

ABSTRACT

This Update follows-on from an earlier compilation of verification literature entitled Bibliography on Arms Control Verification: 1962-1991¹. Researchers are advised to consult both bibliographies for a more complete picture of the literature covered during this timeframe.

This Update lists alphabetically over 800 documents related to verification identified since the publication of the 1991 Bibliography, with special emphasis on material produced since the summer of 1991. It also covers French language material, particularly that published by External Affairs and International Trade Canada and the United Nations Institute for Disarmament Research. As before, these documents include the publications and submissions of governments and international organizations as well as the academic literature on the subject.

Each document has been assigned a number of subject keywords describing its contents. An updated thesaurus of these keywords is included in this report. Subject access to the documents contained in the Update is provided through an index of these keywords.

¹ Bibliography on Arms Control Verification: 1962-1991, (Ottawa: External Affairs and International Trade Canada, October 1991).
