'ALL FOR ONE MAN.

He Went on Strike and 1,000 Others Were Forced Into Idleness.

Chicago, March 21. - One thousand employees of Selz, Schwab & Co., shoe manufacturers, were thrown out of employment yesterday on account of one fireman, who struck for union wages.

THE MARKET REPORTS.

Wheat is Lower-An Advance in Live Stock-The Latest Quota-

Friday Evening, March 20. Toronto St. Lawrence Market

Toronto St. Lawrence Market.

Trade at St. Lawrence Market this morning was fairly active in most lines. The bad state of the roads does not yet permit of the hauling of much grain to market, and 500 bushels only came in today.

Wheat—Market quotations show no change. Two hundred bushels of goose sold steady at 57c per bushel.

Outs—Prices are ½c firmer; 200 bushels sold at 37c to 37½c per bushel.

Barley—Continues about steady. One hundred bushels sold at 48c to 49c per bushel.

Dressed Hogs—There was a fair amount of stuff on the market to-day and business was mostly active. Prices continue steady at the last advance, quoting light weight hogs at 38.25.

Hay—Mixed or clover is easier at 35 to 39 per ton, and No. I timothy is steady at 312 to 18. About 25 londs were sold.

Straw—Quotations are firmer at 59 to 510 per ton. Two loads were offered for saile.

Toronto Live Stock Markets.

Trade continued fairly brisk at the Toronto Cattle Market this morning. There was a light run of offerings and in consequence prices had a firm tone. The tetal run of stock amounted to 36 cars, 337 cattle, 285 sheep and lambs, 715 hogs and 12 calves.

Export Cattle—There were few good exporters on the market and all were disposed of early in the day. Prices continue about steady, with a firm inclination on account of the light run, especially in the better grades of stock. Medium to common stock was plentiful enough. About \$4.25 to \$4.65 per cwt was paid for the best stuff, and fair to good brought \$3.85 to \$4.15.

Butchers' Cattle—The run was light, the market was fairly active and all the stuff was cleared up. Prices showed a firmer feeling on account of the light run, but quotations continue about unchanged. Picked iots sold as high as \$4.40 per cwt, and fair to good brought about \$3.85 to \$4.25.05 A.05 to \$6.00.00 There were very few cows on the market and most of them were of inferior tree. The market is little firmer and good two the market is little firmer and good to common stuff sold at \$2.55 to \$4.00.00 There were very few cows on the market and most of them were of inferior tree. The market is little firmer and good to common stuff sold at \$2.55 to \$4.00 to \$50 each, publications are \$30 to \$50 each, publications are \$30 to \$50 each, publications are sunchanged. To-day's business was fairly active and prospects are easier.

business was an in-are easier.
Sheep and Lambs—There was a fair run and trade for a time was brisk. Prices all round continue steady and there is no prospect of much change in the market

Hospect of much change in the market feeling.

Ho s—Prices continue unchanged at \$6.50 per wt for selects and \$6.26 for lights and fats. Trade was good and the fairly large run was disposed of early in the day. East Buffalo Cattle Markets.

Stuart's Tablets do not act upon the bowels like after dinner pills and cheap catharties, which simply irritate and inflame the intestines without having any effect whatever in digesting food or curing indigestion.

If the stomach can be rested and assisted in the work of digestion it will very soon recover its normal vigor, as no organ is so much abused and overworked as the stomach.

This is the secret, if there is any secret, of the remarkable success of Stuart's Dyspepsia Tablets, a remedy practically unknown a few years ago and now the most widly known of any treatment for stomach weakness. This success has been secured entirely upon its merits as a digestive pure and simple because there can be no stomach trouble if the food is promptly digested.

Stuart's Dyspepsia Tablets act entirely on the food eaten, digesting it completely, so that it can be assimilated into blood, nerve and tissue. They cure dyspepsia, water brash, sour stomach, gas and bloating after meals, because they furnish the digestive power which weak stomachs lack and unless that lack is supplied it is useless to attempt to cure by the use of "tonics," "pills" and catharties which have absolutely no digestive power.

Stuart's Dyspepsia Tablets can be invani at all drug stores and the regular use of one or two of them after meals, will demonstrate their merit better than any other argument.

A POULTRY SCRAP BOOK.

"Proper and due proportions of care in the management of poultry is worth.

what she would sell her health

for and she would tell
you that the choicest
diamonds in the world
could not buy it. What
use for diamond rings to
emphasize the shrunken
forcers or certifuct to light

ingers, or earrings to light up the cheeks hollowed by

disease?
Health is the first requisite to womanly happiness. General ill-health in women has its origin in local womanly diseases. Cure the diseases of the delicate womanly organism and the general health is perfectly restored. The remarkable benefits experienced from the use of Dr. Pierce's Favorite Prescription

perienced from the use of Dr. Pierce's Favorite Prescription are due to this medicine's perfect cures of womanly diseases. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakiness.

"It affords me great pleasure to be able to say a few words in regard to the merits of Dr. Pierce's Havorite Prescription and his Codden Medical Dellas, Jeckson Co., Mo. "To a tempted to try these medicines after rescing the effect upon my mother. At an early stage of married life I was greatly bothered with painful periods, also a troublesome drain which rendered me very weak and unfit for work of any kind. I became so thin there was nothing left of me but skin and bone. My husband became alarmed and got me a bottle of 'Favorite Prescription.' After he saw the wonderful effects of that one he got me two more, and after I used those up there was no more pain, and I began to gain in lach very trapilly."
"Favorite Prescription" makes

gin to gaia in fiesh very rapidly."

"Favorite Prescription" makes weak women strong, sick women we'll. Accept no substitute for the medicine which works wonders for weak women.

RESPECT OR FEAR.

An Opinion as to What is Due to

Germany.

Berlin, March 21.-Foreign Secretary Von Richthofen in the Reichstag

yesterday said the German Government stood by the Disconto Bank's Vene-

zuelan claims because they represent-

ed German capital and labor. Herr Oertel (Agrarian), recurring to the interviews with Minister Von Sternberg, said he did not see that Germany was loved abroad, but he wanted respect, and, if need be, fear. The speaker added that he believed it was often necessary for diplomacy "to draw off its dancing pumps and put on cuirassier's boots."

ZERO WEATHER IN THE WEST.

The Wyoming Winter Severest in

Thirteen Years.

Cheyenne, Wyo., March 21 .- The bliz-

Cheyenne, Wyo., March 21.—The bliz-rard has passed, but the temperature has dropped below zero, and live stock will suffer severely. Ralph Friend, a prom-inent Ulntah stockman, who has arrived, cays that the winter has been the sever-est since 1890. He estimates that through-out southern and central Wyoming stock-men who fed their cattle lost from 4 to 5 per cent., and those who did not feed fout from 15 to 30 per cent. of their herds. Cattle and sheep were terribly weakened by preceding storms, and per-land in large numbers.

Orange Grand Lodge Closed.

Peterboro', March 21.—The session of the Orange Grand Lodge of eastern Cantarie closed here last night. In addition to the installation of the Grand officers, performed by William Johnson of Belleyille, Past Grand Master, two ballots fixed Kingston as the place of the next annual meeting.

STRANGER THAN FICTION

A Remedy which Has Revolu-

tionized the Treatment of Stomach Troubles

The remedy is not heralded as a wonderful discovery nor yet a secret patent medicine, neither is it claimed to cure anything except dyspepsia, indigestion and stomach troubles with

which nine out of ten suffer.

The remedy is in the form of pleasant tasting tablets or lozengers, con-

ant tasting tablets or lozengers, containing vegetable and fruit essences, pure asseptic pepsin (government test), golden seal and diastase. The tablets are sold by druggists under the name of Stuart's Dyspepsia Tablets. Many interesting experiments to test the digestive power of Stuart's Tablets show that one grain of the active principal contained in them is sufficient to thoroughly digest 3,000 grains of raw meat, eggs and other wholesome food.

Stuart's Tablets do not act upon the bowels like after dinner pills and theap catharties, which simply irritate

"Care means a naturally warm house in winter and plenty of shade in sum-

"It also includes proper exercise. plean water, grit, charcoal and a constant warfare waged winter and summer against vermin, principally lice."
"Medicine should only be needed in Isolated cases. When a whole flock is

sick or out of condition something is radically wrong." "Sick fewls should immediately be but in a place out of sight and hearing

of the rest of the flock, and they alone be given drugs.
"There is no sense and often much harm in drugging a whole flock to cure

a few sick individuals." "Medicine should never be given in water which is contained in metalic

"Warm mash in the morning, so much as will be eaten up clean and greedily in five minutes, wheat oats and buckwheat buried deeply in litter for all day exercise, and parched whole corn in moderate quantities just before

going to roost, for lots of eggs " "Green bone cutters, clover cutters and mills to crush oyster shells are indispensable to up-to-date profitable poultry keeping."

"You can buy your clover cut and your grit and oyster shells crushed. But green bone should be cut at home the fresher the better."

seems impossible that any one should feed tainted green bones to his poultry. He had better not feed any at

"If it would cost him twenty-five cents a pound to burn or bury tainted meat and green bones it would still be cheaper then feeding it to his fowls."
"The farmer that buys a green bone

cutter had best first buy a clover cutter Clover he usually has in abundance the year round and what he will feed his

hens will never be missed."
"But without the cutter there are a
great many chances the fowls will either not get any at all or waste more than "Buy your stock from a live poultry

man. Be slow in making crosses unless you know what you are after. But never use a male for breeding that is a cross.'

"Don't think that pure bred chickens need to be crossed in any way to make them better. If you are not satisfied with the kind you have or the number of eggs they lay, dispose of them and get some other standard variety."
"Whatever else you do don't think

that you can improve any kind of a standard variety by crossing. Or if you like the kind you have but are getting uneasy or a sort of feeling that you ought to do something, kill off all the males and buy new blood of the same

"There is much to learn by close observation of the birds in the breeding pens. Do not be in a hurry at this time to dispose of all your old hens.'

"Find out the best layers, the best all round and desirable hens and hold on to them for breeders year after

"There is money and much profit in holding on to this kind of an old hen."
"There are mongrel hens that lay as
many eggs as the most prolific Leghors but they can not be depended on to transmit the tendency to their progeny, This is where the mongrel fails.

Feeding Bees.

An important part of successful bee-keeping is knowing how and when to feed the bees. Food in some form man be required in the spring to help on a colony to full strength in readiness for the noney flow, but it is often of su-preme importance at the end of the season, so that there shall be surrounding the bees food enough to serve not only for their early wants but also through the early part of the year. The best bee food at all times is certainly honey, but in its place the only substitute admissible is cane sugar, pure, except for a proportion of one six of boney, fed in the form of syrup. Quite thick syrup answers well for fall feeding, but it should be given thinner in spring to prevent the necessity of the bees hav-ing to fly out for water. Very thin syrup should not be given at any time as it is liable to ferment and cause dys-entery among the bees. A good rule for making syrup is to melt three pounds of cane loaf or white crystallized sugar in a quart of hot water for spring feed, and six pounds to the quart of ho water for autumn feeding, mixing is either case one-sixth by weight of honey. In fall, buckwheat honey may be used, but care should be taken not to have much such honey left in the brood chamber in spring for fear som may be taken to the supers when work

may be taken to the supers when work commences. This sometimes occura especially when the colony has wintered on buckwheat honey.

A simple method of feeding is to place the syrup in a basin and place over it a thin plece of wood as a float having a few holes bored in it about the size of a finfer-end. This should be set on the top of the frames inside the hives, when the bees will soon store in the empty broed combs. They should be given enough in autumn to make their future safe—about 30 pounds to each colony in all—in time for them to have it ripened and sealed over before going is to winter quarters
