

PLAN FOR 300 AT TABLE TO GREET A. M. BELDING

Large Demand for Tickets
for Monday Night
Function

CANADIAN CLUB PRESIDENT SPEAKS

Particular Interest There,
Says Mr. Myles—Confer-
ence Extends Greeting

Preparations have been made to seat 300 at the community hall on Monday night to welcome home A. M. Belding, special representative of The Telegraph-Journal and Evening Times-Star, who has just completed a tour of Canada in the interests of the Maritime Provinces.

The Rotary Club, Oyo Club, Canadian Club, Board of Trade and Y's Men's Club are co-operating for this event and all are anxious to hear Mr. Belding's report on his trip.

The catering will be done by John Bond and there will be entertainment by the "Jazz Band" and local artists. It was reported this morning that already there was a large demand for tickets and that those desiring to be there would be wise to apply early.

Canadian Club Urge.

W. J. S. Myles, president of the Canadian Club, said they were particularly interested in Mr. Belding's trip as he had taken introductions from the club to more than 25 Canadian clubs in the west and had addressed many of them while away. He urged that all members of the club who could should make an effort to be present on Monday night at Pythian Castle and welcome home a past president of the club who had done so much to make this city of Saint John and the Maritime Provinces known to the rest of Canada.

Leaves Greeting.

Frederick H. James, of Montreal, connected with winter port shipping interests and located this season in Halifax, left for the sister city today, after a short sojourn in town. Mr. James is a former Saint John man, and was for years connected with the business office of the Sun Publishing Co. in Montreal. He was married to a daughter of the late Mr. James, and in previous winter port seasons he was connected with the shipping here and always felt quite at home in the old town.

Mr. James left word with a Times-Star man to shake hands with A. M. Belding when he returns and to tell him that he was heartily in spirit with him every foot of his transcontinental tour. In fact, on one occasion about a year ago when on business bent in Goodrich, Ontario, he addressed the Lions Club of that bustling lakeside town upon "The Impressions of a Salt Water Man in a Fresh Water Town."

In his remarks the former Saint John newspaper man dealt emphatically with the claims of the Maritimes as an ocean outlet and gateway. He says the Upper Canadian people received his remarks with closest attention and thanked him for dealing so frankly with a subject broadly Canadian. Mr. Belding and Mr. James were co-workers in the Sun office in its days of publication.

CHARACTER ANALYSIS

At a meeting of the Saint John Character Analysis Club last evening in the Natural History Society rooms a very interesting discussion was led by Mr. Arthur on the Expression of the Eye. The club started last week on this lesson of expression, when Mr. Jamieson was the speaker. At the close of the meeting last night it was decided that next week's meeting would be postponed to the week following.

Consider Change in Heating System at General Hospital

A change in the heating system at the General Public Hospital is under consideration, it was said this morning by J. King Kelley, K. C., one of the commissioners. He said that the matter of reserve power in the boiler house has been under consideration and the ability of one of the two boilers falling has been more or less of a nightmare to the board all winter. In the winter season, under present heating conditions, both boilers were needed on the time, and had one failed there must have been cold rooms in the institution.

To remedy this condition there would have to be an additional boiler installed or some change made in the method of heating.

Mr. Kelley said the newer institutions were installing hot water systems. No estimate of the cost of changing the system here has yet been made. Mr. Kelley said, but he added that the radiators now in use could be utilized to a very large extent if it was decided to change.

STORY TELLING IN RELIGIOUS WORK

Children's Work Board of Mari-
times in City Holding
Meetings.

Miss Annie E. Harris, of Pictou, N. S., secretary of the Children's Work Board of the Maritime Religious Education Council, gave demonstrations of the value of story telling in the religious education of children at a meeting of the local Children's Work Board last evening in Centenary hall.

In the absence of Mrs. C. R. Kinney, chairman of the local board, Mrs. L. W. Simms presided.

Miss Harris gave a demonstration for juniors, Miss Estelle Vaughan for primary and beginners, and Miss Bernice Flewelling demonstrated the value of story telling for primary children, following a bright talk given by Miss Harris on the subject. These demonstrations were made before special groups for the occasion.

Mrs. Simms gave a report on what she had heard in large meetings in Chicago, where the International Board was in session and in Toronto, when the Ontario board also met. At these meetings, Mrs. Simms said, the chief factor emphasized was that of telling the Bible in story fashion to the children of junior, primary and beginner's grades.

Miss Harris was to conduct a conference in East St. John this afternoon at the residence of Mr. Woodcock, Fredericton, Marysville and McAdam before returning to Moncton, where she will hold an institute.

Tells of Organization.

Miss Harris said this morning that she had held eight institutes this winter in cities and towns, with many teachers attending. She had organized four Children's Work Boards to promote the work of the children's teaching and activities. Their purpose was also to organize story telling hours in their communities. She was much pleased with the results of her organizations so far. Miss Harris gave due credit to her predecessors, Miss Alice Harrison, of Moncton, who had much to do with the establishing the idea of story telling as a desirable requisite in presenting religious teaching to the children of the Sunday schools.

BOTH SIDES SILENT ON UNION QUESTION

"Canny Scottish Caution" is
Way Toronto Globe Des-
cribes Comments.

TORONTO, March 20.—In an article on the church union controversy, which it publishes today, the Globe says:

"Traditional Scottish caution—canny and uncompromising—characterizes the representatives of representatives of the Unionist and non-unionist forces of the Presbyterian church to whom has been committed the last of the year's reach an amicable agreement on Ontario's legislation. A good many rumors were about yesterday, as to what was happening but not any of them could be confirmed. None in a position to know was talking for publication. Shortly before midnight, the Globe asked for a statement from each side, and was assured that no announcement would be forthcoming.
