

## LEADING SHERIFF OF TEXAS COMES OUT FOR TANLAC

Money Could Not Buy the Good  
It Has Done Me," Says  
Prominent Official.

"Money could not buy the good Tanlac has done for me, and I gladly recommend it for what it has done in my life," said Hon. Archie R. Anderson of Texas, ex-sheriff of Harris County, a prominent official.

Anderson needs no introduction to the people of Texas, as he is unquestionably one of the best-known of the most popular men that the state has ever produced. He has held public office in the "Lone Star" state for many years, and after serving as deputy Harris County sheriff for twelve years, he was elected chief of the city of Houston. He had this office only a short time when he was elected chief of the Harris County district. Anderson's friends then persuaded him to make the race for unexpired term of sheriff, to which he was easily elected. He was honored with reelection seven different times, and served the people in this important office for fifteen consecutive years. Four years ago Mr. Anderson declined reelection and retired to private life. He has his home among the people of Houston and is a large property owner and foremost citizen of this interesting and prosperous city.

"I was in a rundown condition," continued Mr. Anderson, "and had no appetite at all. I could hardly get up at night, and never felt like getting up in the mornings. I was so tired. I had the worst form of indigestion, suffered all the time from gas on my stomach, and was continually belching up undigested food. I had to take my coffee without sugar, as when I drank it with sugar I would just belch for hours. I would float and swell up like I was poisoned, and suffered with neuralgic pains of the worst sort, and nothing seemed to help me only in a temporary way. I just can't tell you how I did suffer for the past four years, and up to the time I began taking Tanlac, a few weeks ago. When I read the testimonials of some who had been relieved of troubles like mine I just felt like I couldn't wait to begin taking Tanlac. I had heard even more for me than I had expected. I began to feel better after taking my first bottle, and have just now started on my third, and I am a different man already. I sleep like a log now, and eat just anything I want without the slightest discomfort afterwards. I am able to do my work, and I am telling all my friends just what I'm telling you. I never felt better in my life than I do since taking Tanlac. I am willing for you to publish my statement and let every suffering person who may wish benefit by my experience with this great medicine."

Tanlac is sold in London by the Standard Drug Stores.

## SOLDIERS AND MACHINE GUNS AT COUNTY CLARE

On Hand for Duty During Election.

LONDON, June 29.—The Central News correspondent at Ennis, County Clare, Ireland, says that 500 infantrymen, with machine guns, have arrived for duty during the Clare election. Count Plunkett arrived today.

The correspondent adds that some excitement was caused during the day by the discovery that a wreath placed on the O'Connell monument had been removed by Sinn Féiners and the republican colors substituted for it.

## BITTER GUN DUEL ON ITALIAN FRONT

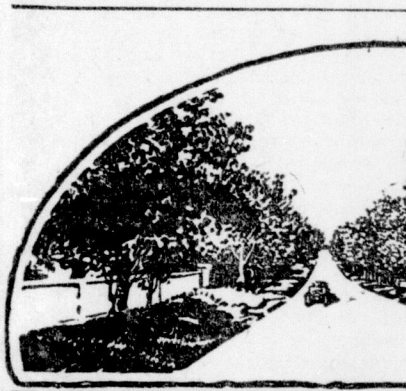

ROME, June 29.—The artillery struggle was fairly active yesterday on the whole front," says today's official announcement. "In answer to the fire directed by the enemy against Ala, we repeatedly shelled the railway station at Galliano."

"On the Asolo plateau the enemy concentrated a violent fire on Agnello pass. Near Santa Lucia in the Tolmino region traffic was interrupted repeatedly by our fire."

Enemy airplanes displayed great activity in the evening. Our anti-aircraft guns engaged effectively by our anti-aircraft guns.

## DR. CONDON GUILTY.

New Brunswick, June 29.—Dr. William J. Condon, an officer in the United States Medical Reserve Corps, was indicted by the Middlesex County grand jury here today for the murder of John V. Furey, a graduate student at Rutgers College, whose body was found beside a road near Spotwood on June 8, after he had been missing since February. Dr. Condon has been lodged in prison at Trenton, N. J.

## Creates New Traffic

LAST October a count was taken of the number of horse-drawn commercial vehicles using the Toronto-Hamilton highway (at the Western end). It was found that in one year there was more such traffic than in the whole year of 1915. Since the concrete road was built, the highway is carrying a large amount of the traffic that formerly used parallel roads.

This is a striking illustration of an important fact, that "good roads concentrate traffic on a few of them, and makes it easier for a community to build a connected system."

## Permanent Highway of Concrete

It is estimated that 17% of Canada's highways carry 80% of Canada's traffic. A relatively small mileage will serve the mileage should be built of the most durable material—CONCRETE.

Concrete Facts on Concrete Highways

No Mud	Easy Hauling	Reduce risk of accident
No Dust	Smooth Riding	Reduce cost of living
No Ruin	Long Life	Reduce cost of maintenance

Permit of traffic 365 days a year

## FOUR LARGE BRITISH CARGO-CARRIERS ARE SUBMARINE VICTIMS

BOSTON, June 29.—The torpedoing and sinking of four large British cargo-carrying steamers was announced in London today. The ships were the Utonia, of the Cunard Line, 5,593 tons; Haverford, of the American Line, 7,493 tons; Buffalo, Wilson liner, 2,583 tons; and the Manistee, another Cunard vessel. No details of the losses were given and no mention was made of the fate of the crews.

It was believed by steamship agents here that some or all of the ships may have been included in the list of sinkings announced from London Wednesday night.

The Utonia and Manistee, it was said, were bound with cargoes of grain and other food supplies from New York, for English ports, and the Buffalo was returning from Hull for New York. The Haverford has been engaged in the Philadelphia-Liverpool service, but there was no information at hand tonight to show where she was bound when torpedoed.

NO PASSENGERS OR TROOPS. NEW YORK, June 29.—Neither the ship Utonia, nor the Manistee, reported torpedoed and sunk, carried either passengers or troops, according to representatives of the Cunard Line, which had not been officially informed tonight of the loss of the two vessels.

## SUNDAY MEETING TO MARK CONFEDERATION

Ingersoll Will Celebrate Semi-Centennial on Central School Grounds.

INGERSOLL, June 29.—A meeting to commemorate the 50th anniversary of confederation will be held on the central school grounds on Sunday afternoon at 3 o'clock. Mayor Buchanan has taken an active part in arranging for the observance of the occasion in a fitting manner, and he has been supported in an encouraging manner. The mayor will preside at the meeting, and addresses will be given by a number of speakers. There will be an excellent musical program, and if favorable weather prevails a very large attendance is expected.

The death of Mrs. William Slater occurred Thursday night at her home, Duke street. She had been ailing for some time, but had only been confined to her bed for about six weeks.

She was a lifelong member of the Anglican Church, and a regular attendant so long as her health permitted. She is survived by two sons and four daughters, namely: Robert and C. W. Ingersoll; and Mrs. Harold Chisholm, Misses Ruth and Leah, all of Ingersoll.

## MARE DROPS DEAD AT MT. ROYAL RACES

MONTREAL, June 29.—In the third race at the meeting of the Back River Jockey Club at Mount Royal today, the mare, Anna Krutier, owned by J. S. Hayes, dropped dead as the horses jockeyed into the finish.

Jockey Smith, who had the mount on her, slid off as she fell, and escaped unhurt.

## ANTI-MEETING FORBIDDEN.

TORONTO, June 29.—Chief of Police Grasett has decided that as the proposed anti-conscription meeting tomorrow would be likely to lead to a breach of the peace, he will not permit it. There is no appeal on police grounds from a police decision, so the matter is closed.

## Favors Referendum.

J. A. C. Ehlrich, Liberal of Two Mountains, opposed conscription, favored referendum and read a large number of extracts published in the Ontario press which he declared insulting to the French, and explaining why the province of Quebec had not provided the number of men expected.

Mr. Roche Lanctot, Liberal of La Prairie, arose to speak, but Mr. Ehlrich said: "Mr. Speaker, the member for La Prairie is such a fine orator that the House has heard at least a quorum of the House."

## ROWELL AND BORDEN HOLD CONFERENCE AT THE FEDERAL HOUSE

Talk of a Union Government  
Persists at Ottawa.

## DEBATE IS NEAR AN END

Leaders Agree on Two-Days  
Limit for Conscription  
Discussion.

(Special to The Advertiser.) WINNIPEG, June 29.—Attorney-General Hudson has gone to Ottawa.

Hon. J. A. Calder of Regina went through to the capital tonight.

(Special to The Advertiser.) OTTAWA, June 29.—Talk of cabinet changes and union government was started again tonight, when it became known that N. W. Rowell, provincial Liberal leader for Ontario, had been summoned from Toronto, and had a two-hours' conference with Premier Borden at the latter's home.

It is understood that cabinet reorganization will be deferred until a report is made by the commission that is investigating the finding of Judge Gault against the Hon. Robert Rogers. This is expected within a few days.

## Speeches Playing Out.

The second week of the budget debate has been finished, and has been described in Ottawa as "going strong, but growing weak."

The speeches are numerous, and the House sits late, but it is all the same speech, or rather there are two speeches. There is one for the conscription bill and against referendum; there is one for referendum and against the bill. Each of these speeches has been made by a new man with a few different words, but with the old facts, arguments and conclusions, and made until they are getting shabby and the House is growing weary.

For a debate upon a great question, this has been most commonplace. There has not been a pregnant sentence uttered, not an expression by any man on either side of the question remains in the memory of Parliament for even the short fourteen days the measure has been under review.

Only Two More Days. There was a sigh of relief today when the prime minister announced that he had conferred with Sir Wilfrid Laurier, and that the debate would last only two days more. This should mean division on Wednesday or Thursday. Then with the principle confirmed, details of the bill will be considered in committee for another week, which ending will follow, and the Senate should begin its work upon the measure by the middle of July.

As an indication of the manner in which the Commons is working, it may be stated that tonight the House was forced to adjourn before 11 for lack of a quorum.

## Plaster For Liberals.

The other matter of interest in the House tonight was the announcement by Henri Achim, Nationalist of Labelle, that he was for the six months' hiatus; that he would not run as Conservative candidate in the next election; that in the coming election he would support Liberal candidates.

George P. Bovin, Liberal of Sherbrooke, said that he would oppose conscription; that two-thirds of his riding was French and one-third English speaking; that most of the French were against and most of the English were for conscription. It had been asked in Parliament what would the result be if referendum were taken and the result was against conscription.

"The answer is simple," he said. "There will be no conscription and the will of the people will prevail without bloodshed." This was taken on the Government side to mean that Mr. Bovin held there might be bloodshed if Parliament put the conscription bill through and applied it, and there were cries of "Shame!"

Servant or Master. Mr. Bovin preferred an election to referendum. In conclusion he said he would ask the prime minister "are you the servant or the master of the people? If you are the servant, why do you refuse to consult the people? If you are their master, pray tell us what is the difference between the Canadian Parliament and the Kaiser's Reichstag?"

Claude Macdonell, Conservative of Toronto, declared that the call from the front for reinforcements was imperative and that the conscription measure was the only proper answer to the call.

Conscription Unpopular. W. F. Carroll, Liberal of Cape Breton, who enlisted as a private, was promoted and went to the trenches as lieutenant, urged the Government to make a last effort to have volunteering by conscription. Conscription was unpopular in many parts of the country. Volunteering had been and would continue to be a success in Nova Scotia. In Quebec it had not been a success. He suggested that each province should be asked to provide reinforcements for the units it had sent to the front. As Quebec had sent so few this could be done, he thought, on the voluntary plan.

W. A. Clark, Conservative of North Wellington, held that volunteering after doing splendidly had reached a point of exhaustion and only a measure of conscription would now provide reinforcements.

Favors Referendum. J. A. C. Ehlrich, Liberal of Two Mountains, opposed conscription, favored referendum and read a large number of extracts published in the Ontario press which he declared insulting to the French, and explaining why the province of Quebec had not provided the number of men expected.

Mr. Roche Lanctot, Liberal of La Prairie, arose to speak, but Mr. Ehlrich said: "Mr. Speaker, the member for La Prairie is such a fine orator that the House has heard at least a quorum of the House."

## BIG NEW BATH HOUSE FORMALLY OPENED AT PORT LAST EVENING

Many Improvements Have  
Been Made at Lakeside.

### FINEST ACCOMMODATION

Steady Increase in Attendance  
at City's Popular Summer Resort.

With the opening of the new \$30,000 bathhouse on Friday, Port Stanley took its place as London's best-equipped and most popular summer resort. Indications point to the best season in years.

Without the numerous improvements which have been made this year, Port Stanley has attracted thousands of Londoners every season, more particularly since the electrification of the city road. With the added attractions of the new bathing house and improved hotel and cafeteria accommodations, the crowds promise to be record ones throughout the summer.

Steady increase. There has been a steady increase in the attendance since the advent of warm weather. In reaching the resort experienced in previous seasons have now been almost eliminated. Additional rolling stock has been furnished by the railway, and it will be possible to operate a better service and have each train comfortable and uncrowded.

At Port Stanley, in addition to numerous improvements made by private property-owners, there has been a general renovating of the whole picnic grounds. Every detail has been taken into consideration. Drainage has been improved and unsodden portions of the ground which last year formed a bog, on the beauty of the landscape have been seeded and protected from damage.

A Pretty Spot. On the heights of the electric "housecleaning" is also visible. Never before have the lawns been so neatly trimmed nor the paths so well laid. Leading to every portion of the grounds they make the numerous chairs and benches which have been provided for the picnickers seem more inviting than ever. Even the old bathing house has been transformed. Under the management of the railway board it has become a bright, inviting structure.

The beach, where much of the interest centres, can be reached in a number of ways. You can ride up the incline railway five times for 25c, or in other words ten tickets are now sold for 25c. If you are tired with the joy of living and seek mechanical means of transportation, you can reach the lake shore by the gravel path which has been built up the side of the cliff. It is fairly to provide sufficient exercise, there remains the new stairway, which offers a climb sufficient for the most ardent mountaineer.

Fine Accommodation. The Invererie Hotel, which opened on Sunday under the management of J. R. Menhick, is providing excellent accommodation for visitors, a feature which has been lacking in other years. The dining-room, in charge of Lem Wong, proprietor of Wong's Cafe here, is providing service equal to the best in the country. More than 400 people were served on the opening day.

Opportunities for amusement are plentiful, but undoubtedly the foremost among these is the lake bathing. This was the chief attraction at Port Stanley before the new bathhouse was erected. It has become an added attraction because of the excellent accommodations. A thousand individual rooms are provided.

The fishermen will find plenty of scope for their art, as even on the busiest days there are hundreds of quiet pools from which the elusive "finny ones" can be snared. The boating is another feature which appeals to many. Among the numerous other advantages which the grounds possess is an excellent baseball diamond.

Work has been commenced on the new \$135,000 pier on the west side of the harbor, and is attracting much attention from the numerous visitors. The full plan is not being carried out because of the war. It was intended at first to have a breakwater at the east side of the harbor. This would provide a protected harbor large enough to provide shelter for several lake boats at once and to provide room for them to turn within the breakwater.

Plans for a \$10,000 grain elevator have been drawn up, but the work has been halted for a time because it will be necessary to secure the consent of the village to closing of the main street, which it will be necessary to do before work can be started. If the work is rushed, grain ships may be accommodated next year.

## ANTI-CONSCRIPTIONISTS DETERMINED TO MEET

WINNIPEG, June 29.—Anti-conscriptionists will hold a meeting on the market square at 3 o'clock next Sunday afternoon, according to "dodgers" circulated throughout the city late Thursday night.

Residents of Winnipeg in various parts of the city on their way to work this morning found these "dodgers" scattered about. They announced the meeting "on behalf of the 'dodgers' and for free speech," and calling on everybody to attend. The reading matter concluded with these words:

"This meeting will not be cancelled." Deputy Police Chief Newton, when he learned of the proposed meeting, said under the defence of the realm act there was a legal way of preventing meetings on public thoroughfares, he intimated.

RHONDA HAS POWER TO REQUISITION FOODS

LONDON, June 29.—The Official Gazette tonight published an order-in-council conferring upon Baron Rhonda, the food controller, identical powers under the defence of the realm act with those already possessed by the admiralty and army council and the ministry of munitions for requisitioning supplies and controlling prices.

Baron Rhonda will now be able to requisition the whole or part of the output of any factory, paying prices therefore based on the cost of production, with the addition of a reasonable pre-war rate of profit, regardless of the prices ruling in the open market.

## L. & P. S. New BATH HOUSE and CAFETERIA, Port Stanley

### NOW OPEN

Finest equipped bath house in America. Private dressing rooms and lockers, electric hair drying machines for ladies. Shower baths, etc. Cafeteria located in same building. Excellent meals on serve-self plan, at moderate prices. Everything strictly sanitary and up-to-date. Open from 11:00 a.m. till 7:30 p.m. Don't fail to visit this place over the holiday.

### The London and Port Stanley Railway

Cars leave for Port Stanley 20 minutes after every hour.

## Some Practical Aids in Housekeeping

OF INTEREST TO EVERY WOMAN, AND PARTICULARLY SUITABLE FOR THE SUMMER HOME

"MANY HANDS MAKE LIGHT WORK."

is an old saying, which is quite true, but in these days of scarcity of help, such aids in housekeeping as the

## Hydro-Electrical Devices

shown here are almost a necessity in many homes—certainly a great convenience in all. The day's work can be accomplished with little effort, and allow time for reading, sewing or social pleasures.

## Coffee Percolator

One of the most useful of all Electrical Devices. It makes delicious coffee right on the table. All prices from \$8.00 up to \$15.00.

## Chafing Dish

Beyond question the Electric Chafing Dish is more desirable than any other type. The hostess, girl at school, bachelor or housewife will find it a great convenience and pleasure to use. Prices \$10.00, \$12.00 and \$13.50.

## Electric Iron

Undoubtedly the most useful of all household helps. Price \$4.00.

## Electric Toaster

Exceptionally convenient. Makes 2 slices at same time—crisp, golden-brown toast, made electrically right on the table. Prices \$2.75 to \$4.50.

These devices may be used from an ordinary lamp socket. We have many other useful and beautiful devices, which we will be glad to show you.

## The Hydro Shop

Opposite Chapman's Drygoods Store

## NEAL'S ALOFA BREAD

Eat it daily at your summer home.

### On Sale at Port Stanley

At FINLAY & NICHOLAS, also F. R. DALE, and from the wagon.
