THURSDAY, APRIL 21, 1921

Having voted "Yes" on the referendum regarding the importation of liquor for beverage purposes, Ontario now awaits the order of the Dominion Government giving effect to the expressed will of the people. There will then be three measures operating to make this a "bone dry" province. The Dominion enactment making the importation of liquor from any other part of the country or anywhere else illegal; the Ontario Temperance Act itself, and the provincial measure popularly known as the Sandy Bill. The last is designed to prevent what is known as "short circuiting." This is the method by which orders for liquor placed in Quebec Province for Ontario customers have been filled by the breweries and distilleries in Ontario. With importation made illegal the shipment of liquor into the province will be hedged around with difficulties that will make the profession of rum-running far more perilous than it has ever been. Outside of Quebec and British Columbia, Canada will now be practically a prohibition country.

The Pons-Wennecke comet which is to make its re-appearance soon may be discovered by the astronomers next month, and be generally observable in June. It is named after the men who first located and made observations of it. This is the comet that some wags have said may collide with the earth and a good deal of fun has been made out of the possibilities of future happenings. That humor of this kind sometimes works in queer directions is illustrated by the seriousness with which many people have regarded the statements of these practical jokers. There are a number of people who are willing to believe that only by a miracle of nature can the earth avoid a disastrous bump.

FIGHT THE CORN BORER

Observations recently made in Elgin county, particularly in the district of St. Thomas, by officers of the Entomological Branch of the Dominion Department of Agriculture, and others, indicate that the European corn borer found in Canada for the first time in August, 1920, has come through the winter in a very healthy condition. The Department urges, therefore, the assistance of all farmers in affected districts, in the efforts which are being made in controlling this dreaded pest and preventing its further spread.

The borer or caterpillar is the destructive stage in the life of the insect and it is in this stage at the present time within corn stubble, pieces of stalk, old ears, or other parts of the corn plant which were large enough to shelter it during the winter. Farmers, therefore, should realize the importance of destroying, at once, preferably by burning, all unused portions of corn stalks, cobs, waste, etc. Crop refuse around silos and also that left during the winter in infested corn fields should be carefully gathered up and destroyed by burning. Fields within the infested district should be kept free from weeds, as the borer has been found in thick stemmed grasses, ragweed, smartweed, lambs quarters, etc.

BRAVE PEOPLE, THESE

The way the people of Melbourne acted on that memorable Monday when the four armed bandits attempted to rob the Home Bank is something of which they have every right to feel proud. The courageous act of Miss Agnes Campbell in closing and locking the safe door in spite of the threats of the armed men; the behavior of Manager McAndrews in feigning unconsciousness when roughly handled by the bandits; the cool-headedness of Miss Irma Wright in summoning help; the prompt response of the Campbell brothers, Manager Theaker of the Union Bank, and other citizens, all of whom walked right into the face of danger and beat back the bandits at their own game; the act of the Indian, Wilfrid Danford, in going unarmed into the bayonet where one of the armed bandits was hidden and effecting the capture of the man single-handed; and last, but not least, the exemplary way in which the people of the village acted in holding the men for the officers of the law, instead of string-

ing them up to the nearest tree, as our neighbors across the line would have done—all this and more, too, that has, perhaps, not yet been told, is a splendid tribute to the bravery, courage and stability of the people of Melbourne. Canadian citizenship is safe in the hands of such men and women.—Onlooker, in St. Thomas Times-Journal.

New Paramount-Artcraft Picture One of Greatest Thus Far Produced

A superb, dramatic Paramount-Artcraft feature, "The Miracle Man," which will be on view at the Opera House on Saturday, April 30, is declared to be one of the really great screen dramas of recent years. It was written by Frank L. Packard and produced as a stage play by George M. Cohan and packed the Broadway theatre in the season of 1916-17, where it played for many months. The screen version is said to be even more absorbing and thrilling in its development of the striking story, which shows the marvellous transformation under the beneficent influence of an ennobling environment of four of the most notorious crooks of New York's underworld.

Hearing of the healing powers of this old man of the hills, Tom Burke, and his band determine to capitalize

them to enrich themselves. Little did they reckon that in their new field of operations they were destined to undergo a magical transformation, and this forms the basis of one of the
