## DO YOU CATCH COLD EASILY? HOW TO AVOID IT

Colds are due to germs. No one can prevent the germs from getting into your nose and throat. But you can help keep plenty of strong, vigorous, "antibodies" in your blood to fight and kill off the nasty "cold germs" before they do you any harm.

To develop these germ destroying "antibodies" properly, you must have plenty of pure rich, red blood and a strong, vigorous constitution—in fact, this is the best preventative against almost any disease.

If you are weak, nervous or run-down, or subject to colds, take no chances. One day you may develop serious throat, bronchial or lung trouble or perhaps pneumonia and you may go off like a shot. Therefore commence to enrich your blood and fortify yourself against "disease germs" today. To build more and better blood and make stronger nerves, there is nothing superior to NUXATED IRON as it contains organic iron like the iron in your blood combined with a product representing the principal chemical constituent of active living nerve force for feeding the nerves. Nuxated Iron may therefore be said to be both a blood and a nerve food. It often increases the bodily and mental vigor, strength and endurance in two weeks' time.

Over 4,000,000 people are using it annually. It has been highly endorsed by former United States Senators, U. S. Army Generals, many physicians and prominent men. Even the Pope at Rome mentioned it favorably in a communication to the Proprietor of the Pharmacy Normale de Paris.

Satisfaction guaranteed or the manufacturer will refund your money. Beware of substitutes. Look for the word "NUXATED" on every package and the letters N. I. on every tablet. Sold by all druggists.

## FRIDAY—PALACE—SATURDAY

A PICTURE FOR EVERY MAN, WOMAN AND CHILD.

In the interest of you and others who appreciate good drama, this theatre has secured for presentation "Blind Youth," a National Picture adapted from the famous stage success of the same name by Lou Tellegen and Willard Mack.

As a photoplay "Blind Youth" is even better than the stage version. The camera has again triumphed over the limitations of the stage. Many interesting bits of off-stage action that could only be alluded to in the stage version have been given full representation in the picture.
