

C. H. Olson Gold Dredger Co.

Manufacturers of

Placer Mining Dredges.

Our patent arm used on dredges built by us is pivotally mounted on boat and does away with a large amount of heavy machinery generally used on machines of this type, also reduces the cost of operation to a minimum, makes the dredge easy to handle and the power required to operate very small. The machinery parts of this dredge complete weigh only ten tons.

Our Dredges are successfully working placerground in the state of Washington and can be seen in operation at any time. Write for information and descriptive circulars to
