There is reported to be an attempt on the part of one exporting house in Montreal to corner the cheese market, but it is doubtful if it will succeed. Prices, however, will likely continue at a high level, though buyers say that they are not making any money and consumption is beginning to fall off in England.

Butter is also on the up grade, 22c. to 22 1/2c. being quoted at Montreal for the best "Township" creamery. There is a good local demand. Creamery prints are quoted here at 21c. to 23c., and solids at 19c. to 21c., and dairy prints at 17c. to 19c., and solids at 15c. to 18c. per lb. On Toronto farmers' market, butter brings 22c. to 24c. per lb.

LIVE STOCK.

Receipts of live stock during the past week have ruled fair and buyers have had nothing to complain of in the way of supplies. The quality of the fat cattle offering is only fair and the bulk of those brought to market are very much below what is wanted for the best class of butchers' trade. Good to choice cattle are in demand

TO WHOM IT MAY CONCERN.

This is to certify that I have tested the MAGNET Cream Separator for skimming qualities and also for its output capacity.

I tested the MAGNET severely and I must say that it is the best Cream Separator with which I have come in contact.

I strongly recommend it to any prospective buyer and can assure him that he is procuring a first-class machine.

(Signed) H. A. SHAW,
Dairying Instructor, Sask. Gov.

MAGNET quality means double support to the bowl; strong square gear; perfect skimming; easy turning; easy cleaning; improved ball race; absolute safety; strong and rigid frame.

These points are where the MAGNET differs from all others. Get our 1907 catalogue.
