

**WHY AUGUST IS**  
 so debilitating in its effect upon the system is not so much the heat as the humidity of the atmosphere. The life-sustaining gases seem to be diluted, and hence that languid, "all gone," exhausted feeling, so characteristic of this month. To vitalize the blood, sharpen the appetite, correct the liver and kidneys, expel scrofulous humors, and tone up the nerves, no other preparation equals **Ayer's Sarsaparilla**. It goes right to the spot, and is just the kind you need. Taken during your vacation, at the seaside or in the country, it will prevent malaria, and cause a more speedy restoration to sound and vigorous health.
