enjoyed themselves much, and, while they were dimly returning happily to their homes. For the first time we learned that it was not to end the proceedings, for Mrs. Knight, to whom many thanks are due, had prepared a splendid supper for the adult friends present, and would not be satisfied until all objections being waived, they were seated around the well spread board.

DEAR SIR, - It is but justice to this Circuit that the results of the Jubilee Meetings which have just been concluded, be made known. The Deputation appointed to visit - Rev. Charles Stewart, Chairman of the District, and Rev. Geo. Butcher - were present in coming, though a severe rain storm prevailed. According to arrangements Rev. G. Butcher preached at Bouchette on Saturday evening, and Rev. C. Stewart on Sabbath morning. The next service was held at Kingston Chapel, where Bro. Stewart preached in the afternoon, and from thence he came to Richibucto where he again preached in the evening - Bro. Butcher remaining at Kingston to hold an evening service. These services were held at evening prayer, and the congregations, attended by large and intelligent congregations, a divine power and unction manifestly accompanied the word preached. The congregation at Kingston exceeded in number any which had ever been gathered within those walls. Through the effort, and at the expense of our long-tried and earnest friend Henry Peters, Esq., the chapel at Kingston has been removed from its former site to a central and very eligible position, the new edifice is now nearly finished, and will be ready for occupancy on the 1st of the next month. The Jubilee meetings proper were announced to be held in Richibucto on Monday evening, and at Bouchette on Tuesday evening. It was feared that on account of local circumstances very little would or could be done on this circuit for the Jubilee Fund; and those fears were not at all dispelled as Monday dawned upon us with heavy rain, which continued unintermittently through the day. Monday - many as it was - did not pass unimpaired. A few friends met the ministers, who talked over the state of the circuit, the difficulties which now press us, which have passed us for years, and the earnest resolve was adopted to proceed at once to such action as shall result in the erection of a Wesleyan Parsonage, during the period of the Jubilee. Our own denomination a position second to none, and he urged the support of its present scheme, as alike to us, a matter of duty and of privilege. We did not learn the result of these services in a pecuniary respect. Yet we must confess our fear, that it was not all that might have been expected. There have sometimes been announcements made which have taken us all with great surprise. We do not say that there are no contributions of this character on the Amherst Circuit - we hope there are - but it was not our duty to hear them named. The spiritual and temporal good which has been realized as the result, directly or indirectly, of Methodism, cannot be estimated by monetary value. It is not, as we shall not have hundreds, to represent some sense of the obligation? This communication is already long, but allow me to crave room for yet another notice of a similar occasion. Being appointed with the Rev. G. Butcher to visit the Richibucto Circuit, on that and on the succeeding day, we found to be exceedingly difficult, owing to the great wind and rain. However, we reached Bouchette on Saturday evening, and found our way to the residence of J. Doherty, Esq. At a school room near by, Bro. Butcher preached an excellent sermon to a congregation which packed the building, his text was, "The Kingdom of God is within you." He spoke so deeply interested, and we left the house feeling certain that the precious seed then sown would not perish, and that our work on this Circuit was happily inaugurated. A large congregation at the Bouchette Church assembled on the following morning. After the usual service, we drove a distance of about seven miles to the village of Kingston. This edifice stood for some time quite out of the way, but by the kindness of a Presbyterian family a more eligible site has been granted, and at an expense of sixty pounds, borne in great part if not entirely by H. Peters, Esq., a valuable local preacher, the removal of the church was effected last summer. Those who laboured for this result, now so accomplished, may rest with satisfaction on the result, and with the hope of some assistance from abroad, they expect to have a parsonage ready by next summer. The Jubilee meetings there on Monday evening and at Bouchette on Tuesday evening, were decidedly successful. It was said at the District Meeting, that such were the burlesque and embarrassments of the Circuit, that if anything should be expected for our Fund, it would nowhere have been seen more liberally. I speak of the Jubilee Fund, and also of the fact, that the hope of some assistance from abroad, they expect to have a parsonage ready by next summer.
