Kingsmere, Que.,
August 3, 1916.

Mr. Howard Angus Kennedy,
Military Hospitals Commission,
22 Vittoria Street,
Ottawa.

Dear Mr. Kennedy:

I have received your letter of August 2nd, and Mr. McGregor has told me of his conversation with you and has given me the article left with him. It will not be possible for me to consider writing anything for some little time, as I am at present working under great pressure to complete a portion of some research work on which I have been engaged for some time past. Part of this work must be completed within a given time, and until it is finished I cannot possibly consider undertaking any fresh writing.

I remember you, of course, very well, and it would give me a special pleasure to co-operate in any way that might be helpful. When I get back to Ottawa I shall surely look you up, and we may perhaps have the opportunity of talking over together matters of mutual interest. Meanwhile, let me say that I am pleased to know that you have come to reside in the city, and that I feel there can be little work more worthy or important than that in which you are engaged at the present time.

With kindest regards,

Yours very sincerely,

W. L. MACKENZIE KING
