

THE UTILITY CAR

IT IS the all-'round farmers' car. You can take a pleasure trip, haul merchandise to and from town, take long journeys, travel through mud, sand and snow, and up steep hills. You can do all this in comfort and safety—and at the same time save money and energy.

One man says: "It runs easy and smooth, and takes its maximum load at good speed over all sorts of desert roads—through sand, rocks, bushes, mud, uphill and downhill. It never fails. It takes hills and sand on a high gear where other machines have failed to follow on any gear and stuck tight, until pulled out by a team of horses."

This is why the International Auto Buggy is the utility car. It will do what you want it to and when you want it done.

It is the perfected car for the farmer—built by a company that knows most about his problems and that has been solving them for years—and guarantees its machine to be as represented.

The tires are solid rubber. You are not delayed by punctures or "blow-outs." There is no expense of mending.

It has a powerful driving mechanism—of such simplicity that you will understand it without difficulty. Its high wheels and clearance will avoid the danger of being stuck in mud-holes and deep ruts, or stopped by stumps and other obstructions.

The Auto Buggy is furnished with either single or double seats and with or without top. It carries a supply of gasoline sufficient for a seventy-five-mile journey.

Our local agent will cheerfully supply you with catalogue and explain the advantages of the Auto Buggy and its mechanical construction. Call on him; or, if you prefer, write direct for catalogue and further information.
