OPPOSITION'S PROMISED SENSATION A FIASCO

Nova Scotia Tories Charged Huge Graft But Could Not Make Good.

HALIFAX, N. S., April 22—Lurid despatches have been sent out from Halifax to opposition papers announcing that the opposition in the Nova Scotia Legislature were about to spring a huge sensation in the exposure of graft in the purchase of public supplies. The "sensation" was brought in yesterday and it had a sudden end, the opposition completely collapsing after the crushing reply of Hon. Christopher Chisholm, commissioner of works and mines. The opposition leader had ample opportunity to investigate the purchase of all the supplies before the public accounts committee. He is a member of that committee and signed its report certifying that all was regular. On the eve of prorogation he moved a resolution calling for the appointment of a royal commission to investigate the prices paid for supplies for government institutions. One article in particular he cited was cement which is largely used in the construction of bridges and which cannot well be purchased by tender and contract economically as it has to be distributed in variable quantities all over a wide stretch of territory.

Mr. Chisholm completely knocked the
