As the hands do not come in contact with the water, chapped, scalded and sore hands are avoided. The mop being wrung at arm's length there is no stooping or straining of the back or shoulders. The hands are not soiled or disfigured by the wringing of a filthy, greasy cloth. As the cloth is not stretched or disfigured as in ordinary mopping no special preparation is required.

The use of scalding water is another important advantage impossible with the ordinary hand-wringing mop. The floor washes easier, cleaner and quicker, and dries quicker.
