Partner**

Domi Creative Woodcraft specializes in unique, handcrafted wood items of unmistakable style and quality. It's something we work hard to achieve — every time, one piece at a time.

All designs are created by Donna and Michael Sinclair. Individually crafted, no two items are exactly alike. Domi's highly skilled craftsmen guarantee outstanding quality.

Our most established product line includes desk accessories, boxes, vases and fine dining accessories laminated with colourful exotic hardwoods into landscape motifs, and finished with hand rubbed natural oil.

Domi's country theme consists of white-wash solid maple accessories, silkscreened and hand painted in soft pastels, incorporating traditional Pennsylvania Dutch motifs. Products include candle boxes, checkerboard trays and boxes. All products are both practical and aesthetically pleasing.

We also offer individually-designed custom woodworking for your own ideas, or for ours exclusive to your needs for corporate gift giving, selected clientele or your own product line.

Individually crafted from wood, no two pieces are exactly alike, making our products truly distinctive gift items.

Dove Tale Collections manufactures a comprehensive line of decorative accessories for the home. Our designs concentrate on the French Country and Victorian traditions. We have taken a great deal of care to develop a co-ordinated package, with consistent emphasis on quality and service.

Our fashionable hand-woven and hand-stencilled rugs, table-runners, placemats and pillows are complimented by a wide range of attractive wooden items, including trays, shelves, mirrors, planters and coat racks.

We offer more than 30 different designs in our decoy collection. Hand-crafted from both pine and cedar, our decoys are regularly the subject of feature articles in national magazines.

Dove Tale Collections is committed to offering its customers design uniqueness. We introduce new items on a bi-annual basis, and at competitive prices.

Handsome decoys complement a full additional range of distinctive household accessories.

Owner**

Des Ussher Productions Ltd. is a newly created division of D.H. Ussher, dedicated to the production of high quality collectables, including plates and spoons, and displaying the talents of Canadian artists.

Our company was voted "Manufacturer of the Year" in 1986 by the Canadian Association of Limited Edition Dealers. The award was presented in recognition of our dedication to quality of product, and to the superior choice of both art and artist.

In 1987, we entered into a major contract to produce the collector plate, and other collectable items for the National Parks of Canada Centennial Collection. This significant undertaking will comprise one or more paintings from each of Canada's 45 national parks. It will be permanently displayed in The Museum of Man, in our nation's capital.

Through the vehicle of collectables, any individual may own a part of this important collection.

Gorgeous collectable plates and spoons resulted in "Manufacturer of the Year" honours.
