

## ANOTHER MONO MIRACLE.

HOW A BRIGHT LITTLE GIRL'S LIFE WAS SAVED.

A Terrible Sufferer from St. Vitus Dance—Could Not Feed Herself and Had to be Closely Watched—A Public Acknowledgment by Her Grateful Parents.

From the Shelburne Economist.

Many of the readers of the Economist have doubtless been impressed to a certain extent by the reports of miraculous cures effected in various parts of the country by the intelligent use of Dr. Williams' Pink Pills for Pale People, and yet in the minds of a few there may linger just the shadow of a doubt regarding the veracity of these reports. To be candid, the writer of this article, confesses to have had in the past a desire to avoid the miracle column of the papers, but now he admits that were the cases anything like that which came under his personal observation a few days ago, the proprietors cannot say too much concerning these pills and their curative powers in the many diseases to which flesh is heir.

One day last week the reporter waited upon Mr. and Mrs. John Lindsay at their home, Lot 31, Con. 1, E. H. S., township of Mono, and listened to the words of grateful acknowledgment which fell from their lips while describing the terrible malady from which one of their children had been suffering, and of the complete restoration to health effected by the use of Dr. Williams' Pink Pills. It appears that during the winter of 1881-2 the child, Fernie Ella May by name, and now aged about seven years, contracted la grippe. One night during her illness her father heard her scream and ran to her bed. The child appeared to be in a terrible fright and for some time could not be pacified, and although she apparently recovered from the usual symptoms of la grippe, she was never the same in health and strength. Her nervous system seemed to have become deranged, and as time passed the terrible symptoms of St. Anthony's or St. Vitus' dance were noticed by the parents. Doctors did all they could for her, but instead of getting better she became worse, until the parents had given up all hope. She could not feed herself, nor could she take hold of a cup when handed to her. She would frequently fall down when attempting to walk across the floor, and had to be closely watched for fear she might at some time fall on the stove. Nor could she sit on a chair. It seemed as though she had completely lost control of her limbs. Prior to her illness she had usually assisted in dressing herself—now her parents had to hold her limbs when putting on her clothing. She could not turn herself in bed and her parents had to turn her. She was perfectly helpless and had almost lost the power of speech. When she did speak it was with difficulty she was understood, as her tongue was drawn to one side and she had lost control of it. She had a strange, demented look that foreboded the loss of reason. The condition of the poor child was pitiable in the extreme. One day about the end of January last the father read of the case of little Ernest Duke, who had been cured by Dr. Williams' Pink Pills, and he secured a box from Mr. Brown, druggist, of Shelburne. They commenced the treatment by giving the child three pills a day—one after each meal—and never varied from that treatment to the end. Before the first box had been used they noticed that the little girl's appetite was improving, and by the time three boxes were used she had improved to a marvellous extent. In April last, the child having fully recovered, no more pills were given her. Several months have passed since then and there has been no relapse and no sign of a return of the terrible malady. The cure seems to be complete and no further medicine has been required. The parents state emphatically that Dr. Williams' Pink Pills saved the life of their little girl.

Dr. Williams' Pink Pills are a specific for all diseases arising from an impoverished condition of the blood or a shattered condition of the nervous forces, such as St. Vitus' dance, locomotor ataxia, rheumatism, paralysis, sciatica, the after effects of la grippe, loss of appetite, headache, dizziness, chronic erysipelas, scrofula, etc. They are also a specific for

the troubles peculiar to the female system, correcting irregularities, suppressions, and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of any nature. These pills are not a purgative medicine. They contain only life-giving properties, and nothing that could injure the most delicate system.

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trade mark and wrapper, (printed in red ink.) Bear in mind that they are never sold in bulk, or by the dozen or hundred, and any dealer who offers substitutes in this form is trying to defraud you and should be avoided. Ask your dealers for Dr. Williams' Pink Pills for Pale People and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Brockville, Ont., or Schenectady, N. Y., at 50 cents a box, or six boxes for \$2.50. The price at which these pills are sold makes a course of treatment comparatively inexpensive as compared with other remedies or medical treatment.

**OUT OF THE FRYING PAN**

Has come not a little knowledge as to cookery—what to do, as well as what not to do. Thus we have learned to use

**COTTOLENE,**

the most pure and perfect and popular cooking material for all frying and shortening purposes.

**PROGRESSIVE COOKING**

is the natural outcome of the age, and it teaches us not to use lard, but rather the new shortening,

**COTTOLENE,**

which is far cleaner, and more digestible than any lard can be.

The success of Cottolene has called out worthless imitations under similar names. Look out for these! Ask your Grocer for COTTOLENE, and be sure that you get it.
