Wednesday Evening, Feb. 9.
Trading fell off considerably at the local mining markets to-day, and pubic interest was of an almost negligible quantity. The general undertone, however, stiffened up considerably, and with few exceptions prices remained arkably firm to the close

As during the last few days specula tive interest was centred in such low priced stocks as Little Nipissing, Co-balt Lake and others of like ilk, which have come into the limelight of late. Beaver, City of Cobait, Timiskaming and Rochester remained firm with yesterday, tho the latter issue was shaded fractionally at the close. Cobait Lake, Little Nipissing and Peterson made alight advances which were son made slight advances which were maintained thruout, with the excep-tion of the latter shares, which sold off half a point at the close.

The higher priced securities were quiet and generally unchanged. Crown Reserve sold up to \$3.55, but closed five points lower; La Rose was firm around \$4.20; the others were unchang-

WORLD-WIDE INTEREST ATTACHES TO COBALT

Article Descriptive of the Ontario Silver Camp.

The world wide interest in Cobalt be better exemplified than by calling attention to the fact that The London Graphic in its issue of Jan. 26, prints a lengthy article in connection with the camp, and publishes several pictures showing the past and present standing of this silver town. The heading of the article is, "Where the streets are paved with silver," and

district, the it is a brand-new clearing in the forest primeval, is really a barbetween \$10,700 and \$10,800. Some of the silver will not need to be refined and it will average between 99.95 and 99.96 cinematograph theatres, a skating rink, electric light, telephones, and a rallway owned by the Ontario Provincial Government, which takes one-fourth of the net product of the mines as the community's share.

Out Silver Bars This Week.

COBALT, Feb. 9.—The bullion ship-ments from the O'Brien and the Buf-falo will this week be worth between \$25,000 and \$30,000. Before the cyanide process was installed at these two mills all this would have run down the sluice-

ways to waste. To-day the O'Brien are sending ou another consignment of bullion to the bullion brokers of the Bank of Engthe streets are paved with silver," and the closing paragraph in connection with the correspondent's visit is as foldows of 1500 lbs. in 21 silver bars.
