

Carleton Place Herald

(Established 1850).
W. H. ALLEN, Proprietor.

Published every TUESDAY MORNING at the Office of the Proprietor, Bridge street, Carleton Place (next door to Post Office).

SUBSCRIPTION PRICE—In Canada, One Dollar and a half a Year, payable in Advance. \$2.00 if not so paid. To United States, \$2.00 per year, payable in advance.

ADVERTISING RATES—Transient advertisements 10 cts. per Nonpareil line for first insertion; 5 cts. per line for each subsequent insertion.

Rates for Display Advertising on application. Advertisements will be changed once each month if desired.

READING NOTICES are inserted at 10 cts. per line per insertion, and if the same matters continued at 5 cts. per line each subsequent insertion.

Advertisements without specified instructions will be inserted till forbidden and charged accordingly. The business office of THE HERALD is open every Saturday evening from 7 to 9 o'clock, to oblige town subscribers, advertisers and parties needing printing.

NOTICE—All copy for changes of advertisements should be in on Saturday evening, or not later than 9 o'clock on Monday morning. As THE HERALD goes to press on Tuesday morning the necessity for this rule is obvious.

A file of this paper may be seen at McKim's Advertising Agency, Montreal, and at Gibbons' Agency, Toronto.

All money letters should be registered, and all correspondence addressed to

THE HERALD,
Carleton Place, Ont.

TUESDAY, NOV. 5TH, 1918.

CANADA was well over half the objective yesterday in the Victory Loan campaign, with nearly two weeks to go. Ontario is leading the way.

The net debt of Canada, which before the war stood at about \$336,000,000 has now passed the billion dollar mark, and it is estimated that when the accounts for the year 1917-18 are closed, it will reach approximately, \$1,300,000,000. The increase is almost entirely attributable to war expenditures.

CARLETON PLACE exceeded \$80,000 in the Victory Loan Campaign the first week—one third of the objective. But two-thirds are to come. Everybody must do "his bit" to reach the goal. We admit the aim is set pretty high, comparing other towns of similar population, but our good name has put us there, and we must try to live up to our reputation.

The Canadian War Trade Board is reported to be considering the adoption of similar regulations to those announced from Washington. In effect these are that no shoes should be sold at retail for more than \$12.00 after June 1st next, and that the manufacture of shoes intended to sell at a higher price shall cease within two or three months. Apparently the intention of the War Trade Board is to put a limit on shoe prices to compel a reduction in the number of fancy styles and save leather.

BURN WATER INSTEAD OF COAL

Temperature recommended by the Ontario Fuel Administration for working and living-rooms, 64° F. (64 is the "optimum" temperature, or the degree of heat, at which science agrees man is at his best.)

Temperature recommended for sleeping-rooms, 50° F. or less.

"Make water warm you instead of burning an excessive amount of coal to do it," is the advice of the Ontario Fuel Administration in urging the importance of properly moistening the air in the home.

Dry air at 70° or 72° may feel cooler than moist air at 60°, the Administration declares. Moist air holds the heat longer and saves coal.

There are ten per cent. more deaths at a given temperature if the relative humidity is below 40 per cent. than if it is above 70 per cent.

Give the air a drink out of a pan instead of off your skin. Evaporation from the skin renders one susceptible to colds, catarrh and other diseases of the respiratory organs.

As much, if not more, attention should be paid to the humidity-reading as to thermometer reading. A hygrometer, as well as a thermometer, should be in the home.

The Department urges every householder to follow these simple rules for humidifying air in the home:

When the house is heated by stove, have a pan of water or a boiling kettle always well filled. Place open pans of water near the registers.

In cases where steam or hot water systems are employed, provide humidifiers, or pans of water, for every radiator.

The average room may require a quart of water per day. Change water frequently.

Time to Halt

The German soldier does exactly what he is told to do and no more.

An officer was drilling recruits and had just given them the order, "Quick march!" when he noticed his sweetheart coming across the barracks square.

Forgetting all about the recruits, he entered into conversation with the girl and walked away with her.

LANARK

From the Era.

Mr. Frank Heffron, son of Mr. and Mrs. Wm. Heffron of the village, has joined the Signal section of the Siberian Force.

Mr. and Mrs. Charles Closs of Joe's Lake, received word on Thursday last, October 17th, of the death of their son, Private Robert Austin Closs of the mounted rifles.

Mr. and Mrs. James Bowes of Balderston, have been officially informed that their son, Matt, was wounded on the 27th of September at the big scrap at Cambrai.

The home of Mr. and Mrs. Jas. King, 10th line Drummond, was sorely bereaved, Oct. 23rd, when their eldest son, Albert passed away from an attack of pneumonia, developed from a bad cold received over a week ago.

The epidemic of influenza has spared the home of neither the high nor the humble. This has been impressed both outside and in the narrower limits of our own locality. In Hopetown this disease has entered the home of Mr. Thos. A. Bulloch and on Wednesday morning, Oct. 23rd it was learned with deep regret that his beloved wife had passed away, this being the second death in the home within a week.

Last week Mr. and Mrs. Peter Barr of this Village received a telegraphic message, that their son, James Ross Barr had taken ill with Spanish influenza and on Wednesday there came another message informing his parents of his death. He was ill only eight days, and he died in Shaanovan Hospital, Sask. The body was brought home to Lanark and was laid away in the family plot in the Village cemetery.

After an illness of one week's duration, Mr. Joseph Watt passed away last Saturday, 26th inst. The previous Saturday he took a sudden chill which confined him to his bedroom. He gradually became worse, when hemorrhages from the stomach occurred, and finally causing death. Joseph Watt was a son of the late Thomas Watt, foundry products manufacturer, Lanark. He was born in Lanark Village in 1863. He received his education in Lanark Village and when in his teens entered the employ of his father for the purpose of learning the foundry man's trade. He continued in this until the firm abandoned foundry work in the village. He then became the representative of various companies and firms in insurance and industry. For the last number of years he conducted a high class grocery in the village and was actively engaged in this line of trade until his illness. Mr. Watt was married to the late Martha Annett, who died in July, 1899. His second wife who survives him was Miss Elizabeth Blair, of Westport. There were no children. He is survived by brothers and sisters:—James and Janet, of Lanark Village, John of Perth, Robert, William, in the west, Mrs. William Knowles and Mrs. Wm. Blair in Ashland, Wis. In fraternal circles Mr. Watt belonged to Stanley Lodge I.O.O.F., and in church work was a member of Zion Congregational church until the body affiliated with St. Andrew's Presbyterian.

VICTORY LOAN AND CANADIAN INDUSTRIES

Last Year's Subscription of Great Benefit and Bigger Work Will Follow This Year.

The Imperial Munitions Board receives advances of nearly \$25,000,000 a month from the Dominion Government.

It has received over \$650,000,000 in advances from the Dominion Government and the Canadian banks.

It has placed \$1,200,000,000 worth of war orders in Canada for the British and other Allied Governments.

An advance of \$10,000,000 enabled it to give orders to Canadian shipyards for 44 wooden ships. To this program 46 steel ships were added. Total value over \$60,000,000.

An advance of \$1,000,000 enabled the Board to begin the manufacture of airplanes in Canada; 3,000 have been built to date of a value of \$30,000,000.

Between 250,000 and 300,000 people are working in Canada on war orders obtained through the Board. It has \$500,000,000 of war orders in sight for 1919.

To carry out this program will require millions in advances which must come from the Victory Loan.

IN FLANDERS' FIELDS.

In Flanders' fields, the poppies grow Between the crosses, row on row, That mark our place; and in the sky The larks, still bravely singing fly, Scarce heard amid the guns below.

We are the dead. Short days ago We lived, felt dawn, saw sunset glow, Loved and were loved; and now we lie

In Flanders' fields.

Take up our quarrel with the foe, To you, from falling hands we throw The torch. Be yours to lift it high. If ye break faith with us who die, We shall not sleep, though poppies blow

In Flanders' fields.

—Buy Victory Bonds.

Your Thousand Dollar Victory Bond Will;

Buy 200 gas masks, or 200 pairs of soldiers' boots, or 450 bushels of wheat, or 500 steel helmets, or 1,000 pairs of soldiers' socks, or 2,000 lbs. of high explosives, or 4,200 lbs. of cheese, or 25,000 rifles cartridge, or 55,000 revolver cartridges.

Remembering Canada has depended on the success of the Victory Loan. The \$250,000,000 wanted must be subscribed. The responsibility rests upon us all to see that the money is raised.

Money Wins—Buy Victory Bonds.

SERBIANS IN BELGRADE

Teutons Are Driven From Balkan Country.

The Capital Was Entered by King Peter's Troops 45 Days After the Beginning of the Offensive on the Macedonian Front — The Allied Victory in the Balkans Is Now Complete.

PARIS, Nov. 4.—A War Office report says: "The commandant of the First Serbian Army has made a solemn entry into Belgrade, the capital. This entry occurred 45 days after the beginning of the offensive on the Macedonian front. Serbian troops united with the French and have crossed the Kolubara north of Valjevo, and are marching on Chabatz, Montenegro. Forces of Jugo-Slavs have arrived at Podgoritz."

The War Office report on operations in the eastern theatre says: "After the capture of Belgrade, the German and Austrians, beaten, retired to the north bank of the Danube. The Second Serbian Army has reached the Bosnian frontier. Serbia has almost in its entirety been freed from the enemy."

"The battles which decided this great victory began on Sept. 15. From the 24th the line of communication on the Vardar was cut. Uskup was captured on the 29th. The displacement of the Bulgarian forces was followed by capitulation, and on the 30th hostilities came to an end."

"The fighting was continued by the defeated Austro-German troops. On Oct. 12 the battle at Nish was marked by the rout of four enemy divisions and the rupture of the great artery of communication of the Central Empires in the direction of Constantinople. On the 19th Lomza Palanka was reached and the Danube road cut. Then came the last episode — Belgrade was taken by the First Serbian Army, to which was given the honor of entering the capital. This army participated in all the fighting, marching without cease and without repose, always in contact with the enemy, whom it held by the throat, very often badly provisioned, but knowing no fatigue, and no hunger. It pushed ever forward by will to conquer at any price."

"On their part the Allied troops made their greatest efforts to bring to a successful conclusion the task confided to them of crushing the common enemy."

VALENCIENNES TAKEN

Canadians Freed "Lace City" From the Huns.

LONDON, Nov. 4.—Valenciennes has been captured by the British, releasing thousands of residents, who had been in bondage for four years. The final link in the encircling chain of troops thrown around the city was forged at 7.50 o'clock on Saturday when converging infantry met east of the invested place and began a further advance on enemy territory. Marly was occupied at an early hour and patrols were pushing up the road leading to St. Saulve.

Virtually all the German troops had been withdrawn from the beleaguered metropolis of Valenciennes during the night, but machine gunners, who had been left behind to give battle until they were killed, were still sniping from houses and street fighting followed the entry of the British forces.

German troops were throwing explosives and gas into the defenceless city, which the British have so carefully avoided bombarding because of the danger to civilians.

Despite this danger the street were filled with people cheering with hysterical joy at their release and acclaiming their deliverance.

The capture of Valenciennes was a fine piece of generalship. In their drive of Friday the Canadians pushed across the Rhonelle and established their lines east and west below the city, then turning sharply southward. Above the city's northern limits the whole country has been flooded so there was no possibility of attacking across it.

Thus the Germans were cut off by water to the north and by the British to the west and south. The eastern exit from the city was the only one left open. The Germans rushed out by the eastern gates of the city all possible material, leaving snipers and machine gunners, who have given their lives to protect the rear of the main German line. German transports and troops raced to the northeast, along the highway leading to Mons. Meanwhile British guns were working destruction in the retreating ranks of the foe.

German machine gunners were widely hidden about the city. Aviators flying over the city report that the civilians are giving the Canadians a great reception.

Was In Mons Retreat.

CHATHAM, Nov. 4.—After nearly four years' service at the front, during which he was thrice wounded, Pte. Sid Little, a British reservist, returned to the city yesterday to spend a well-earned leave with his wife and family on Foster street. He is the possessor of the Mons medal, indicating service in the memorable retreat.

May Go Into Exile.

GENEVA, Nov. 4.—Dozens of trunks bearing the Royal Hohenzollern monogram have been arriving in the past week at the luxurious chateau named "Bouanas," on the Lake of Zug. The chateau, which is flying the German flag, is the property of Baron von Kleist, a German.

Awful Death Toll In South Africa.

CAPE TOWN, South Africa, Nov. 4.—Some idea of the magnitude of the influenza scourge can be gained from the fact that almost every village has sustained losses. Besides 7,500 victims in Cape Town, 4,500 in Kimberley, the known deaths to-day total 1,000 in Pretoria, 600 each in Johannesburg and Stellenbosche.

Since the outbreak of the war France has suffered a loss of 2,600,000 head of cattle. Moreover, the cattle have greatly lost in weight. Before the war the average weight in meat of slaughtered cattle was from 770 to 880 pounds, whereas to-day it hardly exceeds 550 or 570 pounds. That is why France needs American and Canadian beef, for it has not enough to feed its own soldiers and civilians, to say nothing of overseas soldiers.

We want many substantial farmers from your community to help fill up the gaps.
W. S. SMITH, PILOT MOUND, MAN.

As the sun of life sinks toward the west
Life has been said to consist of a constant succession of breakdowns and repairs. In old age, the former predominate. The body machine is more or less worn out. Digestion is less perfect, elimination of waste is increased in quantity, but reduced in efficiency.
Hence, constipation is particularly pernicious. Constipation means more than mere failure of the bowels to move regularly and thoroughly. It means stagnation of the contents of the intestines, increased fermentation, putrefaction and germ action, the production of irritating and poisonous substances, that are absorbed into the blood and carried all over the body.
This is always serious—in old age it is especially dangerous.
Constipation cannot be cured by drugs at any age. It is especially harmful to an aged person to use pills, salts, and similar strong purges in order to force the bowels to act.
But the Nujol Treatment for Constipation is not only safe, it is in every way efficient.
Nujol is not a drug, does not act like any drug.
Nujol helps nature to re-establish ease, soft thorough bowel evacuation—as "regular as clockwork."
Nujol softens and keeps perfectly moist the intestinal waste.
Nujol makes it easy for the intestinal muscles to act, and prevents them from overwork.
Nujol absorbs poisons and carries them out of the body.
Get Nujol from your druggist and take it according to directions.
Warning: Nujol is sold only in sealed Mark. Insist on Nujol. You may suffer from substitutes.
