He says: street. When the circumstances are recalled the attitude assumed by the recalled the attitude assumed by the company appears incomprehensible, except as inspired by the wonted contempt in which public service corporations have been accustomed to hold their plain and undoubted obligations. In June, 1891, an agreement was made between the Town of Toronto Junction and the Davenport Street Railway Co. and the Davendor Railway Co. and the Davendor Railway Co. and the Davendor Railway Co. and and the Davenport Street Railway Co. eign possessions. As Sir John A. whereby the company was granted the Cockburn remarked in a recent paper whereby the company was granted the right to operate a surface street railway over certain roads for a period of twenty years. By a later agreement in October, 1891, the town granted the right to operate on all other streets for the same period to the City and Suburban Electric Railway Co. Both these companies were acquired by the Toronto Suburban Street Railway Co., and in October, 1899, a further agreement was people, in the type sense of the same people, in the type sense is generation, or table cordinates and portions and portions and portions and portions, for the state and loss. The rest account now stands at \$2,000,000 and the deposit total \$23,382,760.69. Including gold and sliver coin, current and Dominion and government demand notes, the easily receive of cement mortar, which at best, is but a temporary device, a sort of makeshift, calculated to mislead and in style, sham; that we are looking at a thin \$23,382,760.69. Including gold and sliver coin, current october, 1899, a further agreement was made between the town, the latter company and the Toronto Railway Co. by which the suburban company as signed to the city company for a period of 23 years from Sept. 1, 1898, the right to run over Dundas-street between the eastern limits of the town and the western limits of Keele-street. The efect of this last agreement was to extend the franchise over Keele-street for a further period of 11 years.

The Franco-British Exhibition that the Toronto Railway Conow repudiates, on the ground apparently that as the running of cars has not been imposed by statute it is under no obligation to do so. But the particular agreement contained in the obligation was one of those ratified and confirmed and declared to be valid and confirmed and declared to be valid and binding upon the town and the companies named in them. The agreement went further by expressly stipulating that the payment of a single fare on the presentation of a single ticket shall entitle the passenger to a continuous ride from any point on the city railway within the Town of Toronto Junction to any point on the railway within the City of Toronto, and vice versa. Plainly, to permit the city railway company arbitrarily to withdraw the Keelestreet car service would be to make it judge in its own cause. If the company believes it can repudiate the agreement after it has been accepted and acted upon, it has its legal remedy, but it is matter of congratulation that the railway and municipal board has so firmly insisted upon the car sirvice being maintained by the city railway company pending judicial determination of the issue raised by the company. The people, as the chairman emphatically remarked, must be carried, and the railway company must taught that it cannot at its own
