

MC 2035 POOR DOCUMENT

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, NOVEMBER 14, 1913

MORNING NEWS OVER THE WIRE

Twelve persons were killed and more than a hundred others injured yesterday at Eufala, Alabama, when three engines of a train loaded with excursionists plunged down a steep embankment.

Stockholm, Nov. 13.—The Nobel prize literature was awarded today to the British Indian poet, Rabindranath Tagore, the first time on record that this prize has been given anybody but a white person. The works of Tagore were scarcely known outside of British India until recently when some of them were translated into English.

Athens, Nov. 13.—A treaty of peace between Greece and Turkey was signed tonight. The peace delegates reached in agreement this morning on practically all points under negotiation, and initiated the draft.

SELLING MANY CATTLE

Prince Albert, Nov. 14.—Recent American legislation removing the duty on cattle entering the United States has had far reaching effects in this district, because of its great mixed farming area. Buggers have been scouring the country purchasing stock and in consequence the market value has taken a rapid rise. Large shipments have been made. One firm in Prince Albert received an order for 700 head, and the same company, during the last five weeks has shipped 1800 head of cattle to various points.

Twins have been born to Dr. and Mrs. Armstrong of Galveston, Ind., each of whom is one of twins. They were married by a clergyman who was one of twins, as was the best man.

Terribly Afflicted With Lame Back. Could Not Sweep The Floor.

When the back aches and pains it is almost impossible for women to do their housework, for every move and every turn means an ache or a pain.

Women are beginning to understand that weak, lame, and aching backs from which they suffer so much are due to wrong action of the kidneys, and should be attended to at once so as to avoid years of suffering from kidney trouble.

On the first sign of anything wrong with the back Doan's Kidney Pills should be taken.

They go right to the seat of the trouble. Mrs. Wilford Jolicoeur, Newville, Que., writes: "I take pleasure in writing you stating the benefit I have received by using Doan's Kidney Pills. About three years ago I was terribly afflicted with lame back, and was so bad I could not sweep my own floor. I was advised to try Doan's Kidney Pills. I only used three boxes, and I am as well as ever. I highly recommend these pills to any sufferer from lame back or kidney trouble."

Price, 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Toronto, Ont.

If ordering direct specify "Doan's."

THEIR DADDY IS PRESIDENT OF CHINESE REPUBLIC

London, Nov. 14.—There is only one chop suey restaurant in London and that is in Piccadilly circus. Londoners do not like chop suey, so only Chinese are seen in the establishment. They are mostly students.

When the three lads shown in this picture walk into London's solitary Chinese restaurant, everybody looks up and chatters about them, for they are the three sons of Yuan Shi Kai, the president of the new Chinese republic. Their father has sent them to attend Cheltenham college, in England, and this photograph shows them on the first day on which they wore their morbid board caps.

WEDDING ANNIVERSARY

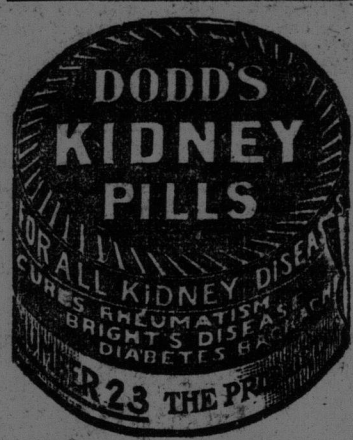

Presentation and Good Time at Home of Mr. and Mrs. George McLaughlin.

Mr. and Mrs. George McLaughlin of Pleasant Point were pleasantly surprised on Wednesday evening when friends to the number of about forty assembled at their home to offer congratulations on their twenty-third wedding anniversary.

A pleasant time was spent in music and dancing, and Boyd Allan on behalf of the company present, read an address and presented to Mr. and Mrs. McLaughlin a handsome silver vase as a souvenir of the occasion. About midnight a dainty repast was served and the party returned to their homes in the early hours after having given three cheers and a tiger for the bride and groom.

Among those present were Mr. and Mrs. Boyd Allan, Mr. and Mrs. Charles McLaughlin, Misses Rea and Sadie Peterson, Misses George and Jessie Engall, Miss Rena Stevens, Miss Gertrude Raines, Miss May Driscoll, Miss Alice McManus, Miss Ethel Waters, Miss Alice Stevens, Miss Sylvia Stevens and

Messrs. Carl Bonnell, Guy Stevens, Gorham Stevens, P. Smith, Roy McLaughlin, H. Perry, Leo Wright, George King, Frank King, Allan Miller, Fred Engall, Fred Keating, Harold Humphrey, John McManus, Robert Kennah, H. Diagon, Stuart Henderson and Bert Hopper.

BERI-BERI CASE AT PHILADELPHIA

Philadelphia, Nov. 13.—A case of beri-beri was discovered on board the British steamer Strathmore, which arrived here today from Bombay, India, with a cargo of manganese ore. A sailor who was suffering from the disease was taken off the vessel at the quarantine station at Marcus Hook (Pa.) and placed in the hospital there for treatment.

TWENTY-FIVE CANDIDATES

Edmonton Council's Action Brings Many Into the Field

Edmonton, Alta., Nov. 14.—When the city council turned down by a vote of five to four a resolution adopted by the Edmonton Board of Trade and the Trades and Labor Council, favoring a plebiscite at the civic election on December 9, on the question of an elective commission, it forced a dozen anti-administration candidates into the field.

W. J. McManus, a millionaire property-owner, formerly mayor of Wetaskiwin, Alta., announces himself a candidate for mayor on the platform of a commission form of government, with the initiative, referendum and recall. Mayor William Short, K. C., is a candidate for re-election on the present charter, under which Edmonton has municipal ownership of public utilities and the single tax, as is William J. McGrath, who was defeated for the mayoralty in a three-cornered contest in 1912. There will be twenty-five candidates for five seats in the council.

New Method of Reducing Fat

Good News From Paris.

A new and more perfect method of producing a fine, even, and lasting finish on the skin has been discovered in Paris. It is a simple and easy method, and it is said to be the most perfect yet devised for the purpose. It is a new and more perfect method of producing a fine, even, and lasting finish on the skin. It is a simple and easy method, and it is said to be the most perfect yet devised for the purpose.

New York city has one voter whose vote costs the city \$500 yearly. He is John J. McGovern of the Department of Street Cleaning, who lives in Brooklyn. He has been the only voter in his district for eight years, during which the whole election process has been gone through for his benefit.

SAYS NOTHING TO STORY THAT GAS IS GIVING OUT

(Moncton Transcript.)

"There is nothing in the stories being circulated about the streets, to the effect that the natural gas fields are giving out," said Matthew Lodge, of the N. B. Petroleum Company, when seen by The Transcript this afternoon. "One or two of the wells are filling up with debris and will need to be cleaned, and that is the sole foundation for the story."

Mr. Lodge said that the reports to the effect that the L. C. R. was replacing gas with coal as a fuel for some of its boilers at the new shops, was based upon the placing of a couple of old locomotive boilers for steaming purposes, at the rear of the new shops.

Speaking of the meeting of the Petroleum Company last evening, Mr. Lodge said that the company had decided to secure the services of an expert to look after its interests and that an offer would probably be made to O. P. Boggs to accept the position.

ASBESTOS COATED STEEL SAW TO BE INDESTRUCTIBLE

(The Engineering and Mining Journal)

Here is a new construction material—aluminum-covered steel—which is said to be practically indestructible. The Duck-back brand, for exterior use is composed of a steel sheet, of U. S. Standard gauge, 18, 20, 22, 24 or 26 coated on both sides, with one or two layers of asphalt, applied hot, on which is compressed a layer of long-fibre asbestos, in gray or terra cotta colors. The sheets are either flat, corrugated or beaded, and are attached to the roof structure in the same manner as black or galvanized plates. Their weights range from 125 to 225 lbs. per 100 sq. ft. The price of 22-gauge metal is \$11.50 per 100 pounds.

The asbestos will take and hold paint, if desired, but this is not necessary for the preservation of the material, one of its recommendations being that the cost of maintenance is practically eliminated. The material has been proved under the most severe use, as roofing and siding for acid factories, steel plants, coal-mine installations and fertilizer factories near the seacoast. About 400,000 sq. ft. of this material were recently used in covering a modern zinc-smelting works.

Potatoes will bake more quickly if they are parboiled for ten minutes first. They have a delicious flavor, too, when cooked in this way.

Exhibition Directors.

In order to elect ten additional directors of the Exhibition Association a meeting of the association was held yesterday afternoon, when it was arranged to hold another meeting next Tuesday at 4 o'clock to complete the organization and transact further business. The following directors were elected: J. W. Northrup, George C. P. McIntyre, Sussex; W. W. Hubbard, J. B. Daggett, Fredericton; Dr. Landry, M.P.P., F. E. Holman; F. B. Schofield; W. H. White, F. W. Roach and Malcolm McAvity.

For nursing mothers Na-Dru-Co Laxatives

offer the important advantage that they do not disturb the rest of the system or affect the child.
