up, and of the various parts made up, so that  
should there be any portions of the hive you do  
not wish you can easily ascertain what deduc-  
tions to make.

Sample hive, made up.....\$2 90  
Add ten per cent if you wish the hive painted.

## PRICES OF PARTS.

|                                                                                                                     | made up | flat. |
|---------------------------------------------------------------------------------------------------------------------|---------|-------|
| Bottom stand.....                                                                                                   | 12      | 09    |
| Bottom-boards.....                                                                                                  | 15      | 11    |
| Entrance blocks (two).....                                                                                          | 03      | 03    |
| Brood case, invertible, including set<br>screws and frames wired when made<br>up or punched for wiring in flat..... | 60      | 45    |
| Honey Board (wooden) slotted, invert-<br>ible.....                                                                  | 10      | 07    |
| Honey board, metal and wood, invertible                                                                             | 30      | 25    |
| Surplus case, invertible, including wide<br>frames and separators.....                                              | 60      | 50    |
| Cover, half bee-space.....                                                                                          | 15      | 12    |
| Sections, full set of 28 in flat.....                                                                               | 15      | 15    |
| Tin Separators, seven to each.....                                                                                  | 10      | 10    |

The cost of one hive such as you would re-  
ceive, in the flat, would therefore be (without  
honey boards of either description) \$2.15. Add  
the cost of whichever style of honey-board you  
prefer, and you get it exactly. If you do not  
designate either we shall always include the  
wooden-slotted one.

## DISCOUNTS IN QUANTITIES.

For 5 hives or more, 5 per cent. ; 10 or more,  
7½ per cent. ; 25 or more, 10 per cent. ; 50 or  
more, 15 per cent. These discounts are off the  
prices quoted above, either nailed or in flat.

## INDIVIDUAL RIGHTS.

We will sell individual rights to make for one's  
own use, and to use the new hive or any of the  
special features of Mr. Heddon's invention at  
\$5. We do not press the sale of these rights,  
believing that the hives cannot be made to good  
advantage by anyone not having the proper  
appliances. We will sell however to those who  
wish to buy, and for the convenience of such we  
append a list of prices of what we would likely  
be called upon to furnish in any event :—

|                                           |        |
|-------------------------------------------|--------|
| Woodscrews per 100, boiled in tallow..... | \$1 25 |
| Tap bits for cutting threads.....         | 1 50   |
| Tin Separators, per 100 proper width..... | 1 50   |
| Brood Frames per 100.....                 | 1 25   |
| Wide " " ".....                           | 1 50   |

## Heddon's 1887 Circular.

**NOW READY.**

## ALL ABOUT THE NEW HIVE.

Canadians who wish my circular to know about the new  
Hive, ONLY, should send to the D. A. JONES CO., for  
theirs, as I have sold the patent for all the American Brit-  
ish possessions to them, and have no more right to sell  
the hive in their territory than have they to sell them in  
the United States.

Address,

**JAMES HEDDON,**  
DOWAGIAC, MICH.

## HEDDON HIVES!

We are the owners of the patent on this hive  
in Canada, and we are in a position to make  
and sell the hive gotten up in any shape to suit  
the purchaser—either in flat or nailed up.

A complete working hive consists of bottom-  
stand, bottom-board, entrance-blocks, two brood-  
cases, one honey-board, two surplus cases (in  
good seasons we often use three surplus cases on  
the hive at one time) and cover. So that if  
you order these hives in the flat this is just  
what will be sent you.

Sample hives we make with the brood-  
frames wired and the surplus cases supplied  
with fifty-six 4½ x 4½ 7 to the foot sections.  
These are designed for testing the complete  
working hive.

In quoting prices of brood-cases and sur-  
plus cases, the set-screws, brood-frames  
and wide frames with their tin separators  
are always included, both in flat and made  
up. We quote the prices of sample Hives made
