# Time for Furs Now

We have been experiencing some exceedingly mild weather for this time of the year, and, though it may seem strange, this weather was a Providential gift to us. Truth to tell, we were a little behind with our stock, principally because business just after the Fair and during October was exceedingly heavy. This last spell of warm weather has allowed us a chance to even more than catch up. We've now on sale such a selection of superb fur goods that our former attempts look almost tame.

There are splendid and complete lines in every good fur-all made from advance designs furnished us in Paris and New York.

You will find a positively exclusive collection of Alaska seal cub pelts in our showrooms, with a splendid assortment of garments made in this fur from Parisian models. The fur we sell is all London dyed.

Alaska Seal Coats from \$250 to \$700.

There was put into the showrooms yesterday, a fine assortment of Lynx and Fox Sets -natural and blue and black lynx and Canadian fox of different colors.

### SOCIALIST SCORES PEERS AND PUBLICANS

Flashlights on the Sessions of the Parliament of Labor, Whose Capital is Now the City of Toronto.

"We must not cease our efforts to bring every toiler within the beneficent fold of unionism." In this short, pregnant sentence, Pres. Sam Gompers placed in crystallized form the aims of the organization of which he is the supreme head. To that effect, is the work of everyone of these earnest delegates, representing hundreds of thousands of union men, directed.

Nothing seems to escape the vigilance

General Secretary-Treasurer Interna-onal Brotherhood of Blacksmiths and

of these zealous representatives of the toilers. Resolutions have been submitapart as the one from the tailors that work be not taken home, and, on the other hand, that a political movement ntary party be inaugurated.

the opening day, President Gomi ers read his voluminous report which treated of every point of interest to the union workers. Probably the most interesting part of the report, and the one on which the labor leader laid the greatest emphasis, was the statement colleagues, John Mitchell and Frank Morrison, were placed by the recent decision upholding the sentence imposed on them. But they were fighting for free speech and a free press, and were prepared to suffer martyrdom for that cause. The second day saw the disposal of many internal dissensions which have disturbed the screnity of organized labor during the past year. Union aws reffected with union, and amalgamated with trade. But not always were questions settled so easily or so favorably to the applicants. Official disapproval, culminating in a

sentence of outlawry, fell to the in-

subordinate electrical workers and

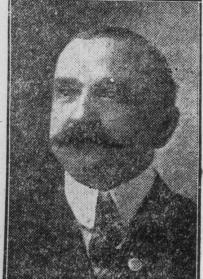

CHARLES DOLD. shoe workers, who had transgressed the Instrument Workers' I. U. of America. to buy a Weber piano.

rules of the A. F. of L. The Buffale Trades and Labor Council was expelled and many single delegates were not allowed to take seats at the conven-

The fourth day was the banner day or oratorical effort. On that day the delegates listened to a series of speeches which indicated that the art of Cicero finds many able exponents in the ranks of labor. Among the delegates are two Labor members from the mother of parliaments, and these in turn addressed their American brethren. The purport of both of their speeches was the same. They dwelt long and earnestly on the problem confronting the British toiler and they discussed at some length the famous budget. The fight in Britain was between the peers and their allies, the publicans, and the democracy. Liquor interests walked hand in hand with landlordism, but eventually the people would win. David Lloyd-George, the Radical chancellor, was a twentieth century St. George who would slaw the dragon which had so long oppressed the land, and the people would come into their own. Moreover, the Socialist M. P., J. R. Clynes, foretold the doubling of Labor membership in the house of commons at the next general election.

The Canadian delegates took pains

to impress their colleagues with the reverence and respect in which the A. F. of L. is held by Canadian workers. Delegate J. Bancroft pointed proudly to the unmistakable proof of figures showing the growth of the Labor movement in Canada. The A. F. of L. ves. the cataract Co. has ment in Canada. The A. F. of L. ves. the cataract Co. has the cataract Co. ment in Canada. The A. F. of L. was first and last the Canadian workers' best friend.

Not the least interesting part of the mention of the least interesting part of the preparations to form a company, so the least interesting part of the mention of the labor move. It is trouble because the Catalact of the least interesting to L. was been enforcing its new rates. The fixed charges are what they object to. George Schnabel, Dr. Davey, James Lynch and others, who are making preparations to form a company, so the least interesting part of the labor move.

meeting was the still, small, supplicating voice from far-off Sweden. Their special delegate told the "free born" American toilers of conditions existing in Sweden, which savored of feudal days. He was there to ask for financial help to keep the flag of unionism flying in Scandinavia, and a commitflying in Scandinavia, and a committee was formed to see that he gets it. Mrs. Raymond Robins of Chicago delivered a speech on the women's side of Court Declines to Give A. F. of L unionism, and her clear delivery and well-handled facts were relished by her sterner brethren.

But so far the palm in oratory must be conceded to Rev. Charles Stelzel, a member of no church, but a worker for the uplifting of humanity. He touched his hearers as no other speaker at the meeting has yet done, when he spoke of General Secretary-Treasurer Brother-hood of Painters, Decorators and Paper Hangers of America.

the appalling, even loathsome, condi-tions which many of the tolling masses of Columbia until Jan. 2, 1910. Unless

HUGH ROBINSON General Organizer Journeymen Tail-ors' Union of America.

labor against. Further, he spoke from slough of poverty and had known what it wasto be starving and homeless. Thru the whole convention the personality of Samuel Gompers makes itsuch self felt. There is not the slightest lords. doubt that the venerable labor leader commands both the affection and re-

Effort to Induce Govt. to Choose Grand River Route—Reported Discovery of a Lead Mine.

HAMILTON, Nov. 15 .- (Special.) -- In he event of the government deciding to build a new Welland Canal, Hamilton will make an effort to have it constructed on a route that will be benefit to the city. The mayor and the chairmen of the various standing committees this afternoon decided to send the city engineer and a deputation to Ottawa to impress upon the government the advantages of the Grand River route, which would bring the canal to the cast end of the bay, where there would be a fine harbor. The city engineer recommended that a survey should be made. The Greater Hamilton Association and board of trade will also send deputations to Ottawa. While they were in seasion, the chairman also considered an application for the annexation of seventy-three acres south of Aberdeen-avenue, and extending as far west as the golf links. City Solicitor Waddell said that the petitioners should not be allowed to dictate the terms of annexation to the city, and he and W. D. Fiatt, for the petitioners, will draw up an agreement which will be submitted to the chairman.
