### VANCOUVER GRAIN SHIPPING

British Columbia City Claims An Advantage Over Atlantic Ports In Movement of Grain to the United Kingdom.

Vancouver, B. C.—This port will stand second only to New York in the volume of its trading when it serves the grain trade on Western Canada as shipping men are satisfied Vancouver can serve it. This statement was made before the Royal Grain Inquiry Commission by H. A. Stevenson, a local shipping man, who replied to statements made on the prairies regarding local shipping facilities. There was no room for doubt, he said, that adequate facilities would be available.

"Vancouver has an advantage over Atlantic ports in the movement of grain in the United Kingdom," said Mr. Stevenson. "Chartering for a long haul is sought after by tramp vessel owners. It is recognized that there is ample shipping tonnage in existence to more than take care of the world's trade. There has never been so many vessels as there are today. It is reasonable to assume that where there is cargo to move, ships will be available."

### DIGBY EDITOR WILL MANAGE NEW COMPANY

Digby—James J. Wallis, for the past five years editor and manager of the Digby Courier, has resigned that position to take that of manager and secretary of a new printing company just formed in this town, for which articles of incorporation are now being prepared. The new company will be known as Printers Ltd., and it will have a capitalization of \$5,000. The provisional directors are: B. W. Tobin, President; C. E. Dexter, Treasurer, and James J. Wallis, Secretary and Managing Director. The place of business will be in Digby, and the company starts out with a good equipment of type and machinery.

Mr. Howard Healey, of Halifax, the welterweight champion, will leave shortly for Boston on a few weeks vacation. While there Healey intends to keep in training.

### CANADA CAPITAL SAFE

In Russia Today as in the Dominion, Says Sir Donald Mann, Railway Builder, on His Return From Soviet Russia.

Toronto.—"Canadian capital is as safe today in Russia as in Canada," Sir Donald Mann, Canadian railway builder, said on his return to Toronto from a 2,500 mile trip through Soviet Russia. "I believe the Russian Government will live up to any contracts they make. It is up to them now. They must have foreign capital and they must keep their bargains to get it."

"They offered me a great many things, including the railways. But I told them no one had any money for railways, especially as far away as Russia. They had a list of all these things, mines, big plants, railways. I had one interview with the government men that lasted six and a half hours. But I didn't do any business with them."

Living in Russia, according to Sir Donald, is fairly comfortable. "Crops in the north have been damaged by heavy rains but in the south the harvest is very fair."

"What I was impressed by most," Sir Donald said, "was the earnestness of the people. Men in government positions often work all night. Everyone is working at top speed to get the country back on its feet. They are doing business on a gold basis in Russia and you always know where you are with the money. Their gold notes are worth five to the pound sterling. When you go out of the country at any time, you can take them to a bank and get England pounds or American dollars for them."

### C. N. R. EARNINGS

Montreal.—The gross earnings of the Canadian National Railways for the week ending Sept. 7th, 1923, were \$4,781,656, being an increase of \$100,189, or two per cent, as compared with the corresponding week of 1922.

The gross earnings of the Canadian National Railways from Jan. 1st to Sept. 7th, 1923, have been \$164,520,721, being an increase of \$17,675,203, as compared with the corresponding period of 1922.

### TRAINING CAMPS

To Be Started in England This Autumn to Fit Prospective Overseas Settlers For Their New Duties.

London.—A letter in the Morning Post signed by Col. Leslie Wilson, M. P., Parliamentary Secretary to the Treasury, who has been appointed Governor of Bombay; Lord Strathpey, Lord Richard Frederick Cavendish and others deal at length with the scheme of training camps for empire settlement. The letter appeals for financial assistance in starting the camps for the training of prospective settlers overseas this Autumn in different parts of the country so as to fit the emigrants for their new duties.

The Post in an editorial supports the appeal and says: "Of all the relief schemes proposed none promises a more fruitful return. The pressure of unemployment and distress would be at once abated and the empire would be ultimately enriched by the increase of productivity and consuming power. Money spent in enabling workless men and women to become self-sustaining members of the community again is employed much more profitably than a great deal of many millions of pounds lavished upon education at the present time."

Continuing, the Post says: "It is strange perhaps that such a scheme should have been left to unofficial enterprise, but this circumstance has one advantage that it denotes energy and promptitude in that these training camps are to be opened this very Autumn unless the necessary support from the public fails. Its success may well establish the first step in a movement that has deep national even imperial significance. It may solve by practical demonstration the problem that lies at the root of empire development."

It is a man's duty to have books.

### ELIMINATION RACE OFF

GLOUCESTER OCTOBER 12

Gloucester, Mass.—The Gloucester fishing schooners will race about October 12th for the honor of challenging for the International Fisherman's cup, won last year by the Nova Scotia schooner Bluenose. This date has been tentatively set for the American elimination series, although the American Race Committee has not yet announced its plans.

The new Columbia is now on the banks salt fishing, but Capt. Alden Geele has promised to leave for home Sept. 20th, in order to be ready for the elimination.

The Henry Ford, runner-up to the Bluenose last year, is regarded as another certainty for the elimination tests.

The Elizabeth Howard is the third probability here.

### THE APPLE OF THE FUTURE

(From the Manchester Guardian) "The apple of the future," said Mr. J. J. Ammon, of Utica, New York, "can be eaten in the dark." Mr. Ammon, who is visiting London, is an official of the New York State Apple-Growers' Association and a man of enthusiasm. "Our Association," he went on, "has adopted as its slogan: 'Grow, grade, and pack apples that can be eaten in the dark.' Other States have taken it up. It is the only way to do. Just as the farmer has learned from bitter experience that poor cattle do not pay, so the fruit-grower has learned from equally bitter experience that poor fruit does not pay."

"I admit it is a heroic slogan from every point of view," he went on. "It takes sublime faith to bite an apple in the dark nowadays, and it takes heroism in the apple-grower to reject rigidly all bruised and inferior fruit, but it pays. We've now got our bankers educated so that they will lead more money per tree to the man who sticks to our slogan than to the man who tries to sell everything on the place."

## SAVED FROM AN OPERATION

Restored to Health By Taking "Fruit-a-tives" Made of Fruit Juices and Tonics

The most convincing proof of the true worth of "Fruit-a-tives" as a medicine for women is found in a letter written by them to "Fruit-a-tives". For instance: "I suffered with all the symptoms of female trouble, pains low down in the back and sides, constipation and constant headache. A doctor advised an operation. I started taking 'Fruit-a-tives' and this fruit medicine completely relieved me of all my misery".

Mrs. M. J. GORSE, Vancouver, B.C. 40c. a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives Limited, Ottawa, Ont.

The truly strong and sound mind is the mind that can embrace equally great things and small.

will lead more money per tree to the man who sticks to our slogan than to the man who tries to sell everything on the place."

The visitor said he was unfamiliar with English fruit "except historically in the text-books," but was generous in his praise of Canadian fruit-growers. "They are a very conscientious lot," was the way he put it. Apparently they have reaped recently a reward, for when the United States Department of Agriculture placed a ban on foreign fruit a few weeks ago "to guard against disease" it made a specific exception of guaranteed Canadian fruit.

Colored by Nature's Brush

NOT least of the charms of a Brantford Roof is the knowledge that its colors do not fade—do not lose their original warmth—do not cost a cent for paint or stain. This is because Brantford Asphalt Slates have the natural colors of the slate with which they are faced.

Beautiful—durable—economical—fire-resistant—you should learn all about Brantford Asphalt Slates before you plan a roof.

- APART FOR 54 YEARS. BROTHERS ARE UNITED**  
St. John, N. B.—Visiting St. John are two brothers, natives of New Brunswick, who had not seen each other for 54 years, until last week. They are Thomas E. Smith, of Passmore, King's County, and Isaac P. Smith, of Paris, Ont. Equally remarkable is the fact that there is another brother, residing in California, who has not met the members of his family for 56 years. Still a fourth brother is in Newton, Mass., but he has been a recent visitor to his native province.

**450 Cups to a Pound**

Absolutely Boiling Fresh Water

Impossible? We thought so too till we tested the new Rakwana Golden Orange Pekoe, and found it produced 450 good stirring cups—with some over.

Try it yourself. Level off a teaspoon of Rakwana Golden Orange Pekoe, place in earthen or china pot, well heated. Pour on violently boiling fresh water. After three minutes, stir and steep again.

Three bracing cups from one slim spoonful! 160 spoonfuls to the pound! Economy to buy the best? Of course!
