LATEST CABLE NEWS.

London, Aug. 15, 1883. There was a violent scene in Parliament on Monday night, recalling to mind the conflicts of the Forster period. The Irish members denounced in scathing language the abominable conduct of the Government, the administration of the law in Ireland, the packing of juries, and the bribing of infamous scoundrels and self-confessed murderers to swear away the

lives of innocent men. The conflict, car-ried on until three o'clock in the morning, arose on the votes to pay the expenses of the prosecution in the Phonix Park trials,

the prosecution in the Phanix Park trials, and of the other prosecutions under the Coercion Act. The English papers of this morning comment on the scenes in the House in virulent lying articles entirely misrepresenting the object of the Irish members. Comparative calm was restored during last night's session.

The Irish party have won two victories of wide-reaching importance. The Registration Bill passed through committee. This measure will secure nine-tenths of the Irish representation to the Parnellites in the next Parliament. It is rumored that the Lords intend to throw the Bill out, which will be a most dangerous game that the Lords intend to throw the Bill out, which will be a most dangerous game for them. The Tramways Bill was read a second time. This is a most extraordinary measure—a sort of Omnibus bill. It guarantees two per cent. on a loan of ten million dollars to develop the tramway system through the poor districts of Ireland; gives \$250,000 as a gift to support Mr. Parnell'smigration scheme; gives \$250.000 to help the emigration clause; and amends the Land Act so as to enable companies to purchase estates in the Landed Estates Court and make resale to tenants, the Government advancing 75 per cent. of the Government advancing 75 per cent. of the purchase-money. The Bill practically begins a system for establishing peasant proprietary by State aid. The emigration clause was inserted under Mr. Parnell's clause was inserted under Mr. Parnell's threat to oppose the passage of the emigration scheme pure and simple. The measure is regarded as a great triumph for the Parnellite party. It will confer solid advantages on the people.

London, Aug. 19.—During the session of the Commons yesterday Gladstone took occasion to rebuke what he termed "the occasion to rebuke what he termed by the occasion to rebuke what he termed "the occasion to rebuke whe the occasion to rebuke what he termed "the occasion to rebuke occasion to rebuke what he terminated habitual violence of language used by Healy, Home Ruler, member for Monaghan county." He said Healy's utteraghan county." He said Healy's utter-ances deserved the severest reprobation, as they were calculated to stimulate national hatred, which it had been his (Gladstone's) desire to mitigate and, if possible, exterminate. He regretted that Healy had minate. He regretted that Healy had pleaded the wrongs of Ireland as an excuse

for his remarks.

While Gladstone was speaking he was frequently interrupted by Biggar, Home Ruler, member for Cavan county.

The speaker finally notified Biggar that if he did not desist he would name him in the Hose.

if he did not desist he was the House.

Healy, in responding to Gladstone, was very defiant. He declared that there was a state of war between England and Ireland, which would become physical warfare if the Irish had power to engage in the struggle. Ireland, he said, wanted justice and not appeals to fine sentiment.

The Commons continued its session until 2:20 o'clock Sunday morning. The Supply Bill was finished, and the Irisk Tramways Bill received its third reading.

ANOTHER ENGLISH SCARE.

London, Aug. 11.—English land-owners are excited over the proposed agitation in the United States against British investments in American lands. The newspapers contain long discussions on the subject. The excitement was started by despatches from New York giving the history of the recent meeting of the American National League at Coney Island. These telegrams stated that the League had appointed a secret committee, composed of first-class title lawyers, to ascertain exactly how many titles to land in the United States are held by persons who remain foreign subjects, and report the names and possessions to the League. The organization is to issue millions of copies of pamphlets containing all the facts, to distribute these carefully, and to so arrange the agitation against the policy of allowing aliens to become real estate owners in any of the United States as to make the question against the policy of allowing aliens to become real estate owners in any of the United States as to make the question aparty issue in the next presidential campaign. It is thought here that Mr. Parparty issue in the next presidential cam-paign. It is thought here that Mr. Par-nell, A. M. Sullivan and Henry George nell, A. M. Sullivan and Henry George are the direct inspirers of the movement, and it is feared that the agitation may become very serious and troublesome. The ground which will be taken by the agitators, it is understood, will be that British influence is already too great in American affairs, that this influence shows a national tendency to Anglicize the land, laws and landlordism in the American Union, that the influence ought to be checked, that if British aliens are allowed to acquire American real estate, there will checked, that if British aliens are allowed to acquire American real estate, there will be a steady growth of English influence in American legislation which may ultimately prove inconvenient if not dangerous in the foreign relations of the United States.

Whereas, Brother Jno. J. McIntyre has been suddenly removed from our midst, by the hand of the Almighty, to whose Divine will we humbly bow.

That by his death we have lost a true brother, and his family is bereft of a dutiful son, good husband and father.

Therefore be it Resolved—That we the members of Branch No. 3 of the C. M. B. THE TELEGRAPHERS' GREAT STRIKE,

There is every indication that the demand for Telegraph operators during the fall and winterwill be altogether unprecedented inthe history of Telegraphy, and consequently we have decided to re-open our Telegraphic Department at once, so as to enable those who wish to qualify themselves at a very small outlay, in a short time, for remunerative employment, to do so.

employment, to do so.

The cost of a course in Telegraphy is trifiing. The time required to become a good
operator is only from three to four months.
The chances of obtaining a good situation
amount almost to a certainty. The remuneration, from the beginning, is all that could
be reasonably expected, and promotion is
rapid if the operator be steady and trustworthy.

Now is the time, the London Commercial College is unquestionably the place to learn Telegraphy. Situations for the asking, and large salaries to begin with, are awaiting all who learn within the next few months. Our facilities for teaching the Art are unsurpassed.
