ity, professional or technical education was interrupted by age. Suggestions Not Feasible. The report states that the problems raised by these suggestions are such as to demand the fullest consideration by parliament before any decision is reached, and expresses the opinion that the very large expenditure involved in carrying out all these proposals would be such as to render their approval by parliament prohibitive. The report states that if vocational training were thrown open as suggested, the expenditure would probably run from twenty to thirty million dollars. ONTARIO STILL AHEAD OF TOTAL

Fifth Day Sees Province Twelve Million Ahead of Last Year.

Friday \$12,109,850
Total to date \$73,850,950
Last Year \$61,751,800

The close of the fifth day finds Ontario still well ahead of the total for the province at this time last year. From units we received to date \$79,850,950. This is \$12,279,150 more than at the same period in 1918, when the total was \$67,571,800.

The proportion of the \$226,000,000 objective for the province required to-night is \$65,850,000, which is 27.77 per cent. As compared with this, we have actually raised 35.44 per cent.

The first unit of the entire province to pass its combined objective is Timiskaming, L. E. Butler and W. W. Stratton, which has reported \$2,349,550, which is 11.43 per cent of its objective. Almost a dead heat with Timiskaming is Northumberland, B. A. Tote and A. L. Fleming, which reports \$2,307,850, against its objective of \$2,300,000.

Of the day's total canvassing teams have produced \$6,412,850 bringing the percentage of their official objective at the end of the fifth day up to 18.97. To keep up with their objective, their percentage should have been 27.77.

Passed Million Mark. The following counties have already passed the million mark: Lambton, Welland, Ontario, Timiskaming, Essex, North, Brant, Waterloo North. Among the outstanding returns today were: Welland, with \$614,750; Essex North, with \$450,000; Peterborough, with \$425,000; Grey, with \$257,000; Perth, with \$20,350, and North York with \$197,750.

The Niagara division under Divisional Organizer J. L. Graham, headed the list last night, having reached 26.39 per cent of their team members' objective. A close second was Erie-St. Clair division, under Divisional Organizer J. C. Hope, with 25.31 per cent.

The highest unit last night is Parry Sound, under Organizers Leslie G. Mills and A. G. A. Spence, with 40.11 per cent of their team members' objective already raised. Running close behind were York West, under Organizers S. G. Bartlett and A. J. Mockford, which reached 38.85 per cent, and Haldimand, under Organizers M. Harcourt and G. A. Somerville, with 36.32 per cent.

The first three divisions in the Ontario Victory Loan campaign closed on October 30 in the same order as on October 29. The four leaders are: Niagara, Erie and St. Clair, Central and Georgian Bay.

The organization and citizens of the Lake Huron division in Ontario are jubilant. They have won the special subscriptions honor pennant. They captured it the first day of the campaign. A celebration was held yesterday when the pennant, a handsome memento of the division's achievement, was presented.

Relatively larger returns from rural districts characterize last night's reports to Ontario Victory Loan headquarters. Eighteen out of 25 rural cities sent in results, which showed 16,268 subscribers, as compared with \$18,331 from the rest of the province. With regard to the total amount subscribed, however, the cities are still well ahead of the towns and smaller communities, the eighteen cities showing an aggregate total of \$33,754,900, as compared with \$18,224,400 for the rest of the province.

An interesting phase of the campaign in cities has been the close rivalry between London and Hamilton. With respect to amounts subscribed Hamilton leads with \$5,340,500, as against London's \$4,283,700.

West York Still Leads. With four days' campaign completed for the Victory Loan in Ontario, West York has attained 34.68 per cent of its objective, which means that this division is 11.86 per cent above par. With this record West York leads.

GLASS OF SALTS CLEANS KIDNEYS

If Your Back Hurts or Bladder Bothers You, Drink Lots of Water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salt, which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful, effervescent lithia-water drink, which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.
