Burdock
BLOOD
BITTERS

EVERY-DAY

QUESTIONS

PLAINLY ANSWERED.

Q What is B. B. B. that the people are praising so highly?

Burdock Blood Bitters is a purely vegetable compound of various roots, plants, barks and berries, comprising the very best tonics, blood purifiers and system regulators known in medicine, of which the well-known Burdock root is but one of many.

Q What Does B. B. B. Cure?

Burdock Blood Bitters positively and radically cures all curable diseases of the stomach, bowels, liver, kidneys and blood, such as dyspepsia, constipation, chronic liver complaint, kidney troubles, scrofula, and all blood humors.

Q How does B. B. B. effect so many cures?

By acting upon the four cardinal points of health: the stomach, the liver, the bowels and the blood, simply by opening the outlets for disease, with its poisonous humors to escape, thus purifying the vital fluid, the blood, aiding its proper circulation, while it tones every organ to a healthy action, giving strength to the weakened body, while performing its work of purification. In this manner and in no other can chronic disease be successfully treated.

Q What Proof have we of its Good Works?

The testimony of thousands who have been cured after all else had failed. Identical letters from the parties, who may be written to, or seen by any who doubt. The testimony of all respectable dealers in medicine, who declare they sell more Burdock Blood Bitters, and with better satisfaction to customers, than any similar medicine handled. And best of all, the evidence given upon actual trial—when prompt relief and positive benefit will speedily prove to sufferers from chronic disease that they have

FOUND THE RIGHT MEDICINE AT LAST.

Burdock Blood Bitters is sold throughout Canada and the U. S., by all Dealers in Medicine.
