

PREFACE.

The fourth edition of THE CANADIAN MINING MANUAL will, it is hoped, be found to contain, as in former years, much reliable and useful information respecting the mineral industries of the Dominion and the operations of Canadian mines and mining companies. The Mining Laws of each of the Provinces have again been included, but in view of contemplated amendments to some of the Provincial Statutes, the Acts respecting the organization of Joint Stock Companies have, this year, been omitted.

OTTAWA, 1st May, 1894.
