BETHLEHEM STEEL **PASSES RECORDS**

Pace on New York Stock Exchange.

Iron Pipe, Pressed Steel Car Favorites.

NEW YORK, Oct. 2.-Today's session to one of the most active weeks 'n was even more active, the short on recording a turnover of about 50,000 shares.

session recording a turnover of about 750,000 shares.
Of this amount Westinghouse contributed about 25 per cent. and U. S. Steel and American Car and Foundry 15 per cent. each. Westinghouse was the allaborbing feature for a time, adding a total of almost seven points to yesterday's substantial gain at the maximum of 139½. American Car got into its greatest stride shortly before the close, the enquiry for this stock sending the price up by leaps and bounds to 95, a new record and an overnight advance of if points. Steel was backward at first, but came within a fraction of yesterday's top, its best price in four years, just before the end.

New Record for These.

Some of the recent favorites like Bethlehem Steel and General Motors were conspicu for their new records, Bethlehem going to 375 and Motors to 350 on 10 point advances. Willys-Overland also achieved new high at 225½. Such issues as American Woolen, U. S. Cast Iron Pipe, Pressed Steel Car, Industrial Alcohol, and the petroleums all figured to a substantial degree in the rising movement.

Railroads were again treated with

ment.
Railroads were again treated with scant consideration, playing little or no part in the day's doings, except to manifest heaviness at intervals. Canadian Pacific was pressed for sale, but in the final dealings betterment in this group

was registered.

News of the day bore mainly upon the Anglo-French loan with its large subscriptions and trade reports which indicated an increase of expansion and distribution, particularly at jobbing centres.

The bond market was firm on moderate dealings. Total sales aggregated \$2,320,000.

DEAL SAID TO BE ON FOR PETERSON LAKE

H. B. Mills, in his weekly letter, says:
My exclusive information regarding the
deal now being negotiated by Nipissing
Mines for Peterson Lake apparently displeased a coterie of insiders, who were
anxious to quietly absorb all stock possible; but, even the heavy profit-taking
has been indulged in, which temporarily
holds the market down, the heavy buying
for "inside account" continues. As a for "inside account" continues. As a lucrative investment, Peterson Lake is decidedly attractive, and, with what is transpiring in the mine, as well as on its leases, not to mention the deal now being negotiated for controlling interest, I consider a spectacular advance in Peterson Lake is near.

to le under last night, oats unchanged, and provisions at an advance of 7½c to 15c.

Buying impetus in the wheat pit became the most apparent after the attention of traders had bean directed to the prospect of greatly increased imports being needed in France. The inference was drawn by a leading Chicago authority that as much as 150,000,000 bushels would have to be shipped from other countries to meet French requirements. It was furthermore asserted that even this huge total would be inadequate if the German forces in France were expelled, and the supplies in the French war zone were not saved for the civilians of that area. In this connection, however, the fact that freight rates on the Atlantic had reached the highest point ever known exercised somewhat of a restraining influence on the bulls.

Rains Lifted Prices.

Rains in Canada and a forceast of general showers over the entire domestic belt tended to lift the wheat market almost from the outset. Notwithstanding that a number of speculators were free sellers on the advance, no pronounced bearish result was at any time notice able, and the close was at virtually the top level of the session.

Corn weakened enough to touch the lowest prices so far this season. The favorable weather acted as a stimulus for sellers, but covering by shorts was at times on a liberal scale.

Oats remained almost stationary. Commission houses absorbed the offerings.

Higher prices in the hog market lifted provisions. There was no abatement in the export demand for cured meats. TORONTO STOCK EXCHANGE. NEW YORK STOCKS. -Railroads.—

OVERCROWDING ON ST. LAWRENCE YET

Wagon Section Too Small to Handle Business and Some Stay Out.

NOT MANY POTATOES

Continued Wet Weather Has Had Bad Effect Upon Ontario Crop.

Notwithstanding the fact that it rained heavily Fridav night, making the country roads very bad, the farmers and market gardeners again overcrowded the wagon section of the St. Lawrence Market Saturday—quite a few wagons having to line up on West Market street. Get busy Mr. Commissioner and solve the overcrowding problem.

Potatoes were noted for their absence; most of the crops having been ruined by the continued wet weather. This very necessary vegetable has again advanced on the wholesales, selling at \$1.15 per bag on Saturday, an advance of from 35c. to 45c per bag in a little over a week, and they are expected to go still higher; some of the authorities expect they will reach the \$2 per bag mark very shortly.

The various other vegetables were brought in in large quantities and with the exception of cauliflower, which is a failure this year, were of good quality. George Strongetharm, Lambton Mills, again had some splendid quality wax beans (among other vegetables), which sold readily at 15c per small measure, 30c per six-quart basket, and 50c per 11-quart basket.

Corn was plentiful and the bulk of it sold at 10c per dozen, some going at two dozen for 15c; the various other vegetables remaining about stationary in price.

Chickens literally flooded the market

dozen for 15c; the various other vegetables remaining about stationary in price.

Chickens literally flooded the market, and the a large number sold singly and by the pair, brought 25c per 1b., the huge supply soon made the prices decline to 200 23c, 22c and 20c per 1b. and by noon they were sold at 18c and 17c per 1b., and there were still a lot unsold, which meant that they would reach the low price of 15c per 1b. before closing. Ducks brought about the same prices as the chickens, while spring turkeys were sold at 30c per 1b. wholasale. The first geese of the season appeared on Saturday, selling at about 18c per 1b.

New-laid eggs were very scarce, the prices advancing with a bound. A number of vendors sold all they had at 40c per dozen. Others obtained 38c, 37c and 36c per dozen, while a few sold at 33c per dozen—the bulk going at 35c per dozen.

Butter was quite plentiful and sold at 30c to 35c per 1b., the bulk going at 33c per 1b.

Miss Piercy, Bolton, had the first geese of the season, having three which weigh-

Wholesale Fruit and Vegetable Market.
The wholesale fruit market was quite active early on Saturday, but later became dull and inactive, and was absolutely dead in the afternoon. The fruits did not arrive until too late for the morning buyers, and as a consequence quie a number were left unexid.

Peaches brought from 20c to 40c for 11-quart flat baskets, and from 46c to 65c for 11-quart lenos; the 6-quart flats going at 15c to 20c, and lenos at 25c to 35c each.

Posms were scarce, and only ordinary varieties were shipped in, bringing from 25c to 35c op 11-quart basket; a few alightly better quality bringing 40c per 11-quart basket. There were not any Bartletts on the market Saturday.

There were quite a number of choice tomatoes shipped in on Saturday, the 11-quart flat baskets bringing from 25c
