EXPOSITION WILL REOPEN

Loss at Brussels is Now Stated to Be Between \$6,000,000 and \$10,000,000.

BRUSSELS, Aug. 15.—It will take many days to place the Belgian Exposition in a fit condition for the re-opening, although a large majority of the buildings are still intact. The known loss caused by the fire which swept thru the "White City" yesterday is between \$6,000,000 and \$10,000,000. This is confined to the Belgian and British sections, but the damage by smoke and water has been general, and will add materially to the total loss.

The Teapot Inn are now installed in their new tea rooms, 13 Adelaide-street west, where they are prepared to give the same excellent service heretofore experienced by their clientele.

INFLUENCE OF WEALTHY
MEN WITHIN THE CHURCH

Rev. Dr. Carman's Charge to the General Conference—Refers to Rev. George Jackson.

VICTORIA, B.C., Aug. 15.—Rev. Dr. Carman, general superintendent of the Methodist Church, this morning delivered his charge to the assembled general conference, which opened to-day, and which will continue three weeks. His references to the influence of wealthy men within the church, with an especial reference to Sherbourne Street Church, Toronto and its relationship with the general conference, have created much comment.

"I have but one anxiety concerning our Methodism," said Dr. Carman. "It is that we be saved from spiritual and spiritual sloth, and indifference, and all their consequences in every form, shape, measure and degree. Here, possibly, is our greatest present danger; we are becoming wealthy, and may easily lose the vigor and tension of spiritual life and the voice and tone of aggressive evangelism. We have time for fancy and for positions of science, false as called. It is very easy to slacken up our push and pace; he satisfied with our attainments, and sing into the lap of formalism and naturalism and of worldly comfort and ease. At such times and under such conditions no edifying are preached for the well-proven doctrine of converting grace and sanctifying power. The eye of the church is dimmed and her arm is paralyzed. There is no strength in her movement or victory in her march.

Even the Good are Dazzled.

"Even good men are dazzled by the glitter of theories and befuddled with empty speculation. The gray solidity and stern simplicity of truth have no charms for their intoxicated understanding. The tendency, current and force in the spiritual life of our humanity, left itself, is ever downward and not upward. Some do vainly and erroneously teach. They build up conjecture, assumption and human art and device to our utter undoing. This is nothing. The truth is alone in the Christian and Biblical ethnology explains the paganism of the nations.

"Gratifying instances of large-heartedness and open-handedness of brethren and friends in their outlook over the church and country cheer on and sustain the collection donations and bequests honor the name of the living and hallow the memory of the dead. Yet danger lurks even here. The masses of men easily lose self-reliance, and sink into unhelpful dependence.

"The money power is a tremendous power, and even in the hands of well-meaning men it may be misdirected. There is a possibility that such men could turn their money as their own, and in a way almost unconsciously to themselves become self-occupied and self-willed. There is a danger of a selfishness in this sin as well as in any other. More than half as in the history of the church this money power has been a curse to the church, and it is alone in the Christian and Biblical ethnology explains the paganism of the nations.

"When a church in which there are men of wealth would arrange for a pupil on plans that are not altogether just or utterly dislocate the Connexion, on plans and relations utterly untenable by poorer churches, they are in the hands of the money power, and the church is in danger of being dislocated and at least temporarily defaced.
