VACCINATION AND LOCKJAW.

(New York Sun.)
An investigation by the board of health of Camden, N. J., of the conditions surrounding the occurrence of tetanus, popularly known as lockjaw, as a follower of vaccination has established a number of conclusions comforting to any who have been disturbed by the fear that the operation of vaccination necessarily involved the terrible danger of tetanus. About ten children of Camden who had been vaccinated have been afflicted with tetanus.

The investigation of the causes of the tetanus in these cases, as reported, was thoroughly rigid. It began with a bacteriological examination of the vaccine virus used in inoculating the children. This was found to be absolutely free from tetanus. The physicians who had inoculated the children were called before the board and testified to the exact period, which had elapsed between the vaccination and the appearance of tetanus. In no case was the intervening period less than nineteen days. The best of authorities, Prof. Oser and Surgeon-General Sternberg, have established the period of incubation of acute tetanus as five days. No case is known of tetanus being more than twelve days in making its appearance. It seemed fair to conclude, therefore, that the tetanus in the Camden children must have been caused by some infection occurring a week or more after the vaccination. This is supported by the reports of the physicians that they found the children

QUEEN WILHELMINA.

Particulars of the Causes Which Led to Her Illness—Her Husband Does Not Visit Her.

NEW YORK, Nov. 25.—In connection with Queen Wilhelmina's illness the following particulars have been published, says the Amsterdam correspondent of the Journal and Advertiser:—

It seems that before his marriage Prince Henry lived for a time at a pace beyond his means and as a consequence fell into the hands of money lenders. The debts he contracted on those days were to be settled after his marriage with the rich young queen, and quite recently Henry made a clean breast of the matter to her. Upon learning all the particulars Queen Wilhelmina declined point blank to pay her husband's debts, the result being that a very violent scene took place between them, which ended in Henry rushing away to Germany and with Wilhelmina being taken ill.

It is said that only the most imploring telegram sent to him by the queen's mother, Queen Emma, induced Henry to return to Holland. The queen's mother is anxious to preserve appearances at least. Since his return to Holland Henry has not been once to the palace where his queen is. As a proof of the serious character of the queen's illness, in spite of all reassuring reports, to contrary, may be mentioned the fact that the recent official gazette did not contain a single royal command, which is an unprecedented state of things.

THE HAGUE, Nov. 25.—Queen Wilhelmina's condition is so satisfactory that Prince Henry will leave Het Loo tomorrow on a short visit to Prussia.

BOSTON BEATS NEW YORK.

NEW YORK, Nov. 25.—The advantage that shippers of grain from Boston enjoy over those who ship from New York have been brought to the attention of Gov. Odell by local grain interests. They say that as a result of contracts between the railroads, terminating at Boston and the steamship lines between Liverpool and Boston the latter port has secured an immense advantage. In figures this advantage is indicated by a total of over 10,000,000 bushels of wheat shipped to Liverpool from Boston, as against some 3,400,000 bushels from New York to Liverpool. It is asserted that the railroads offer free storage at Boston.

DICK BURGE IN TROUBLE.

LONDON, Nov. 25.—The pugilist Dick Burge was arrested in London this morning on a charge of complicity in the recent Bank of Liverpool frauds. It is said that the police have recovered a large amount of the money that was taken. The sums discovered aggregate \$100,000. A number of other arrests are anticipated. An embargo has been placed on the bank's assets of a well known bread baker. Later in the day Burge was brought up in the Bow street police court, charged with altering checks aggregating \$28,000 without knowing them to be forged, and was remanded.

WILL BOMBARD COLON.

COLON, Colombia, Nov. 25.—9 a. m. No evening train left Panama yesterday. The government troops are attacking the Liberals at Sucre. The government gunboat Gen. Pinzon left her anchorage close to the other warships last night, and is now reported to be landing troops on the north end of Colon. There is much commotion in the streets. People are seeking refuge on board the United States gunboats Marietta and Machias and along the railroad.

MONTREAL.

MONTREAL, Nov. 25.—The returns of navigation for the past season at this port show considerable falling off compared with last year. The Dominion Steamship line have decided to abandon Portland, Me., and return to the St. Lawrence route next season. The treasurer of St. Boniface has been arrested, charged with the theft of municipal bonds.

THE KAISER AND HARVARD.

NEW YORK, Nov. 25.—The Berlin correspondent of the London Times and New York Times says that as a token of interest in the Germanic museum at Harvard university Emperor Wilhelm is having prepared for presentation to the senate of Harvard a unique collection of plaster casts. The casts will duplicate some of the finest German medieval stonework, such as the tracery in the choir of the Halberstadt cathedral.

FOUR BURNED TO DEATH.

PITTSBURGH, Pa., Nov. 25.—The residence of J. G. Miller on Zora street, Knoxville, was destroyed by fire early this morning and four sisters, ranging from 15 to 25 years, were burned to death. Mr. Miller and his wife were also badly burned in trying to rescue their children. The fire was caused by the explosion of an oil lamp.

SAW A BULL FIGHT.

MEXICO CITY, Nov. 25.—The bull fighting season in Mexico opened Sunday, with Massani, the Spanish matador, in the arena. Many prominent people in the political and social world of Mexico were present. Two horses were occupied by some members of the United States delegation and other delegations to the Pan-American conference. The performance itself did not come up to expectations.

GREAT CHANGES.

Improvements by the Colonial Copper Co. at Cape d'Or.

(Amherst Press.)
A representative of the Press visited the works of the Colonial Copper company at Cape d'Or this week, and reports that it is difficult to describe the amazing changes which the company have brought about in the vicinity of their operations. Three miles from Amherst they have cleared the surface and established a thriving community of residences, shops, houses, stores, offices and mills that makes the old inhabitants rub their eyes and wonder if they are still in Nova Scotia.

Copper has been known to exist at Cape d'Or for centuries. On the beach small pieces and large masses of the native metal have been found at ebb tide for many years and numerous attempts in a small way have been made to locate the main deposit and open it for commercial use, but never with profit hitherto. The ledge has been traced on the shore, but the high tides which cover it twice a day have blocked all efforts to work it successfully. The present company was incorporated in New York, with a capital of five million dollars, for the purpose of sinking through the bank above the shore and thus opening the deposits as they lie inland free from the disturbing influence of the turbulent waters.

Three shafts have been put down so far, and all are equipped with power houses and the best hoisting machinery. A stationary steam power saw-mill has been erected to cut the large amount of shaft timbering. Fifteen neat and well built cottages have been erected for workmen and their families, a commodious building has been put up for the offices of the company and a beautiful new residence for the manager and the shareholders who come to visit the mines in the summer season has been built at the foot of the cliff. The last building is a fine residence, equipped with every modern convenience. In addition to these buildings the company plan to erect a number of warehouses, and has erected a large smelter for the treatment of its ore. The smelter has not yet been used, although the company is now hoisting ore. It is expected that the furnaces will blow in next summer.

Besides the improvements already made the company plan to erect a fine hotel next summer and to make this beautiful spot a favorite resort for visiting Americans. Other plans include a breakwater, for which the government has promised \$10,000, a steamer to ply between the mine and St. John to carry passengers and freight and many other local improvements.

Cumberland people will extend their best wishes for a prosperous future to the Colonial Copper company and its president and manager, J. A. Hanway.

CANADA AND THE U. S.

Referring to the present movement of various bodies of United States business men in regard to the trade question between that country and Canada, Sir Charles Trupper said last week in the Toronto Globe:—"My attitude is best expressed in the words of the late Sir John A. Macdonald, 'If we cannot have reciprocity of trade with you, we will have reciprocity of tariffs.' In this connection, he commended the statement made by Sir Wilfrid Laurier at Montreal that no more delegations from Ottawa would go to Washington seeking reciprocity, but that Ottawa would wait for delegations from the United States capital. It was somewhat difficult to reconcile this statement with the announcement made by the premier during the last session that he hoped negotiations between the two countries on the tariff question would soon be renewed. However, the premier's utterance at Montreal was apparently definite, and was the dignified and proper course for Canada to take. Sir Charles expressed the hope that the cabinet would decide to send another contingent to South Africa.

REV. G. M. YOUNG QUARANTINED.

(Charlottetown Examiner.)
The condition of the smallpox patient at the Marine Hospital, Keppoch, is unchanged, and grave fears are entertained for his recovery, as his case is one of the worst forms of confluent smallpox. Yesterday afternoon Dr. Conroy vaccinated the crew of the Monitor, which is in quarantine. Four of them had never been vaccinated before. The patient has been dressed and made as comfortable as possible. The man, McDonald, of Georgetown, who was in attendance and was supposed to have started for Georgetown by road, was discovered in the vessel last evening by Dr. Conroy, and it is probable that he never left the immediate vicinity of the hospital at all. On Friday Dr. Conroy, at the request of the patient, wrote a letter to his parents at Lunenburg, telling them of his condition. Rev. G. M. Young visited the hospital on Thursday in company with Dr. Conroy. But as there were no accommodations he was permitted to return to his home where he has been quarantined and there will be kept for at least twelve days.

CUBA WANTS RECIPROCITY.

A delegation of prominent Cubans have come to present to President Roosevelt a petition for reciprocity between the island of Cuba and the United States. The delegation represents the residents, the general centre of merchants and manufacturers of the island of Cuba and other Cuban economic organizations.

SALMON FOR GREAT BRITAIN.

The British ship Charles Cotesworth is the fifth ship to leave Victoria, B. C., with this season's catch of salmon. The cargo amounted in all to 4,469 cases of salmon, valued at \$23,139. Six more vessels are yet to go within a fortnight to the Fraser river for salmon.

CANADIAN BRIEFS.

Interesting Items From All the Western Provinces.

OTTAWA, Nov. 25.—Illness is the cause of the delay of Chief Justice Strong's departure for England.

VANCOUVER, Nov. 25.—It is now declared that the Yukon conspiracy was simply a bunco game by a couple of strapped miners.

TORONTO, Nov. 25.—The charge that the police of the city were in collusion with gamblers has collapsed.

WINNIPEG, Nov. 25.—Hotel properties have greatly depreciated in value as a result of the liquor act decision by the privy council.

SAULT STE MARIE, Nov. 25.—The big works of the Clergue syndicate here were today damaged by fire to the extent of \$25,000.

BARBADOS GOVERNMENT.

Wants to Know About Those Servant Girls for Canada.

OTTAWA, Nov. 25.—News of the suggestion made some weeks ago to solve the servant girl problem by bringing capable colored girls from Barbados, has reached the West Indies, and the negro girls are greatly excited over the prospect of being sent to Canada to enter domestic service. The government of the island has taken up the matter seriously and has communicated with the authorities here to ascertain the facts of the proposed migration scheme, which the colored population assumed to be launched under government auspices.

SOUTH AFRICA.

LONDON, Nov. 25.—This morning's despatches from South Africa show that the recent fighting near Villiersdorp, southwest of Standerton, as to which Lord Kitchener reported nothing beyond the fact that Commandant Buys had been captured after attacking a patrol of 100 railroad pioneers, was really a serious affair.

It seems that Grobelaar's commando succeeded in surrounding and capturing 100 British Cape railway pioneers. Subsequently Col. Remington came up with reinforcements, and, after heavy fighting, compelled the Boers to retire and to release their prisoners. The British loss included Major Fisher killed and three officers wounded. The casualties among the men have not yet been reported.

LONDON, Nov. 25.—With reference to the story that the British placed Boer women and children in front during the fighting at Graspan, June 6th, when Gen. De Wet's convoy was captured—a story which has been spread broadcast on the continent as an example of British barbarity—the Daily Mail sent a despatch of inquiry to Lord Kitchener, who replied as follows:—"The statement is absolutely untrue and devoid of all foundation. One child was killed, and one woman and one child were wounded by the Boers."

As this story has been prominent in the recent anti-Chamberlain campaign in Germany, the Daily Mail has telegraphed Lord Kitchener's reply to all the leading German papers.

WILL FIGHT THE COMBINE.

ST. PAUL, Minn., Nov. 25.—The Pioneer Press says Governor Van Sant has determined to fight the great railway combine as represented by the Northern Securities company to the last ditch. He has decided to call an extra session of the legislature for about Feb. 1st, for the purpose of providing funds for the legal battle, and says should the legislature fail to appropriate the amount asked, he will use his own private purse to carry on the contest.

OUTLAW MURDERS JUDGE.

SAN DIEGO, Cal., Nov. 25.—The murder of L. Fierro, judge of the district in Lower California, is reported from below the line, and again the crime is laid at the door of a border outlaw who is wanted on both sides of the line for almost every crime from murder down. The outlaw was away from his haunts near the line at the time the crime was committed, and the fact that he had threatened some sort of punishment for Fierro gives color to the claim that he handled the revolver that ended the judge's life.

THE WEATHER.

WASHINGTON, Nov. 25.—Eastern states and northern New York.—Cloudy tonight, with snow in the interior; Tuesday, fair; fresh northwest winds.

TRADE WITH SOUTH AFRICA.

(Canadian Grocer.)
It should be borne in mind by our manufacturers that South Africa wants only finished goods. It does not want lumber cut merely into deals; it wants it dressed and ready to nail together into a house. There is no skill-labor there. The people there do not want leather; they want ready-to-wear boots. And so we might go down the list. At present, we are sending a by no means small quantity of raw materials to the United States and England, where it is being finished and reshipped at a neat little profit.

Mr. Moffatt, the Canadian representative in South Africa, has suggested that a dozen Canadian manufacturers club together and send a bustling representative out there. Travelers' expenses are very high, but by a co-operative movement this heavy expense could be distributed. There is certainly plenty of room for action. Ten years ago, the United States began to trade with South Africa; last year \$19,000,000 worth of goods were sent over from their ports.
