DEMAND IS ACTIVE FOR SILVER-LEAD MINE Ore Reserves Said to Be Higher Than They Were a Year Ago. FOR SILVER STOCKS Timiskaming, Peterson Lake and Trethewey Leaders-Movement in West Dome. Index in the mining market again yester-seen in the mining market again yester-day, with particularly pronounced activ-ity and strength in Timiskaming. Peter-son Lake and Trethewey. The circum-stance that the price of oar sliver de-clined five cents an ounce in New York, to \$1.29, had little dampening effect, the feeling being that the setback was mere-ly temporary. The New York market was weak again, but mining stocks have often demonstrated in recent weeks that they are little affected by ou.side con-ditions, and yesterday was no exception. Trading in Timiskaming amounted to 19,000 shares, the price moving up three and scarcity has resulted. Peterson Lake attained a high for the year, for several years, in fact, at 21%, closing there, to an et gain of half a point, while Trethe-wey, on heavy buying sold up two points, to 42, closing at 41%. Beaver touched 50, resting at 40%, however, and show-ing no net change. An odd lot of Nipis-sing sold as high as \$13,70, with larger lots later sold at \$13,00. Crown Reserve, at 37, was up half a point.
