ARE YOU GOING TO PAINT?

Remember it is a pure Linseed Oil and Lead Paint, combined with ingredients to render it glossy and hard.

See testimonial of a practical painter of 16 years' experience:—

I have used the Averill Paint and am fully satisfied that it is far superior to lead and oil mixed in the old way. It gives a heavy body and high gloss, and I am confident that it will prove far more durable. One gallon of it will cover as much surface on an exposed building as one and a half gallons of lead and oil. I consider it as cheap if not cheaper than the best lead. I cheerfully recommend that the public as a first class article.
