Engine Development
Marks C.P.R. Growth

The development of the Canadian Pacific Railway can almost be measured by the huge increase in the size and hauling power of its locomotives. The above cut shows three engines that have been on the Canadian Pacific Railway Co. lines. The top one is the first engine built by the company and at the time was considered a very powerful locomotive. It is now on exhibition in Winnipeg. The second picture shows the engine in general use on the C.P.R., and while it is one of the most powerful of its kind used it fades into insignificance beside the huge Mallet Articulated Compound shown in the lower picture. This is the latest production of the company and is by far the most powerful engine now being operated in Canada. It weighs over 130 tons without the tender and has a hauling capacity of about twice that of the ordinary locomotive. These engines are being used on the company's Rocky Mountain line and have been found very serviceable for hauling freight on the heavy western grades.

SUFFERED THREE YEARS

Till Dr. Morse's Indian Root Pills cured his Kidney Trouble

There are few diseases that cause more acute suffering than Kidney Trouble, and Mr. F. A. Thomas, of Sudbury, Ont., is one of those who know it. He writes: "For over three years I suffered from kidney disease. First I thought I had sprained my back, for suddenly the pain would catch the small of my back and it would be impossible for me to straighten myself up for several minutes. A dull ache across the kidneys was always present, my urine was thick and cloudy, and passing it caused a burning, scalding pain. Tried medicines, but they failed. I was advised to try Dr. Morse's Indian Root Pills, as they had cured my wife years before. A few boxes affected a complete cure. I now enjoy the blessings of good health, which is due to this remedy."

Don't neglect kidney trouble—it's too dangerous as well as too painful. That old, reliable family remedy, Dr. Morse's Indian Root Pills, has cured thousands and will cure you. It is equally effective in curing constipation and its attendant evils, biliousness, indigestion and sick headaches, and in purifying the blood. 25c a box at your druggist's.

Do your baking with
flour made exclusively of
the HIGH-GRADE constituents
of the HARD-WHEAT berry

Have you ever baked with flour made exclusively of the high-grade constituents of the hard wheat berry? If you haven't, now is the time to try PURITY Flour.

Only the cream of the Manitoba hard wheat—the best wheat in the world—is used for PURITY Flour. More than that, only a portion of the flour milled from this wheat goes into the sacks and barrels branded PURITY.

PURITY Flour consists exclusively of the high-grade constituents or portions of the Manitoba hard wheat berry.

Every wheat berry has both low-grade and high-grade constituents which are separated during our process of milling. So exact is our process that it entirely eliminates all the low-grade portions from the flour which is finally branded PURITY.

The greater strength of PURITY Flour makes it go farther in the baking. With it you can make

more loaves to the sack or barrel than you have ever succeeded in doing before. The loaves will be more nutritious, too, because they contain the high-quality gluten, starch, phosphates and other muscle-building and blood-enriching elements of the hard wheat berry.

Naturally flour that consists exclusively of the high-grade constituents of the best hard wheat has greater strength and nutriment, superior color, more delicate flavor.

If you'll just try to realize fully what it means to your cooking-reputation you'll soon be using PURITY Flour.

Of course, PURITY Flour will cost you a few cents more than lower-grade hard wheat flour or soft wheat flour.

But PURITY is very economical because it makes "More bread and better bread." The cost per loaf is no more than when using weaker flour, and the food value is much greater.

Tell your grocer you are in a hurry to try PURITY Flour. He will supply you promptly.

When you see the batch of beautiful snow-white loaves, with their soft, evenly-textured crumb and dainty golden-brown crust, you'll be proud of your success with PURITY Flour. When you taste and enjoy the superb flavor of such high-class bread you'll be prouder still.

If you don't want to buy a large sack or barrel, you can get a small bag. PURITY is packed in 7, 14, 24, 49 and 98 pound sacks. Also in barrels and half-barrels.

Make certain the PURITY trademark is on the sack or barrel you buy, for that is your guide to the strong, reliable, high-quality flour that makes

"More bread & better bread"
