Out of a stock comprising everything from ordinary oilcloth to the highest grade linoleum, we call your attention to this line of

Inlaid Linoleum, 6 Feet Wide, Per Yard, \$1.10

The ideal covering for offices, halls, public and private rooms, vestibules, etc. Our stock is complete in all the best patterns to suit any taste or surroundings.

For a sanitary, durable, easily-cleaned floor covering which will always look fresh, we recommend the inlaid linoleum. It is most sanitary, being proof against either moisture or dust, and when soiled it is easily washed and then looks quite new and fresh. The inlaid pattern goes right through and never wears off as long as the linoleum is in service. Its extreme durability is the result of the high-class ingredients used in manufacture.

We Buy Direct From English and Scotch Makers Only

Our long experience teaching us that these are the most durable and dependable goods, being made from pure linseed oil, cork, "granitine" and the other necessary coloring matter. In making, the cork is ground practically to dust, and the linseed oil having been oxidised, or dried, is cut and ground very fine. The two are then thoroughly mixed and the granitine (a species of very fine hard sand) is added to give extra durability. The mixture is next put on tough jute canvas and subjected to enormous pressure, which forces it into the meshes of the canvas and makes the whole one solid mass and producing a floor covering unequaled for tenacity and wear.

A fact not generally known is that as linoleum becomes older its durability is increased by/the further oxidation of the linseed oil. We can guarantee our stock thoroughly seasoned, as we buy months ahead of our selling.

It comes in a variety of patterns, floral and conventional designs, tile patterns and imitation hardwood floor pattern. Also a line for bathrooms, in blue and white or green and white tile pattern.
