of parental control.

BRIBERY IN OHIO

Member of Legislature Confesses to
Acceptance of Bribe and Promises
Much Information

COLUMBUS, O., June 5.—What Prosecuting Attorney Turner and Attorney General Hogan have been hoping for, happened today, when a member of the legislature confessed in open court that he had accepted a bribe and declared his willingness to go before the grand jury and make a clean breast of all his knowledge concerning legislative corruption.

The legislator is Owen J. Evans, representative from Stark county, and a member of the House calendar committee. He was the object of much criticism immediately preceding the bribery disclosures.

Evans spent the day before the grand jury, and will be a witness again tomorrow. A new and large list of indictments is predicted as a result of his confession.

The Canadian Bank of Commerce has opened a branch at Golden. The Placer mines on Wild Horse creek, Cariboo, have resumed operations.

LAST HEARINGS ON AGREEMENT

Senate Finance Committee Ex-
amines Representatives of
Newspaper Publishers' As-
sociation and Others.

WASHINGTON, June 5.—Public hearings on the Canadian reciprocity bill were concluded by the senate finance committee today, representatives of the American Newspaper Publishers' association and of the Associated Press being the last to appear before the committee.

Secretary of State Knox, at the request of Senator Bailey, has been asked to explain tomorrow whether the Root amendment to the paper section of the bill, providing that it shall not be in force until the president is satisfied and issues a proclamation to the effect that paper and wood pulp are being admitted free into all the provinces of Canada, is in full accord with the agreement as understood by the commissioners of both countries who prepared the treaty. On Wednesday the committee will take up the bill in executive session to discuss committee action.

Both Herman Ridder, until recently president of the American Newspaper Publishers' association, and Melville E. Stone, general manager of the Associated Press, testified in answer to queries from various senators, that in their opinion no effort has been made by the newspapers of the country to present only one side of the reciprocity agreement, to color their reports or to suppress facts which were of new value. Bruce Haldeman, president of the Publishers' association, and Frank B. Noyes, president of the Associated Press, also appeared.

The only interest which the newspapers of the country have in the matter, Mr. Ridder told the committee, is their desire to free themselves from the paper manufacturers' trust, which now has the publishers at its mercy. The readers of the country would benefit by cheaper paper, as well as the publishers, he said, because the money saved on paper could be used to furnish a larger and better news service. The hearings wound up with a friendly philosophical exchange between Senators Bailey, Spooner, La Follette and Clark on the one hand and Mr. Stone on the other, as to whether it would be better for the public if newspapers gave them more of the serious, solid and instructive sort of news and less of the sensational.

Mr. Ridder, who occupied the greater part of the day before the committee, acknowledged that the publishers' association had sent out bulletins and letters urging the passage of the reciprocity measure.

"But I would not have favored the measure," he said, "if I had not thought it would be of benefit to the country as a whole, independent of my interest in it as a newspaper publisher."

When Mr. Ridder attacked the newspaper trust, which he said limited the output, fixed the price and told the publisher where he must buy his paper, both Senators McCumber and Bailey, opponents of the bill, said that if there was such a trust, they wanted to see it prosecuted by the government.

Mr. Ridder insisted, in answer to questions, that any amendment to the bill would, in his opinion, endanger and probably kill the measure, and that therefore he was in favor of seeing the bill passed exactly as it came from the House.

Mr. Stone testified that no instructions had been sent out to associated press correspondents as to Canadian reciprocity, except that they had been told to send any important matter connected with it, because of the general interest in the subject.

He was questioned in detail by several senators as to the Associated Press service. All reports, he said, were supposed to be absolutely fair to both sides, to be a recital of facts on their news value only.

WAPPENSTEIN DEFENCE

Ex-Mayor Gill Assumes All Responsibility for Re-Establishment of
Restricted District

SEATTLE, June 5.—The defense began its inning today in the trial of former Chief of Police Charles W. Wappenstein, accused of accepting a bribe of \$1,000 for permitting Gordon Tupper and Clarence J. Gerald to operate two crib houses in the old restricted district. Hiram C. Gill, the mayor of Seattle at the time Wappenstein is alleged to have taken the bribe, was the first witness called by the defense.

Mr. Gill assumed all responsibility for the existence of the restricted district during his administration. Replying to a question as to instructions he had given Wappenstein in relation to that district, he said he had told the chief to re-establish the old restricted district, within such limits as might be acceptable to the then prosecuting attorney of the county; that if it was necessary to add to the old district certain buildings south of Jackson street, that they should agree what should be the limits, and there they should be confined and kept. Mr. Gill further said he instructed Wappenstein that he would not tolerate any system of fining the women.

Fruit men from the Hood river district are investing largely in Okanagan fruit lands.

The government has erected a new bridge, to cost \$9,000, across the Coquahalla river, about one mile east of Hope.
