

ANOTHER PLAN PROPOSED FOR THE NEXT PORTION RIAL.

For a Combined Entrance for All Street Car Lines Into High Park.

WILL HEAL GET ANOTHER JOB?

Is There a Dark Move on in Connection With the Carriage for the New City Hall?

The latest in High Park entrance matters is the broaching of a new and larger scheme. Ald. Lynd and Simpson Saturday constituted themselves a quorum, and resolved that a combined entrance for all street car lines should be had somewhere between the Howard Park-avenue present line, and the proposed Queen-street extension. The College-street and Queen-street routes would join at some street, possibly White-avenue, running off from the main highway, and both enter the park via such approved street.

"It would cost a lot," said Ald. Sheppard, "but I would have it." "We have got to have the cars on Roncesvalles-avenue yet, anyway," added the Controller.

Rust Doesn't Deny It, Though.
The rumor published in Saturday's World that Mr. Rust was to be appointed, through the influence of the Island Rump, is denied without qualification by Mr. Rust. But Mr. Rust, when asked by The World, did not know what the matter was, but he said he would not give Mr. Rust the position all the same.

Is Hard to Understand.
Architect Lennox still claims that his utterances were misconstrued when he was understood to have said that the city could go into occupation of the new City Hall by May 22. The marble work is finished, and the elevator plant is ready on the spot for installation.

"But," added the Architect, "it will be July 1, before they get the furniture brought."

Looks Like a Graft.
There is a disagreeable odor about the scheme with which the Board of Control is buying the carpets for the building. It appears that when up to the buildings on Friday it was decided to buy the carpets and linoleum in small lots. This must have been done without the knowledge or consent of either Controller Lynd or the Board of Control. The World that they were not up to the ball that day. They had both understood, and it has been ascertained, given out, that the visit was only one of pleasure, and intended as one of the courtesies to the visiting Buffalo delegation. It looks as though some carpet dealer was getting in his work, for the object of the visit was to buy the carpets in small pieces, could only be to avoid tendering. The plea of haste to get in the building will scarcely go down, for there was nothing to hinder action on this matter months ago.

Want Them Tackled.
The experts, Messrs. Rust, Lennox and McCullum, met Saturday to go over the five market improvement plans tendered, and adjourned to the city hall, where they say, to take up the extensive drawings. They will meet again early this week.

The Dominion Swine Breeders' Association have written the Mayor, urging a grant for more accommodation at the Exhibition grounds. City Engineer Rust has been notified of his appointment as a member of the American Society of Civil Engineers. The Board of Control and the Fire and Light Committee will meet, the latter to take up their estimates.

HEART STOPPED QUICK

And John W. Hardy, C.P.R. Engineer, Died on Saturday Afternoon—Leaves Widow and Children.

John W. Hardy, a C.P.R. engineer, died suddenly from heart failure at his residence, 128 Peter-street, on Saturday afternoon. He had been ill for a week, but as he seemed to be rapidly recovering, his medical adviser told him he could go around the house on Saturday. He had been up for about a couple of hours when he was seized with faintness, and sat down in a chair, expiring almost immediately.

Deceased was in his 50th year, and for the past 17 years was engaged at shunting in the C.P.R. rails. He was a member of the Brotherhood of Locomotive Engineers, and was an enthusiastic Conservative. He leaves a widow and seven children.

NORTON YET STILL MISSING

His Mother Is Anxious—He Had Been Ill—His Baggage Came From Detroit to Renfrew.

Still no news of missing Norton Nay. He left Detroit for Renfrew, March 29. His baggage reached Renfrew. It is thought he came to Toronto and then went to Smith's Falls. He was not well. He had been ill with malarial fever some time, and is now in a very bad way. The idea that he got off at a side station is mooted.

He is 8 feet 1 1/2 tall, has a light complexion, brown hair, and is smooth shaven. He is pale and delicate in appearance. His mother, Mrs. D. D. Nay, Renfrew, Ont., wants him.

Queen's Platters Arriving.
The Queen's Platters are beginning to arrive. Yesterday Mr. W. H. Millman's b.f. Vanmont, 3 years, by imp. Danile Dinnant—Miss Vanderbilt joined Mr. R. Walker's string at the Woodbine. Another bill by Danile Dinnant came in and this week three other horses are to be sent to Mr. Walker, who looks like having a strong stable for the forthcoming race meeting.

A Pretty and Clever Little Girl.
Miss Cornelia Heintzman's name was inadvertently omitted from the list of names of the young ladies who took part in the Milkmaid's chorus at the Temple Building on Friday evening. Miss Corny not only took the solo part in the very pretty chorus, but also sang a solo, "Apple Blossom," with artistic feeling, surprising in one so young. She received a deservedly hearty encore for each number.

Lion Heart in Town.
Good old Lion Heart, hero of many cross-country races, and one of the best naturally named horses that ever wore shoes, arrived in town on Friday. He looks as if he hadn't had the best of treatment abroad, and his ailing front leg does not hold out the best prospects of standing a hard siege.

Toronto Man to the Front.
Hamilton, N. Y., April 8.—The conference of the presidents of college Y. M. C. A.'s of New York, New England, and the east, began at the pleasant residence of F. P. Turner of Toronto on "the missionary program."

Life Imprisonment For Debt.
New York, April 8.—According to a decision handed down by Judge Blair of the Hudson County, N. J., Court of Sessions, a man who is imprisoned in that State for debt may remain in jail for life unless some special law is passed by Congress to release him.
