GREAT AGRICULTURAL WORK!

THE FARMER'S GUIDE TO Scientific and Practical Agriculture. By HENRY STEPHENS F.R.S.E., Author of the "Book of the Farm," Editor of the "Quarterly Journal of Agriculture," &c., &c. Assisted by JOHN P. NORTON, A. M., Professor of Scientific Agriculture in Yale College, New Haven, Author of Agricultural Prize Essays, &c., &c.

This highly valuable work will comprise two large royal octavo volumes, containing over 1400 pages, 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, sowing, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the pictorial feature of the book is unique, and will render it of inestimable value to the student of agriculture.

This great work is the joint production of two of the most talented agriculturists of the day; the one eminent as an author and editor in Great Britain, and the other as a Professor in Yale College. Both are eminently practical as well as scientific men, and all they say may be relied on as the result of profound research, test-d and sustained by practical experiment. The contributions of Professor Norton are chiefly designed to adapt the British portion of the book to this country and thus to make it an Anglo-American work giving to its readers all the really useful agricultural knowledge at present attainable in either country.

The work is divided into four departments, distinguished by the four seasons of the year, commencing with Winter, and Prof. Norton's notes will be published as an appendix to each part. The first chapter treats of the following subjects, under the head of INITIATION.

On the best of the existing Methods for acquiring a thorough knowledge of Practical Husbandry. On the Difficulties to be encountered in learning Practical Husbandry, and on the Means of overcoming them. On the Different kinds of Farming. On the Persons required to Conduct and Execute the Labor of the Farm.

On the Branches of Science most applicable to Agriculture. On the Institutions of Education best suited to Agricultural Science. On the evils attending the neglect of Landowners and others to learn practical Agriculture.

On observing the details and recording the facts of Farming by the Agricultural Student. Terms of the Work.—The American edition, the first number of which is already issued, will be published in semi-monthly parts of 64 pages, with an English steel engraving in each number, of which there will be about 22 in all. PRICE, 25 CENTS PER NUMBER. CLUBBING.

Three Copies will be sent to one address for \$15; 5 copies for \$18. Cash in all cases to be remitted direct to the Publishers, and not through Agents. The work will be sent in numbers at periodical rates of postage, and mail remittances may be made at the risk of the Publishers. All orders and communications should be addressed, post-paid, to LEONARD SCOTT & CO., Publishers, 79 Fulton Street, Entrance 54 Gold Street, New York.

Holloway's Ointment.

EXTRAORDINARY CURE OF A CASE ASSUMED BY CUTS, THE METROPOLITAN, KING'S COLLEGE, and CHARING CROSS HOSPITALS, LONDON.

This Affair was known to the Lord Mayor of London, WILLIAM BROOKE, of No. 2, Union Street Southwark, London, Messenger, maketh Oath and swears that he (this deponent) was afflicted with FURIOUS RASHES FROM EAR TO EAR, and Ulcerated Sores and Wounds on both Legs, for which the deponent was admitted an out-patient at the METROPOLITAN HOSPITAL in April 1849, where he continued nearly Four Weeks. Unable to receive a cure there.

THE DEPONENT sought relief at the three following Hospitals—KING'S COLLEGE HOSPITAL, in July, for five weeks, at GUY'S HOSPITAL, in July, for six weeks, and at CHARING CROSS HOSPITAL, at the end of August, for some weeks more; when the deponent left in a far worse condition than that in which he had quitted GUY'S, when Sir FRANCIS COOPER and other medical Officers of the Establishment had told the deponent, "that the only chance of saving his life was to lose his Arm!"

THE DEPONENT, thereupon, called on Dr. BRIGHT, chief physician of Guy's, who, on viewing the deponent's condition, kindly and liberally said, "I am utterly at a loss what to do for you, but here is a half sovereign, go to Mr. Holloway, and try what he says of his Ointment will do for you, as I have frequently witnessed the wonderful Effects it has in Disruptive Cases! You can't, me, see young here!"

THIS UNPREJUDICED advice was followed by the deponent, and a perfect Cure was effected in THREE WEEKS by the use of Holloway's Ointment, and after THREE HOSPITALS had failed! When Dr. BRIGHT was shown, by the deponent, the result of his advice and cheer, he said, "I am both astonished and delighted! For I thought, that if ever I saw you again, it would be without your Arm—I can only compare this cure to a charm!"

Nearest to the Mansion House (St. Paul's Church) of the City of London this 5th day of March, 1850. Wm. BROOKE, J. HIRIE, Mayor.

This extraordinary Ointment will cure the most Dangerous Wounds and Ulcers, Bad Legs, Bad Breasts, Sore Nipples, Sore Throats, Chig-foet, Yaws and Cocks-eye, or AFRICAN KINGS, EYLS, Stoney and Ulcerated Cancers, Ven. Tumors, Swellings, Contracted and Stiff Joints, Scrofula, Ringworms, Boils, Itch, Chapped Hands, Chilblains, Gout Rheumatism, and almost every other External Disease.—The Bile of the Molechere, and "Said Files"—Sold at the Proprietor's Establishment, 244, STRAND, LONDON, and by almost all respectable Vendors of Medicines throughout the Civilized World.

TO IMPORTERS.

Parties wishing to import Goods in the Spring, are informed that the Barque "Lion", is now loading for Liverpool, and will return here direct. She will probably be leaving Liverpool on her return 1.7.50 about 15th March; she can also accommodate a few Passengers. J. W. STREET, St Andrews, 5th February 1850.
