

## Why Every Farmer Should have a Telephone.

A telephone, in a farmer's home, not only enables him to keep constantly posted as to market prices, but saves him needless trips to town.

With it he can know, not only the news of his neighborhood, but of the surrounding country as well.

If a telegram or other important message comes, it can be delivered without loss of time.

A telephone enables the farmer to have his machinery repaired instantly.

It will, at a moment's notice, summon a doctor and may be the means of saving your wife or your child's life.

By means of a telephone, you can, in case of fire, summon your neighbors to come to your assistance and so save your stock and buildings.

With it you can make social calls without the necessity of having to drive for miles on a sultry or freezing night.

But don't buy a telephone simply because it's cheap—a telephone is more than a plaything or an ornament.

Write us for particulars about a rural telephone that can always be relied upon, with cost of installing, etc.

You can build and operate your own telephone line.

The lock on Frost Woven Fence

### Frost Agents have Reasons to "Crow." They increased their sales 25% last year. Why not join them?

Nine out of ten Manufacturers, Merchants and Agents will tell you that last year was a "lean" business year, yet "Frost" Agents did not find it so. They increased their sales of "Frost" Products 25%. Do you wonder that they are crowing?

There are reasons for the conspicuous success of "Frost" Agents. The reputation of their goods gives them an influence no other Fence Agents have. They have the most complete line: Woven Wire Fence, Field Built Fence, Ornamental Fence and Gates. No order they cannot fill. They can supply every possible fence requirement.

They are able to sell fencing of the famous "Frost" quality at a rate that makes the price for inferior goods appear highly unreasonable, to say the least.

On account of its elasticity, the farmer has great faith in Coiled Wire for horizontals in his wire fence. Without that springiness or elastic feature, wire fence will, as you know, soon become slack, unsightly and fail to give the service required.

"Frost" Coiled Wire has made "Frost" Field Erected Fence famous. But provisions for expansion and contraction are as necessary in a machine-made fence as in the field-built kind. In "Frost" Woven Fence there are extra provisions made for this. A piece of this fence stretched on the posts has every

appearance of a field-built fence with coiled laterals. Horizontals and Stay Wires in the "Frost" Woven Fence are identically the same grade as the "Frost" Coiled Wire used for horizontals in "Frost" Metal Lock Fence. Now we are increasing our field force this year, so why not join our "crowing" Agents and take orders for the easy selling "Frost" Products, and largely increase your Bank account.

Remember there is only one "Frost" Wire. The farmers have become educated to this and you will find a big trade awaiting you.

Lock on Frost Field Erected Fence
