"A
RED
BIRD"
Point

Bratford Bicycles for 1989 are radiant with features of importance. There is no other wheel sold in Canada today that possesses so many of them, or that will give the rider the same amount of good, general cycling satisfaction. **Bratford's "Red Bird"** Cycles are made in three grades, and sell at \$60, \$75, and \$90. They cost more than some inferior wheels, but that is on account of their superior construction. A postcard will bring your hand-in. 98 catalogue, www.98catalogue.com.
