IN SCHOOL SYSTEM Thousands in Years and Money Lost, Say Municipal Researchers.

OVERCROWDING CAUSE

WASTE IS FOUND

Pupils Declared to Be From One to Two Years Behind Age Standard.

Pamphlet No. 2. containing further information about Toronto's public thools has been issued by the bureau of municipal research. An extract from the city treasurer's report gives 75,000 as the number of boys and girls attending public and high schools in 1914. The cost of maintenance for the year was \$2.942,863. or \$39.24 per pupil, exclusive of expenditure on building account, which amounted to \$2,573,178. The pamphlet says that the 1914 report of the board of education only devotes ten lines to ctatistics of backicipal research. An extract from devotes ten lines to ctatistics of back-ward classes, and on this account, the 1913 report is referred to. During that year 28 per cent. of the pupils in one district were above the average age for the various grades, and over 30 per cent, have been more than one term in a grade. Commenting on this, the pamphlet says that repeating children consumed 5709 school years in doing 2487 school years' work, and that i the figures were an average for the whole city. 35,921 school years would be consumed in doing 15,333, years' work. It is further pointed out that if under the best conditions half this waste was unavoidable the net waste in the district would be 1636 school years, a money waste of \$44,172, and that the waste over the whole city would be \$278,073. The conclusion is that the retardation of pupils is caused by overcrowding in the primary classes inelasticity of the program of study, the system of promotion and carelessless of parents.

The Causes.
In another inspection district from 20 to 50 per cent of the backward pupils are from one to three years behind the standard ages. They are backward from several causes (few of

fects from sickness.

The foregoing and other interesting information was contained in the 1913 report, which according to the pamphlet was a new departure and one of the most hopeful ones made recently by the department. In the 1914 by the department. In the 1914 report, nowever the reports of district inspectors do not appear, and the com-ment of the bureau is that the reasons given for their suppression seem to be that "there is no bylaw to compel their publication," and, "it would cost money to publish them."

In connection with the leaving out

of these important reports four ques-tions are asked. "Is it not reasonable to suppose that men considered expert enough to sup-ervise our schools should have special knowledge which would be of value to those who pay the bills?

"If inspectors are treated as if their opinions are of no value to the public is it reasonable to suppose that they will again sit up nights in the preparation of their reports?
"Were the 1914 reports of the district inspectors suppressed because they were inaccurate, or because they told parents and taxpayers more than was good for them?

"Is the remedy for alleged inaccurate information the correction of the inormation, or its total suppression?"

Another matter not treated in the 1914 report is the question of pupils dropping out of school before complet-ing the course. The figures for 1913 are used showing that 385 pupils left school at the age of 14. Of these, 117 were in the junior fourth book and 84 in the senior fourth. These figures are for only 24 schools, and the question i asked, what would be the wastage ver the whole city? Commenting on his information the board asks the number of children that made slower than normal progress last year, and the number that left school without receiving the minimum education.

WORN WORRIED WOMEN

Her Many Duties Affect Her Health and Often She Breaks Down Completely.

It is little wonder that there are many times in a woman's life when the feels in despair. There is no tine-hour day for the busy housewife. There are a hundred things about the home to keep her busy from the time she arises until it is again bed time. What is the result? Often her nerves give way, her good looks suffer, her blood becomes thin, her digestion is disturbed and her system threatened with a complete breakdown. Every woman should do all possible to protect her health and good looks, and there is one way in which she can do this, and that is by taking Dr. Willlams' Pink Pills. These actually make new, rich blood, strengthen faint at the least excitement. I suf-fered from headaches and dizziness and often it seemed as though there were clouds before my eyes. Finally I was forced to go to bed with weakness. I doctored to go to bed with weakness. I doctored for six weeks while in bed wi hout receiving any benefit. Finally I was induced to take Dr. Wil-diams' Pink Pills, and when I had taken ten boxes I was completely. Cured, and never felt better in my life. I am convinced that what Dr.

mere planking on the east side of Wilkinson School. It was decided to go on with the work after conferring with the chairman of the finance com mittee.

"CARMEN" PRODUCTION LIKELY TO PROCEED

If No Royalty Goes to Miss Farrar Probability is Performance Will Be Seen.

No royalty will be paid Miss Geraldine Farrar, who stars in Carmen, the film production over which there has been considerable discussion of late. In view of the fact that the film has already passed the censors there appears to be no way in which their showing can be stopped except by an intensition which the part reveals injunction, which is not probable.

Mayor Church has had a conference with Norman Withrow, manager of Massey Hall. The mayor will take the matter up again as soon as he arrives back from New York. Ald. McBride still maintains there are many complaints and still objects. Acting Mayor O'Neill is of the opinion that it should be stopped if it can be shown that Miss Farrar is getting a royalty.

MORE WOMEN COMPLAIN.

Mayor Getting All Kinds of Letters From Those Finding Fault.

It would appear that Mayor Church is going to be deluged with com-plaints from young women who have had their salaries reduced owing to the war. The fact that a stenographer wrote him a few days ago has set other girls thinking, and yesterday a "working girl" sent in a similar letter. She is a worker on military goods and says that when the war broke out the girls were getting from \$8 to \$10 per week, and that now they work for little or nothing.

MANY CHRISTMAS BOXES FOR TORONTO SOLDIERS

Christmas boxes to the number of 12.000 were yesterday started on their way to the soldiers from Toronto who are serving at the front, Property Commissioner Chisholm attending to the

The boxes, containing chocolate and biscuits, will go to the front via Eng-land, and sufficient time has been allowed to enable the men to receive them by Christmas, provided no de-

lay of an unexpected nature occurs.

GERMAN CRUISER SUNK IN BALTIC

THE TORONTO WORLD

rauenlob, Sister Ship of Undine, Was Victim of Submarine.

FOURTEEN YEARS OLD

Cruiser of Small Type, But Carried Nearly Three Hundred Men.

LONDON, Nov. 26, 12.46 p.m.—The German protected cruiser Frauenlob has been sunk by a submarine of the entente allies, according to a semi-official announcement made at Petro-grad, says a despatch to the Central News Agency.

The Frauenlob was a protected cruiser of 2672 tons and was built in 1901. A despatch published in The Politken of Copenhagen on Nov. 11 said a report had been received that the Frauenlob had been sunk off the south coast of Sweden. Her sister ship, the Undine, was sunk, according to an official announcement made in Berlin, by two torpedoes from a sub-Berlin, by two torpedoes from a sub-marine on the afternoon of Nov. 7 while patroling the south Swedish Nearly the entire crew was

The Frauenlob and Undine both carried crews consisting of 275 men officials to the effect that the men who had gone to England were unable to assist in supporting their families here by reason of the small wages they were getting.

The London Board of Trade was communicated with as that body was responsible for the movement to have a state of the small wages they were capable of traveling at a speed of 21 knots.

BRITISH SUB'S EXPLOIT,

LONDON, Nov. 26.-Continuing his articles on "The Fringes of the Fleet" in The Daily Telegraph, Rudyard Kipling tells of some exciting exploits of the British submarines.

He relates one incident of how a

submarine was caught by a net in the North Sea and when she rose to cut Polling Sub-Divisions Are Fixed the net away she was bombarded by a Zeppelin and had to go down again There, "by slow working and weaving and wriggling, guided only by guesses at the meaning of each scrap and grind of the net on her blin forehead," as Kipling expresses it. th

ubmarine got clear.

The commander pondered whether to hurry home and warn other sub and board of control will take place at the city hall in the morning and for aldermen and board of education in the evening at the following places, with the returning officers mentioned:

Ward one, R. C. B. C., Broadview the returning officers mentioned: then started for home, arriving in

OSGOODE HALL WINNERS IN DEBATE WITH MEDS

Osgoode won from Feds. in the debate held in the medical building yesterday afternoon on the question of whether compulsory military training ought to prevail in England and her colonies. The legalites had the best end of the subject, and their true British arguments held good against Meds' appeals for the introduction of compulsory military training. The principal point of the Osgoode debaters was that introducing such a system would be a violation of the British freedom that had prevalled for centuries, and hibiting families of soldiers writing the hibiting families of regiments at that had prevailed for centuries, and that had prevailed for centuries, and that isolated as England is from direct contact with the powers of central they are not to the same ex-

tent open to invasion.

Miss Mary McNulty virtually won
the debate for the law school by her
concise argument. The debate was thruout of an exceptionally thigh or-ore. The debaters were J. J. Frawley and Miss Mary McNulty for Osgoode and L. A. Pequenat and W. A. Geddes for Meds. The argument of the medical students rested on Australia's ef-ficiency thru military training. The judges were Dr. C. K. Clarke and Rev. Dr. Hincks.

COURT EXTENDS TIME FOR LITIGANTS TO WED

Albert Haba and Josie Dumogolsky Have Not Yet Made Up

Differences.

Albert Haba, the young Pole, who is being sued for \$10,000 for breach of promised in the witness bex.

Thursday afternoon to marry her, Thursday afternoon to marry her, changed his mind after leaving the court. Early yesterday morning Haba walked up and down the corridor of the court nervously and before the court opened the girl arrived guarded by her friends. The two passed each

cther without speaking.
When the court opened Haba's counsel stated that altho his client had changed his mind there was still hope that the wedding might be performed and his lordship adjourned the case until this morning.

SUBMIT RADIAL BYLAW TO VOTERS IN JANUARY

Sir Adam Beck Desirous of Getting Opinion of People on Project.

Sir Adam Beck said yesterday that the commission could do nothing fur-ther in the matter of hydro radials until the City of Toronto moved and urged that a bylaw authorizing the expenditure of \$3,000,000 for hydro radials be submitted to the people on Jan. 1, next. "It does not mean that we immediately want to spend \$3,-000,000," he said, "but the feelings of the people should be sounded so that we can understand their pos'tion." The commission, he admitted, had been negotiating for some time with home by the new absorption Sir William Mackenzie regarding the purchase of all radials now enter ng the city. All efforts in this line, so

Operation Ordered

For Appendicitis-Used Dr. Chase's Kidney-Liver Pills and Was Completely Cured.

Mrs. J. A. Ballantyne, Sturgeon Falls, Ont., writes: "My husband was treated for appendicitis and the doctors ordered operation. But would not consent to an operation and began the use of Dr. Chase's Kidney - Liver Pills. Since doing so he has had no need of an operation or even of a doctor, as the trouble has completely left him. I cannot find words to speak our gratitude for his cure. Dr. Chase's Medicines have proven of wonderful benefit in our home, as the Oint-ment cured my little

girl of a severe burn,

Dr. David H. Reeder writes as follows of appendicitis :-Dr. David H. Reeder writes as follows of appendicitis:—
"In considering the treatment of any condision of sickness it has always been my rule to first find the cause. To my mind, it's the only logical way. Many people seem to think that if they have had an operation for appendicitis they are forever immune, and need have no further fear along that line, but I say emphatically, and I think you will agree I am right, that after an attack of appendicitis, even though you have been successfully operated upon and the appendix removed, your troubles have only just begun unless you remove the cause. What was the cause of the appendicitis?

"The thoughtless will say inflammation in the appendix. No, inflammation in the appendix is appendicitis, but what caused the inflammation? Constipation, yes, that is the prime cause. If you were never constipated you would forever be safe. Appendicitis is only one of the results of the retention of fecal matter in the colon for too long a

There is no longer any question that the real cause of appendicitis is constipation. By keeping the bowels regular you not only prevent appendicitis, but also a host of other ills, some of which are even more dangerous than appendicitis. Dr. Chase's Kidney-Liver Pills are recommended to you in this connection, not as a mere relief by effecting the movement of the bowels, but rather as a positive cure for constipation. As is well known, the bile secreted by the healthful action of the liver is Nature's cathartic. So long as the bile flows freely into the intestines there is no constipation of the bowels and no clogging of the excretory organs. Hence the wisdom of using Dr. Chase's Kidney-Liver Pills to ensure regular working of the liver, kidneys and bowels. You thereby save yourself much inconvenience from the minor ills of life, and ensure against such fatal diseases as appendicitis and peritonitis.

Dr.A.W.Chase's Kidney-LiverPills
