..... " BIM sings and plays with his total energy and his very lyrical style is interpreted in plaintive, heartfelt vocals. BIM's versatility has built up a personal repertoire that includes straight rock tunes, jazz and blues-oriented melodies, ballads and good-time country music. BIM's lyrics at times embrace sensitive, emotional themes, but his technique is never overbearing, he has an easy, whimsical humor that frequently creeps into his music, leaving a warm glow in its wake."
