Satisfy Teachers. Says Trustee Edwin Smith.

That the question of teachers' salaries will be the first and most important matter before No. 1 committee of the board of education, which will hold its first meeting of the year on Wednesday. day afternoon next, was a statement made today by Trustee Ed Smith, chairhan of the committee. "The matter was referred to the committee by the board of 1920, and there are a number of rectifications for consideration. Personally," said Mr. Smith "I am strongly in favor of salaries that will satisfy the teachers. A satisfied employee always means a better workman, and on this ground alone the committee must take such action as shall assure that the teachers of the public and high schools of the city are adequately paid."

Answering a question as to his opin-ion of the action taken in Hamilton by the committee dealing with teachers' salaries in suggesting the payment of teachers according to their standing, Mr. Smith said: "I think the idea is a good one, but it would take some time. probably two or three months, to work out a basis on which such a scheme of payment could be made. payment could be made.

"I hardly think that the inspectors would like to take such responsibility," was Mr. Smith's reply to a question suggesting that the school inspectors might be able to grade the teachers at

Re Welfare Campaign.

One of the chief questions which came before the meeting was the question of whether the Children's Hospital committee would put their budget into the general welfare fund of last year, although \$20,000 is promised. The hospital committee feels that it must have its money so as to go ahead with the building of the new rate which will be much more adequate, will be based upon the more adequate, will be based upon the expenses of rent, taxes, upkeep, recreation, medical attention and education of the children of the wildowed mother.
