STRUCK WITH A HAMMER.

LITTLE SON OF MR. BRODERICK KILLED AT LONDON.

The Missile Was Wildly Thrown, by a Participant in the Western University Field Sports.

London, Ont., Oct. 29.—The annual field sports of the Western University students on Huron College campus were brought to a sudden end by a most melancholy occurrence. A goodly crowd of both sexes assembled to witness the games, and it was when the twelve-pound hammer-throwing contest was in progress that the accident happened. In delivering the hammer one of the competitors, a medical student, threw wild to one side. The spectators, seeing the missile coming, rushed in to avoid it, but Edward, the seven-year-old son of Mr. P. W. D. Broderick, Manager of the Molsons Bank here, was not quick enough, and received a terrific blow on the head. The horrified spectators crowded around the unconscious youth, who was quickly removed to St. Joseph's Hospital. His injuries consisted of a fracture of the base of the skull, and he died last evening. The young man who threw the hammer is grieved-stricken over the affair.

SCORES J. P. MORGAN.

RECEIVER OF U.S. SHIPBUILDING COMPANY REPORTS.

Uses Strong Words in Dealing With Negotiations of Morgan, Schwab, Harris and Others.

New York, Oct. 29.—The American says to-day:—J. Pierpont Morgan, Charles M. Schwab, Col. J. J. McCook, and others, are severely arraigned by Receiver James Smith, jr., in his report on the United States Shipbuilding Company's affairs, which was completed last night for filing with United States Circuit Judge Kirkpatrick, in Trenton. Receiver Smith states that Charles M. Schwab, J. Pierpont Morgan, Herbert Satterlee, Morgan's son-in-law, and several vendors or controlling owners of constituent companies, received bonds and stock for which no equivalent was ever paid the United States Shipbuilding Company. His report charges that Schwab and Morgan alone received \$20,000,000 preferred and common stock, for which they rendered absolutely no equivalent. He strongly recommends that all such holdings be assessed at a fair estimate on their face and market value. He also characterizes as reprehensible the secret Morgan-Schwab-Harris-Gates and Company agreement by which the \$20,000,000 of Morgan and Schwab preferred and common shipbuilding stock was to be marketed in advance of the outside securities.

Ugly terms, such as "fraudulent" and "unconscionable" abound in the voluminous report, which is remarkable also for its drastic handling of the various questionable phases of United States shipbuilding promotion, and practically the sale, or loan, of the Bethlehem Steel Co. by Charles M. Schwab. Receiver Smith goes so far as to intimate strongly that Charles M. Schwab was acting simply as an agent for the \$200,000,000 dollar steel trust when he paid \$7,200,000 for the Bethlehem plant.

WANT A RAILWAY EXPERT.

Addition to Manufacturers' Association Staff.

Toronto, Oct. 29.—A railway expert is to be added to the staff of the Canadian Manufacturers' Association. The advisability of such an appointment was brought up at the recent annual meeting of the association, and was left in the hands of the Executive, as funds would have to be provided for the maintaining of such an official. It has been decided now to at once advertise for a man to look after the transportation interests of the association. He will have to be a man who has been in railway work himself, and is familiar with tariffs and the making of tariffs. His duties will include the arranging of rates for the members of the association, to deal with complaints of the individual members, and take them up with the railroad authorities; in fact, to stand between the members and the railways. He will be attached to the permanent staff of the association.

Mr. J. Willard Smith of St. John, N.B., has been appointed forwarding agent of the association at St. John.

LOSS OF MILLIONS

In the Canada Cycle & Motor Company.

Toronto, Oct. 29.—The shareholders of the Canada Cycle & Motor Co. will be asked at the annual meeting this afternoon to ratify a by-law of the directors providing for re-organization of the company by the reduction of the capital stock of the company to \$600,000, of which \$100,000 will remain in the treasury. This reduction of the capitalization is to be effected by cancellation of the \$3,000,000 of common stock of the company and reducing the par value of the 3,000,000 of preference stock from \$100 to \$20 each, such preference shares becoming then shares without preference or priority. The European business has been closed out, having proved unprofitable. No special changes took place in the Canadian business, and the Australian business has been satisfactory. By contraction of expenses and better organization large stocks of surplus bicycles have been cleared out, and the business conducted so as to show a net profit of \$20,348.90, after provision for the collection of bad and doubtful accounts.

SAM PARKS ON TRIAL.

Charged With Extortion From the Tiffany Stores—Strange Evidence.

New York, Oct. 29.—The trial of Sam Parks, the notorious walking delegate, on charges of extortion from the Tiffany stores and studios, was commenced. Benjamin Thacker, David Fraze and Louis Schmitt, superintendents of various departments of the Tiffany concern, testified as to paying to Parks a "fine" of \$500 in bills and gold, in order that the employees might be allowed to continue at work without molestation. After the money was paid Parks had said the firm could employ union or non-union men as they saw fit. If any of the union men objected to working with non-union men, Parks would see that they were fined \$50 and prevented from working in the city. He declared that the money was for the use of himself and a few friends.

Brampton Libel Case.

Brampton, Oct. 28.—At the Assizes to-day before Mr. Justice MacMahon, Archibald McLellan was tried for criminal libel against Thomas J. Blain, barrister and Town Clerk of Brampton. The libels in question were contained in placards posted up in various parts of the town. The jury found the defendant guilty, and he was allowed to go on suspended sentence. His Lordship intimated that any repetition of the offence would bring a severe sentence. This concluded the business of the court.

LIVERPOOL ENTHUSIASTIC.

TREMENDOUS OVATIONS ACCORDED MR. CHAMBERLAIN.

His Clever Appeals to the Working Men—The London Times' Comments Upon the Speech.

London, Oct. 29.—Mr. Chamberlain made two more speeches at Liverpool yesterday, and the enthusiasm was even more striking than on the previous day. During the luncheon given by the Lord Mayor thousands of people assembled under the windows, and from the street the roar of their huzzahs frequently drowned the speaker's voice. When he dealt with the complicated statistics of food prices those on the street broke into wild and delirious demonstrations, while those in the assembly hall remained silent, hanging on to every word he spoke. Combating Lord Goschen, Mr. Chamberlain declared that the extra prices to the consumer bore no real proportion to the amount of the taxes. Figures were only the illustrations of an argument, and he had come to a totally different conclusion. He appealed to the past, beyond Sir Michael Hicks Beach, Sir William Vernon Harcourt and Mr. Ritchie, to a Chancellor of the Exchequer who was greater than all, namely, Gladstone, who said: "If you want to do the working classes the maximum amount of good you should operate upon their articles which give them the maximum employment." At the second meeting before the Conservative Workingmen's Association Mr. Chamberlain asked of what use it is that a weaver of Halifax should nominally receive a high rate of wages, when there is actually no work for three days in the week; what use is it that a Lancashire operative should be credited on paper with higher wages than fell to the lot of the German or French millhand when long periods of short time occur, and raw materials are rendered unobtainable by the market manipulations of American speculators? Free trade was responsible for the failure of the raw cotton supply. Had Britain learnt wisdom from the events of the famine of forty years ago she would have taken steps for the encouragement of the cotton industry in India or the West Indies. There had been too much trusting to luck with the British Empire and its industries. He reminded the audience that an experiment in protection could do no great harm. Other States had proved that protection does not mean disaster. British exports, not German or American, had declined under foreign protection, and protected industry can undersell free trade, or how else could they explain that American manufactured exports to Britain rose between 1890 and 1902 from \$70,000,000 to \$21,000,000, while British manufactured exports to the United States fell from \$20,000,000 to \$19,467,000? The time must come when the cycle of bad trade and the things he dreaded would be concentrated upon them. With the influence of the working classes he hoped to seize the first opportunity to alter the system under which this was possible. The doctrine that a tax for revenue was justifiable, but must be condemned if it benefited the whole country and advanced Imperial ideals, was preposterous.

The Times to-day says Mr. Chamberlain made a great impression by his earnestness, and pointed out the fundamental questions of increasing employment and keeping our market to ourselves. This missionary of empire has given voice to the vast mass of inarticulate disgust and alarm at the consequences flowing from a pedantic adhesion to a mongrel system, built up ex post facto around a spurious policy of free imports, and illogically surviving the death of that laissez faire doctrine on which it was founded. Mr. Wyndham's speech yesterday at Dover may serve to assure Mr. Chamberlain that the progressive elements, the Cabinet men of the future, are on his side.

A TASK FOR LITTLETON.

Must Tackle the South African Labor Problem.

London, Oct. 29.—The new Colonial Secretary's first important duty will likely be the settlement of the South African labor question. The commission will report in a few days. If the introduction of Chinese labor is recommended, Hon. Alfred Lyttelton will have to face a delicate problem. In the meantime the mine-owners are doing all that is possible to shut out European labor for political reasons.

THE LIBERAL-UNIONISTS.

Letter From the Duke of Devonshire is Causing Uneasiness.

London, Oct. 29.—The Duke of Devonshire's latest pronouncement is causing uneasiness among the Liberal-Unionists. The Duke, writing to Sir Jonathan Backhouse, said that, having regard to the proceedings of the conference at Newcastle, it may be necessary to reconsider the position of the Liberal-Unionists towards the question referred to, which question is the possibility of the free trade Unionists rejoining the Liberal party. Mr. Chamberlain at Liverpool said that he hoped the Duke of Devonshire might induce the so-called free traders to change their name, for they had done more than anyone else to tax food.

Killed an Innocent Woman.

Jacksonville, Fla., Oct. 28.—While attempting to secure her husband, who lived near Jennings, Fla., a mob of men shot to death Jennie McCall, a negro woman, last night. The mob surrounded McCall's house, and, thinking he was inside, fired a volley into the house, instantly killing the woman. A posse is reported to be in pursuit of the assassins.

NIGHT WEAR.

"In order to acquire
The sleep you desire,
We have what you require
Before you retire."

Men's Night Robes and Pyjamas receive a great deal of attention in the selection of our Furnishing Stock.

PURITY.

LAGER BEER

"The Beer That is Brewed in Glass"

Lager Beer made in an impure cellar or imperfect vat becomes infected, is unhealthful, and liable to cause headache, sour stomach, and bowel troubles, and, as it will not keep, unprincipled brewers use preservatives to prevent its getting worse and the consumer has to suffer for it.

In Munich, supposed to be the home of Lager Beer, glass-lined steel tanks are rapidly superseding the wooden ones. This is done because they are thoroughly convinced of the bad effects arising from the use of wooden fermentation tanks.

In olden times Lager Beer was fermented and stored in underground cellars and left in damp, mouldy cellars to acquire "AGE" but all the time it was gathering bacteria and other wild ferment. Now, in a modern brewery, Lager Beer is brewed in glass, in the light, remains above ground and is watched carefully from the moment it leaves the kettle until it reaches the consumer. Frequent analysis has proven its superiority over beer made in the old way, and any one with the least judgment can see that it must be purer and more wholesome.

Walkerville Beer is the thing that will cheer
The cookies of your heart;
But the miserable stuff, made in cellars of must,
Is worse than a poisoned dart.

TO SAVE THE UNITED STATES.

Conditions Are Bad, and Manufacturers Fear Socialism May Triumph.

Chicago, Oct. 29.—D. M. Parry of the National Manufacturers' Association, Victoria, B.C., Oct. 29.—The Gov. of the convention of the Employers' Association, which will open here to-morrow, said:—"The greatest work, perhaps, will be an effort to save the republic. Conditions are so bad that it will not be long before the nature of our government is changed and we shall have socialism. We propose to see that the present condition of affairs is preserved. We will show the workingman a better way to improve his condition than through the union as they now exist or through socialism."

The people who run into debt generally crawl out.

2 WAYS

Of doing business. Some content themselves selling few goods at large profits. We want to sell lots of goods at small profits. That's why we are kept busy all the time.

7 lbs. Rolled Wheat, 25 cts.
Pickles, 10 cts. per bottle
Roda Biscuits, 50 cts. per lb.
New Prunes 5 cts. per lb.
3 lb. Tins Soda Biscuits, 25c
Ginger Snaps, 60 cts. per lb., good quality
1 lb. fresh ground coffee, 15 cts.

CROCKERY

Our China for presents is selling fast—large assortment fine new goods at prices that will ensure quick sales. Dinner, Tea and Chamber Sets at a price that keeps them on the move. Call and see them.
