Dry Goeds.

The dry goods trade is in a frather inanimate y state at present. Travelers have been sending in a fair number of orders but not of a heavy character, and the house sales have been light during the week. The complaint coming from the retail trade is that there has been no active movement of grain as yet and farmers are slow buyers. There has not been any change in prices since last week. Every line of Canadian and imported goods is strong. Buyers at wresent in the English markets advise their houses thabit is impossible to get goods at old prices. Canadian cotton and woolen mills are busy and firm in the prices demanded. Sheetings, grey blankets and white wool blankets are very scarce, the demand being far in excess of the supply. Payments are slowly improving.
