

We will strengthen national, hemispheric, and international efforts aimed at environmental protection as a basis for sustainable development that provides human beings a healthy and productive life in harmony with nature. The commitments undertaken at the Miami Summit and the Summit on Sustainable Development held in Santa Cruz de la Sierra, Bolivia, provide a solid basis for strengthening our actions. As parties to the United Nations Framework Convention on Climate Change, we underscore the importance of working together to further fulfillment of the agreement reached at the Conference in Kyoto, Japan, and to promote its ratification in our countries. Moreover, we will work closely to make preparations for a Conference of the Parties to be held in November of this year in Buenos Aires, Argentina.

We acknowledge that the development of energy links between our countries and the intensification of trade in the energy sector strengthen and foster the integration of the Americas. Energy integration, based on competitive and transparent activities, and in compliance with national conditions and objectives, contributes to the sustainable development of our nations and to the improvement of the quality of life of our people with minimum impact on the environment.

Recognizing the importance of, and positive role played by hemispheric institutions, particularly the Organization of American States (OAS), we instruct our Ministers to examine the strengthening and modernizing of these institutions.

We reaffirm our will to continue strengthening intra-hemispheric dialogue and cooperation within the framework of friendship and solidarity that inspires our nations.

Done in Santiago, Chile, on this the 19th day of April, 1998, in the Spanish, French, English and Portuguese languages.
