The speeches were terse, witty and interesting. Dr. Boyle, in the course of his remarks, outlined the reasons why King's was rebuilding and not moving to Halifax. He stated that when amalgamated with Dalhousie had been thoroughly discussed by both the authorities of King's and Dalhousie, the project had been found to be absolutely impracticable. There was no question of an offer having been made by Dalhousie and refused by King's, but it was simply found, after a full discussion, that the project was not feasible. Dr. Boyle stated that tentative plans for the new King's were being considered and he hoped that by next Christmas, part at least of the new building would be occupied.

Speaking for the students, Mr. Markham referred to the establishment during the year of the first wireless station among the Maritime colleges; of the excellent showing the students had made in their football and hockey contests, and of the excellent spirit of the students, who put up with the inconveniences caused by the fire and carried on in spite of adverse circumstances.

The absence of the President of the club, Prof. J. B. McCarthy, was regretted by all, but the Vice President, J. W. Blanchard, Esq., ably occupied the chair and acted as toastmaster.

The Greatest Tonic on Earth

is good, solid, dead-to-the-world sleep.

The man who puts in his eight hours of slumber has a big start over the fellow who lies awake half the night.

Plenty of sleep means an abundance of stored-up energy. It means greater resistance to infection.

The people who make good in this world are those who just bubble over with fire and enthusiasm—those who have their powers renewed nightly by heavy, dreamless sleep.

Don't drag along—only half-alive—dragging yourself at night to snatch a few hours of rest.

Get a copy of "SLEEPING FOR HEALTH." Read it. Apply the good, honest, horse-sense of that book to the problem of sleep, and you will find your reward in the new vitality and vim that come from refreshing slumber.

You may doubt this. Very well! Just send us \$2.00 for a copy of "Sleeping for Health." If a thirty days' trial doesn't convince you that the book has a vital message, return it and we will send back your \$2.00. You need this book, and we want you to have it.

IT TAKES THE JOY

Out of Life—in the Spring When Impure Blood, Lost Appetite, Lifelessness, lassitude and that tired feeling pull down health to the low level that invites illness.

The knees become weak and life seems hardly worth living. In this condition Hood's Sarsaparilla has the real "human touch." It meets the necessity promptly and completely. It purifies the blood, creates an appetite, "makes food taste good," and aids digestion, thus naturally increasing strength and in a common-sense way building up the whole system. Then the bright days of spring find in you happy response, and the whole world smiles again.

Take Hood's Sarsaparilla for your Spring Medicine—used as such for nearly 50 years by thousands. It "makes food taste good." Keep on hand Hood's Pills as a gentle laxative or (in larger doses) as an active cathartic.

Merely Misunderstood.

Men never sulk. It is only that sometimes their feelings are hurt and they retire within themselves, if you women could only understand it.

New Railway for B. C.

Vancouver, B. C., May 5.—The provincial government has arranged to send out two parties of engineers this summer to conduct a survey north from Prince George for the proposed extension of the Pacific Great Eastern

into the Peace River country. Premier Oliver formerly announced while in the city recently. The extension will tap one of the richest tracts of territory in the province, and provide an outlet to the coast for the fertile area north of Edmonton, Alta., which is now simply by the Edmonton & Dunvegan railway.

PUT HIS FATHER UNDER ARREST

Good Story Told of Boyhood Days of Chief Secretary to Ireland.

(Cross-Atlantic News Service. Copy right.)

London, May 4.—There is a good story being told about the boyhood of Sir Hamar Greenwood, the new Chief Secretary for Ireland, who is Canadian born.

At the age of sixteen, young Greenwood ran away from home and joined the Canadian Army. His father traced him to a camp, where he found Hamar doing "sentry go." The stern parent ordered him to come back home, and tried forcibly to make the boy accompany him. But the recruit, judging military discipline to be above the domestic variety, turned out the guard and put his father under arrest for "trying to rush the sentry."
