

seen estimates made valuing a native-born Canadian child at one year old worth to his country from one to two thousand dollars. Considering this at the lowest estimate of one thousand dollars, there would be a credit to the rice and fruit-fed mothers of millions every year. If this was done there are very few pregnant women but would follow the directions to the letter and the saving of child life would be enormous.

Yours respectfully,

ALFRED BOWLBY.

Waterford, Norfolk County, Ont.

OBITUARY

W. L. GABOURY.
