

MARKET REVIEW AND FORECAST

Toronto, Monday, January 8th.—Business men have about as much to say for their books for the year 1911, and reports from the majority would indicate that the last year showed a very good business over the year 1910. The most unsatisfactory outlook at the present time is in the Canadian North-West, where some firms have asked for renewals on their notes which never before asked a favor. In spite of their bumper crops, financial conditions in the West at the present time are none too good.

A review of conditions in the produce markets this week shows wheat strong and other line steady. Cattle and hogs are firm at the old prices. Sheep are higher.

WHEAT

The export trade in wheat has been better this week than for many weeks past. Offers made to Old Country are being accepted readily. This new strength is due to alarming news from the Argentine, where there has been great damage. Prospects at present are that wheat will continue strong until the opening of spring at least. On the local market No. 1 Northern is quoted at \$1.09 1/2; No. 2, \$1.06 1/2; No. 3, \$1.07 1/2; Manitoba and wheat, 72c. There is no change in the situation so far as Ontario wheat is concerned. The ruling price is 96c to 98c outside.
