FORTIETH ANNIVERSARY OF MARRIAGE OF MR. AND MRS. JOHN L. POTTER.

Mr. and Mrs. John L. Potter of Upper Clements celebrated the fortieth anniversary of their marriage at their home in Upper Clements on Wednesday afternoon, November 18th, with their friends and relatives. Mr. Potter was born in Upper Clements, New Brunswick, and Mrs. Potter was born in the late Rev. Melbourne Parker, a former pastor of the Clements Baptist Church. They have had four children: three sons, Hugh, who passed away eight years ago, Homer and Ernest, and two daughters, Mrs. Geneva Harwick and Miss Bessie Potter, all of whom live in Upper Clements.

The invited guests were Rev. and Mrs. Frank Smith of Deep Brook, Mr. and Mrs. Samuel Mack, of Bridgeport, Mr. and Mrs. Eber Potter of Clements, Mr. and Mrs. Asa Potter of Clements, Mrs. Carol Deakin of Tupperville, Mrs. Irene Dutton of Wilkes, Mrs. Adria Potter of Lawrencetown, Mr. and Mrs. Aaron Wright of Clements, Mr. and Mrs. Alice Hattie Chittley from Windsor, who arrived unexpectedly. Supper was served in the dining room, which was tastefully decorated, with a large wedding hall, from which floated gay streamers caught with pink and green. The bride's cake adorned the centre of the bounteous table where all joined hands and sang, "Blest be the tie that binds." Then late in the evening the neighbors arrived to congratulate the happy couple, when a real time serenade took place outside. Among the gifts received were china, glass and money and many other useful presents. The evening was spent in music and games and after having an enjoyable time they all departed by singing "God be with you till we meet again" wishing Mr. and Mrs. Potter many more years of wedded life.—Spector.

PHINNEY COVE

Mrs. Emma Chute has been visiting friends at St. Croix Cove and Hampton.

Mrs. Annie Mitchell of Hampton, was a recent visitor to Mrs. Watson Burt.

Mrs. Donald Bent recently enjoyed visits from her little brother and sister from Hampton.

RHEUMATIC PEOPLE NOW FIND RELIEF

By Driving the Poisonous Acid From the System.

Rheumatism attacks people when the blood is thin and watery or charged up with impurities, thus setting up inflammation of the muscles and joints. Colds, wet weather or sharp winds may start the pain, but the cause is rooted in the blood, and so get relief it must be treated through the blood. As a blood builder and nerve tonic Dr. Williams' Pink Pills are unsurpassed, and for that reason do not fail to give relief to rheumatic sufferers when given a fair trial. Among the "rheumatic" sufferers who have proved the great value of this medicine is Mr. N. A. J. Windsor, N. S., who says: "My trouble started with my cold, the result of working in a heavy rain storm. From that a developed into rheumatism which badly crippled me and kept me confined to bed for upwards of six months. The doctor who treated me did not help me, and every friend who called to see me had something different to advise. Some of these remedies I tried, but with no better results. My legs were stiff from the hips down, and every move I made caused intense pain, and constantly I was growing weaker. Then a friend from Falmouth, who came to see me, asked if I had tried Dr. Williams' Pink Pills. I had taken so much medicine without benefit that I was skeptical and said so. My friend, however, had so much faith in the pills that he got me a supply and I began taking them. I had not been taking them long when I began to feel a change for the better, and I gladly got a further supply. Soon I was able to get out of bed and walk around on crutches. Still taking the pills I used in all seven boxes, by which time I was a well man and at work every day. Now I always keep a box of Dr. Williams' Pink Pills in the house and if I feel an ache or pain I take them, and always with good results. I believe I would still be a bed-ridden cripple but for these pills, and I shall always praise and recommend them. You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

SMITH'S COVE

The annual Roll Call of the Smith's Cove Baptist Church was held on the afternoon and evening of November 19th. The visiting ministers were: Rev. P. E. Bishop, (Bapt.) and Rev. James Appleby, (Method.) both of Digby. It was much regretted that Rev. E. J. Darras, of Bear River, was unable to be present as planned. The afternoon meeting took the form of a devotional service. Rev. Mr. Appleby preached a very helpful and inspiring sermon on prayer. At the close of the service, the visitors and a goodly number of members went below to the vestry, where supper was served and an enjoyable time spent together. The evening session commenced by a song service at 7.15. The roll of members was called and messages read from absent members of the church and congregation. This was followed by a sermon by Rev. P. E. Bishop, his subject being "Evangelism." The service was interesting and helpful. At the close of the service it was announced that the sum of \$79.00 had been received as collections and contributions. Since last year other contributors have been received until last report the sum had reached \$88.

Mrs. Edward Winchester spent a few days recently, the guest of Mrs. Lovett Winchester, Kentville.

Mrs. Henry H. Sallis, who has been spending some weeks the guest of her daughter, Mrs. Arthur Hodges, of St. John, has returned home.

Reginald Longley of Paradise, called on friends here recently.

Mrs. E. R. Thomas is visiting in St. John.

Mrs. Kelsall, of Annapolis and little son John, are guests at the home of Mr. and Mrs. E. R. Thomas.

Miss Louise Cossaboon, who has been visiting friends in Tiverton, has returned home.

We are glad to report Mrs. Oscar Morgan much improved in health.

Mrs. Fred Smith and son Robert, spent a few days in Weymouth, the guest of Mrs. Smith's sister, Mrs. W. S. Leat.

Mr. and Mrs. F. M. Grant and sons, Scott and Lloyd, of Barton, were in the village on Sunday of last week.

Rev. L. E. Nims occupied the Baptist pulpit on Sunday evening, November 22nd.

MONCTON HUNTER HAD A THRILLING BATTLE WITH BEAR.

A thrilling story of an encounter with a bear was told to a Times representative last evening by a party of hunters from this city who returned this week from a ten days' hunting trip on the North-west Miramichi. It appears that one of the party, Mr. Fred Abrams, had set the camp one morning in search of deer and he was proceeding through the woods when a bear sprang on from behind a stump and cleared a windfall less than twenty feet away from the hunter. The latter was not to be caught napping and as his quarry was in the air he fired, the shot going through the lower jaw of the animal, wounding him to such a degree that he was unable to rise. Mr. Abrams, quickly gained the bear's attention and in the opposite direction with Mr. Abrams in pursuit. The animal shot out in the bear's hindquarters, but did not stop him.

In a short distance he reached a ledge with a steep bank and kept on going, but the bank proved too steep and in his effort to escape he lost his hold and rolled to the bottom with the hunterman gubing on him every second. Again finding his legs would not hold him up and without losing a moment made for his pursuer who, however, stopped him with a bullet which entered a fatal part and "his" closed his bearship's career.

Mr. Abrams was none the worse for his thrilling experience and is today exhibiting a good sized bearskin at his machine shop on Foundry Street.

The hunting party, which included Dr. A. H. LeBlanc, D. P. Dower, Fred Abrams and Arthur Dower, of Moncton, also Robert, Charles and William Weldon, of Chatham, were also very successful in bringing down seven fine deer during the trip.—Moncton Times.

King Cole

ORANGE PEKOE

THE "EXTRA" IN CHOICE TEA

SEND THEM TO BED WITH A KISS

O mothers, so weary, discouraged, Watch out with the cares of the day. You often grow cross and impatient, Complain of the noise and the play; For the day brings many vexations, So many things going amiss; But, mothers, whatever may vex you Send the children to bed with a kiss!

The dear little feet wander often, Perhaps, from the pathway of right; The dear little hands find new mischief To try you from morning till night. But think of the desolate mothers Who'd give all the world for your bliss, And, as thanks for your infinite blessings, Send the children to bed with a kiss!

For some day their noise will not vex you, The silence will hurt you far more; You will long for the sweet children's voices, For a sweet, childish face at the door, And to press a child's face to your bosom— You'll give all the world just for this; For the comfort 'twill bring you in sorrow, Send the children to bed with a kiss!

ST. CROIX COVE

Mrs. Lavenia Templeman, of Port Lorne, was a recent visitor at the home of Mr. and Mrs. Zachary Hall.

Mrs. Emma Chute, of Youngs Cove, has been visiting Mr. and Mrs. B. Poole, the past two weeks.

Mr. and Mrs. Ernest Reagah and Mrs. Ira Britton and family, of Hampton, spent the 23rd at the home of Capt. and Mrs. E. Brinton, Mr. Willard Fenerty, at the same home.

Mr. Brown, from Cumberland Co., was a visitor at the home of Mr. and Mrs. Joseph Hall the 25th.

Mr. and Mrs. Joseph Phinney and two children, Gertrude and Phyllis, of Upper Granville, spent the 22nd, at the home of Mr. and Mrs. Bradford Poole.

150,000 children yearly, which would be the salvation of a country that needs every possible bit of manpower.

One of the greatest causes of infant mortality has been traced to the influence of pulque drinking on mothers who are nursing children. The reports of the department will be used in a new crusade against pulque, which, it is claimed, in addition to causing the tremendous mortality among children, is a direct cause of much misery and crime.

PRINCEDALE

Miss Zula Hargish of Greywood, is spending a few weeks at Mrs. Estace Wright's.

Mrs. Leslie Baird of Clements, spent Sunday with her sister, Mrs. Elder Fraser.

The stock left a baby girl at the home of Mr. and Mrs. Estace Wright, Wednesday, November 25th.

Misses Clara and Bertha May Fraser are spending a few days at Culloden.

Mr. and Mrs. George Laramore and daughters, Mildred and Marion, of Smith's Cove, were Sunday guests of Mr. and Mrs. Forman Wright.

Mrs. Annie E. Fraser, who has been spending a few months in Bear River, returned home Wednesday.

Mrs. Lena Gillis of Dalhousie, recently visited her sister, Mrs. Elnor Clark. Mrs. Clark has also been visiting her old home in Dalhousie.

Mr. Stanley Chute recently took a trip to Dalhousie; Mr. Clyde Chute to Paradise.

Miss Eleanor Chute recently visited Miss Addie Hudson at Lake Brook. She is now at home for a while.

Messrs. Frank, Kenneth and Eber Chute, and Otis White motored to Lower Granville a few days ago and were successful in getting a good number of clams.

Mrs. Israel recently spent a few days with her father, Mr. Alden Bent, at Beaconsfield.

Mr. Dan Cranston and Miss Phyllis Saunders of Centerville, visited Mr. and Mrs. Otis White on the 15th.

Mr. and Mrs. Farnsworth and Mrs. Tolan, of Hampton, were recent guests of Mrs. Frank Chute.

Miss Myrtle White spent Sunday, the 22nd, with her grandmother, Mrs. Turpie, at Tupperville.

WINTER QUARTERS FOR BROOD SOWS.

(Experimental Farms Note.)

The old method of wintering sows in pens in the piggery is becoming obsolete based on the theory that the close confinement encourages rheumatic troubles. Rheumatic troubles are avoided usually by a more or less pronounced stiffness of the hind quarters. This results in awkwardness, and losses at farrowing time. Exercise and dry rook quarters have been found to be the most effective preventive.

In Eastern Canada the cabin or colony house method has been adopted as the best means of providing exercises and dry quarters. These small cabins, capable of holding two or more sows, are located in sheltered paddocks or in the barnyard, and the sows are at liberty to take plenty of exercise. A few days before farrowing they are removed to the farrowing pen in the piggery.

At the Fredericton Experimental Station an experiment was begun in the fall of 1924 with the object of comparing results with sows wintered in cabins and sows wintered in pens in the piggery. Eight sows were used in the experiment, four in cabins and four in pens. From November 26th to March 18th, the pen wintered sows made a total gain of 400 pounds as compared with a gain of 435 pounds for the cabin wintered sows. The ration for outside and inside wintered sows was the same, and the same amount of feed was consumed by each lot. The winter of 1924 and 1925 was an exceptionally mild one, which may account for the fact that more feed was not required for the outside or cabin wintered sows. The pen wintered sows showed strong evidence of going lame in their hind quarters, and this tended to develop as the gestation period advanced. The cabin wintered sows remained active right up to farrowing time. No reliable data from a litter standpoint are available from the above experiment as six of the eight sows were not raised at the Fredericton Station, and proved to be inferior breeders.

Under practical farm conditions, if the regular pen opens on a fair sized outside yard, this partly supplies the desirable features required for best results with brood sows. The Superintendent of the Experimental Station at Lennoxville gives his brood sows the run of a large open yard both summer and winter, and reports that this has contributed greatly to the health and vigor of the stock.

T. G. Hetherington, Experimental Station, Fredericton, N. B.

THE WEEKLY MONITOR

Bridgetown, - Nova Scotia

OBITUARY

Mrs. Augusta Whitman Morgan

Mrs. Augusta Whitman Morgan passed to her eternal rest on November 23rd, while being brought to her old home in Lawrencetown. She had, for some time, been tenderly cared for by her son, Samuel Hampton of West Dalhousie. Although well physically, she had, for the past three years, been failing mentally. She was sick for ten days and then passed peacefully away, during sleep.

The funeral service was conducted at her late residence in Lawrencetown, by Rev. A. B. Higgins, pastor of the United Church and Rev. A. H. Whitman, pastor of the Baptist Church. The pall bearers were Mr. P. G. Palfrey and Mr. W. E. Hall, of Lawrencetown, and Mr. Freeman Shipp and Mr. Lawrence Durling, of West Dalhousie. The body was laid away in the old Whitman cemetery, the burial place of her people during the last hundred and fifty years.

Mrs. Morgan was the widow of the late John Morgan and daughter of the late Rice Whitman, both of Lawrencetown. She is survived by one son, J. N. Morgan, of Idaho, U. S. A., one daughter, Miss Elizabeth Morgan, of the Kindergarten Department, Truro, who was with her mother at the last; six grand children and three great-grandchildren, all of Idaho; two brothers at Lawrencetown and two sisters also survive her.

Mrs. Morgan spent all her life in Lawrencetown and was actively connected with everything that went on for the good of the community. She was a devoted member of the Methodist Church, always eagerly ready to help in any branch of her church's work. One has gone from among us who was a loving mother and always a kind and helpful neighbor.

TO VACCINATE AGAINST T. B.

New York.—The New York health department is testing the Calmette process of tuberculosis vaccination on animals with a view to immunizing babies in New York City, if it is successful, it was announced Sunday night.

The Calmette method, developed by Dr. Calmette, assistant director of the Pasteur Institute of Paris, is that of inoculating infants three days after they are born with a living strain of tuberculosis germs.

Dr. Salmette has inoculated more than 2,000 infants, none of whom has contracted tuberculosis. Ordinary statistics show that 100 of the 2,000 if not immunized, might be expected to show signs of the disease.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas.

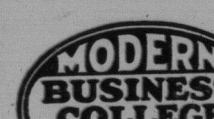

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 13 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

29-11.

A GOOD SCHOOL.

The fact that we train and place in positions more young people than all other schools in New Brunswick combined and that we have grown to be the greatest business training institution in Eastern Canada, is sufficient reason for your attending our school.
