A FEW TESTIMONIALS:

North Williamsburg, Dec. 15, 1898.

Messrs B. C. Beach & Co.,
Winchester, Ont.

Gentlemen:—Three months ago I purchased a Winchester Acetylene Gas Machine, and after testing it thoroughly, found it proficient in all parts as represented. After looking at the mechanism of the different machines, I am thoroughly convinced that the WINCHESTER is the best on the market.

DR. I. J. LANE.

North Gower, Ont., Dec. 3, 1898.

B. C. Beach & Co.,
Winchester, Ont.

Gentlemen:—The Acetylene Gas Machine you put in for us about six weeks ago, gives the best of satisfaction. Ten minutes per week of one boy will give it all the attention necessary. The light shows goods in their true color, which is a great advantage in a dry goods store. For brilliancy, the gas light is as far superior to coal oil, as coal oil is to the tallow candle.

GEO. CRAIG & SON.

Casselman, Ont., Nov. 1, 1898.

Messrs B. C. Beach & Co.,
Winchester, Ont.

Dear Sirs:—The Winchester Acetylene Gas Machine I got from your firm some time ago is

working well. I have given it a good test, and find it to be better than was represented. The light is simply wonderful, and does not cost me any more than what coal oil did. The machine is very simple, and I see nothing to get out of order. I am well pleased and could not think of using any other light. Yours truly,

A. PILON.

Renfrew, Ont., Dec. 13, 1898.

B. C. Beach & Co.,
Winchester, Ont.

Dear Sirs:—We must say that your machine is the best we have had and is satisfactory in every respect. The ash shaker and the syphon are especially worthy of mention.

COCHRANE & PLAUNT.

Berwick, Ont., Dec. 6, 1898.

Messrs B. C. Beach & Co.,
Winchester, Ont.

Dear Sirs:—The Acetylene Gas Machine you put in for me some time ago is giving splendid satisfaction. I light my shop and house by it, and I have several men working for me, and they seem to do their work the same by this light, as by daylight. It does not take me over 10 or 15 minutes per week to attend to it.

SIMON HUTT.
